REASON FOR REFUSAL

- 1 The application appears to misrepresent the extent of land raising carried out at the application site. It appears the land raising carried out is over a larger area than indicated in some of the application drawings and that the increase in levels adjacent to 47 Manor Road is significantly more than the 400mm indicated. Moreover, the development carried out appears to also include the erection of a retaining wall and the erection of an outbuilding. By reason of its height in relation to land levels at 47 Manor Road and its proximity to the site boundary with 47 Manor Road the development as a whole is likely to result in excessive overlooking of the rear garden of 47 Manor Road and appear excessively overbearing when seen from that rear garden. The trees in the rear garden adjacent to the works carried out cannot be relied upon as permanent mitigation of the harm to the living conditions of 47 Manor Road. As a consequence, the proposed development is likely to cause significant harm to the living conditions of 47 Manor Road contrary to Local Plan and Alterations policy DBE9 which is consistent with the National Planning Policy Framework.

Way forward:

Members considered restoring land levels to the levels prior to the commencement of the development and removal associated works that are either required for the land raising operations or rely upon them, including a retaining wall and part of an out building, is likely to address the objections raised.
