Accommodation Strategy

Property considerations

- The College Property Strategy is driven by the educational rationale & need;
- Creation of a Sports & Health and Well Being facility is proposed to ensure appropriate curriculum offer;
- External capital funding via South East Local Enterprise Partnership (SELEP) not available;
- The only opportunity for capital investment is via a self-funded scheme;
- The College requires release of surplus assets and reinvest for the benefit of the community;
- Subject to covenant release, the project is viable and deliverable within the short / medium term;
- The project concept includes full community access;
- Outcome is to secure the future of EFC; create opportunity for leaners; provision of community accessible sports facility, and; remove liability of derelict building's and improve the locality

Financial Stability

- The College has achieved operational surpluses for since 2010-11, currently turnover is £14M
- In the financial year ending 31 July 2014, it was the highest FE college in Essex in terms of financial performance, comparative data for the year ending 31 July 2015 will not be available until March 2016
- Total capital investment of £3.9M since 2011 in enhancement of facilities for students
- Financial health grades measured by the Skills Funding Agency has been either Outstanding or Good
- Challenge will be funding reductions in future years and diversify income streams

Area Review (1)

- In July 2015, the Department for Education (DfE) and Department for Business, Innovation and Skills (BIS) announced a national programme of area-based reviews of post-16 offer to meet the needs of students, employers in each area for the whole of England
- Government will work with individual institutions and local authorities and LEPs in defining the areas to be covered by each review and how the review will be carried out, within a national framework

Area Review (2)

- Each review will be led by a steering group composed of a range of stakeholders within the area; likely members include the chairs of governors of each institution, the FE and Sixth Form College Commissioners, local authorities, LEPs and Regional Schools Commissioners
- Each review will take account of factors including local economic objectives and labour market needs; Government policy including expansion of the apprenticeship programme; good quality provision, particularly for 16 to 19 year olds, funding and effective support for the unemployed to return to work
- First round of reviews commenced in September 2015 and all reviews are to be completed by March 2017
