1.0 Introduction and Confirmation of Brief

- 1.1. Pellings LLP are appointed as part of East Thames Group Technical Team in respect of delivery of Development Agent services to Epping Forest District Council for a 6-10 year housing delivery programme.
- 1.2. Following initial appraisal by EFDC, 59 sites have been identified as having possible development potential, with a further number of sites in reserve.
- 1.3. Pellings LLP has been instructed to progress feasibility studies to all 59 sites, which will assist in establishing the extent and timing of the overall programme.
- 1.4. Our instructions are in accordance with our fee tender of 13 August 2012, against the previously prepared tender documentation, and email confirmation of 9 April 2013.

2.0 Existing Site and Surroundings

- 2.1. The site is located within Chipping Ongar to the rear of houses fronting St Peters Avenue which is located to the north of Chipping Ongar.
- 2.2. The site is accessed from St Peters Avenue and the west of the site is formed of garage blocks to two sides with hardstanding between.
- 2.3. To the east of the site is a community orchard that has been planted in the last few years access for vehicles and pedestrians is via the garage forecourt.
- 2.4. The general surrounding area consists of apartments, semi-detached and terraced dwellings dating from the 1950's.

3.0 **Proposals**

- 3.1. The proposals are as shown on drawing 612.023/P4-29P Revision A and comprise:
 - 8 x 3 bed 2-storey terraced houses @ 93m²
 - 23 parking spaces
- 3.2. Given the linear nature of the site and the number of dwellings proposed it is considered that the current access will need to be widened to adequately serve the development. This would require negotiation with the council tenant residing at 44 St Peters Avenue.
- 3.3. Alternatively negotiation with the private owner at 42 St Peters Avenue would also allow for the widening of the existing access. A further option would be to access the site via a new access created from space available at 13 Moreton Road subject to negotiation with the owner.
- 3.4. If the access to the site is unable to be resolved a smaller scheme of three units in the west part of the site could use the existing access whilst retaining the community orchard.

4.0 Planning Issues and Risks

- 4.1. The adopted Development Plan for Epping Forest Council is the Combined Local Plan 1998 and Local Plan Alterations 2006.
- 4.2. The site is not identified as being within a flood zone.
- 4.3. The site has no site specific policies however consideration will need to be given to the following policies where they comply with the NPPF:
 - ST4 (Road Safety) States the planning permission will only be granted where there will be no adverse effects on the highway, traffic congestion or harm to the character or appearance of the area.
 - CP7 (Urban Form and Quality) Encourages the efficient use of existing built-up areas by the recycling of vacant, derelict, degraded and underused land to accommodate the redevelopment of and re-use of urban sites, which are no longer appropriate to their existing or proposed use in the foreseeable future, for alternative land uses.
 - H4A (Dwelling Mix) States the needs for a range of dwellings, including an appropriate proportion of smaller dwellings, to meet identified housing need on a site-by-site basis.
- 4.4. It will be necessary to undertake a parking survey and prepare a transport statement to demonstrate that the loss of parking would not be detrimental to highway conditions or the amenities in the area because of a lack of parking.
- 4.5. The site is within the urban area and would comply with policy CP7.
- 4.6. The site would comply with policy H4A providing additional family housing.
- 5.0 Impact/Implications of Statutory Services
- 5.1. We have undertaken statutory services enquiries to the following:
 - Vodaphone
 - BT Openreach
 - National Grid
 - UK Power Networks
 - Virgin Media
 - National Grid
 - Scottish and Southern Energy (SSE)
 - Environment Agency
 - Thames Water

Responses have been received as follows:

- 5.2. Vodaphone: No issues.
- 5.3. BT Openreach: No issues.
- 5.4. National Grid: No issues.
- 5.5. UK Power Networks: No issues.
- 5.6. Virgin Media: No response

- 5.7. SSE: No issue
- 5.8. Environment Agency: No response
- 5.9. Thames Water: No issue
- 5.10. It should be noted there are a number of responses to enquiries that, at time of preparation of this report, have not yet been received.

6.0 Site Access and Buildability Issues

- 6.1. The site is accessed from existing site roads and there would not appear to be any particular difficulties for the normal level and size of construction traffic associated with a development of this nature.
- 6.2. Areas should be available for contractor's site set up and accommodation.
- 6.3. The site is within a primarily residential area, and accordingly, any appointed contractor should use all best endeavours to act in a considerate manner and within normal working hours.
- 6.4. Further to initial enquiries made to EFDC, some potential contamination issues have been highlighted with use of the domestic garages. Possible contaminants indicated within the note produced by EFDC Planning and Economic Development Directorate at Appendix D.
- 6.5. Possible contaminants in respect of the previous use of the garage site may include asbestos, ash and clinker, hydro-carbons from vehicle maintenance and the like.
- 6.6. Accordingly, suitable site investigation will need to be undertaken ahead of any proposals to take this site forward and specific recommendations made to deal with any contamination found, whether by capping or removal from site.

7.0 Neighbourly Matters and Party Walls

- 7.1. As above, the proposed development site is within a primarily residential area and the appointed contractor should act in a considerate manner. It is proposed that restrictions on working hours, noise levels, requirement for resident liaison and similar matters will be included within contract documentation.
- 7.2. From proposals on Drawing 612.023/P4-29P Revision A we do not consider that Party Wall matters will be relevant to development proposals.

8.0 **Proposed Procurement Route**

- 8.1. It is understood that development works will be procured by way of the East Thames Housing Group existing contractor framework arrangements.
- 8.2. It is proposed that works shall be procured on a Design and Build basis with the contractors taking forward RIBA Stage 3 planning consent drawings into detailed design and construction delivery on site.
- 8.3. Schemes shall be designed to a set of Employer's Requirements to be subsequently confirmed but which substantially shall be formed from existing East Thames Housing Group Design Standards and Employer's Requirement documentation.

- 8.4. It is proposed that all site preparation works will be included within individual contract packages including any required demolitions, adjustment of statutory services, highways works and boundary maintenance/reinstatement/provision.
- 8.5. On completion of the feasibility studies for the whole programme, further recommendations will be made in terms of how works are packaged to ensure size of work packages are optimised for ensuring maximum economies for East Thames Housing Group and EFDC.
- 8.6. It is considered, at this stage, that this may be by way of a mix of different sized contractors dependent upon the numbers and geographical location of individual works packages.
- 8.7. Works will be administered by Pellings LLP as Employer's Agent acting in accordance with East Thames Housing Group terms of appointment and the over arching requirements of the Development Agency agreement.

9.0 Impact on Parking

- 9.1. The Council's currently adopted parking standards are contained within Essex County Council's Parking Standards Design and Good Practice Guide September 2009. These revised standards were adopted by the Council as statutory planning guidance in February 2012.
- 9.2. Flats and houses have the same parking standard as follows:
 - 1 bedroom accommodation 1 space per dwelling
 - 2 bedroom accommodation and above 2 spaces per dwelling
 - Visitor parking 0.25 spaces per dwelling (rounded up to the nearest whole number)
- 9.3. The proposals would appear to more than meet the Council's parking standards for new development.
- 9.4. However, should the site move forward to planning application stages, it is recommended that a Transport Statement be undertaken, including parking surveys, to demonstrate that the loss of the garages will not give rise to any planning or highway problems.
- 9.5. Cycle parking will need to be provided at 1 secure covered space per dwelling if a garage or secure area is not provided within the curtilage of the dwelling.
 - 1 covered visitor cycle space will need to be provided per 8 dwellings if no secure space is provided for each dwelling.

10.0 Legals

- 10.1. We have not been provided with a Housing Management Report and Legals Checklist for this site.
- 10.2. Legal matters would therefore need to be checked to ensure there are no encumbrances that affect redevelopment of the site.

- 11.0 **Costs**
- 11.1. It is considered that a budget of £1,519,000.00 should be allowed for this scheme, inclusive of contractor design fees, but exclusive of professional fees and VAT. Please refer to Appendix E.
- 12.0 Recommendations and Conclusions
- 12.1. Subject to an overall lifetime cost appraisal, we conclude that the site appears to have economic development opportunities and we recommend is considered for taking forward to planning application stage, with a view to incorporating into the overall programme.

Information on Possible Contamination

Information on possible contamination has been forwarded by Epping Forest District Council by way of email of 22nd May 2013, giving information on potential contamination across all the primary sites.

This clarifies possible ground contamination derived from asbestos, made ground, hydrocarbons, petroleum hydrocarbons and the like.

It is likely that any Planning Consent will carry a Condition that all contamination issues are to be remediated.

Accordingly, we recommend that initial site investigation is undertaken for all sites that move forward to Planning Applications.

CLARIFICATIONS AND ASSUMPTIONS

Estimate based on:

6Pellings Drawing No. 612023.P4-29E Rev A and 612023.P4-29P Rev A

We have not had an opportunity to visit the site but photographs have been made available. We have also utilised Google Earth to inform allowances.

GIFA is approximate due to early stage of design

Costs are based on 1Q 2015 prices with no allowance for future cost fluctuations

Costs are based on a Single Stage Competitive D&B procurement route

Costs are based on a Contractor 'best programme' contract period

All units assumed to achieve Code for sustainable Homes Level 4

Cost include for OH&P @ 7%

It is assumed that a traditional construction (concrete strip foundations, brick/block walls, timber or beam / block floor

Contractors design fees are based upon appointment with planning consent under JCT D&B contract

Assumed no Party Wall or Rights of Lights issues

Assumed no Asbestos removal required, unless otherwise stated

No allowance has been made for designated child play space

Exclusions

Clients professional fees (including statutory fees)

VAT

Excludes any off-site works

Provision of loose fittings and furnishings

Costs of compliance of any conditions imposed by statutory bodies

Costs of Section 106, 278 and other Agreement(s) or Community Infrastructure Levy charges

Commercial Commentary

PLLP is mindful that the construction industry is becoming increasingly volatile. We are seeing increasingly lengthy lead in times for materials (in particular due to reduced brick and block stocks) which is having an effect on tender prices.

That said this project is likely to be attractive to the Contractors' various supply chains and should therefore stimulate an element of healthy competition.

However, we would suggest that the Client retains a reasonable, undeclared Contingency to offset the potential risk that market forces will increase tender prices.
