<b>APPLICATION No:</b>	EPF/2983/15
<b>SITE ADDRESS:</b>	24 Alderton Hill Loughton Essex IG10 3JB
<b>PARISH:</b>	Loughton
<b>WARD:</b>	Loughton St Marys
<b>DESCRIPTION OF PROPOSAL:</b>	Demolish garage and replace with two-storey side extension. Attached replacement garage with granny flat above. Front dormers. Ground floor and two-storey rear extension. Accommodation within roof space.
<b>DECISION:</b>	Refuse Permission

[http://planpub.eppingforestdc.gov.uk/NIM\\_websearch/ExternalEntryPoint.aspx?SEARCH\\_TYPE=1&DOC\\_CLASS\\_CODE=PL&FOLDER1\\_REF=580775](http://planpub.eppingforestdc.gov.uk/NIM_websearch/ExternalEntryPoint.aspx?SEARCH_TYPE=1&DOC_CLASS_CODE=PL&FOLDER1_REF=580775)

**Reasons for Refusal**

1. By reason of its height and proximity to the site boundary the proposed two-storey side extension would appear excessively overbearing when seen from 26 Alderton Hill and cause a reduction in daylight received by the adjacent glazed structure on the common boundary with the application site. The cumulative impact would amount to excessive harm to the living conditions of 26 Alderton Hill contrary to Local Plan and Alterations policy DBE9, which is consistent with the National Planning Policy Framework.

**Way forward:**

Members considered an alteration to the shape of the roof of the proposed two-storey side extension to a hipped design may deal with their concern about impact on living conditions, but they were also aware of the Local Plan policy requirement for extensions to complement the appearance of the house.

<b>WARD:</b>	Grange Hill
<b>DESCRIPTION OF PROPOSAL:</b>	Demolition of house at 46 Stradbroke Drive and the erection of a new building with five flats.
<b>DECISION:</b>	Refuse Permission

**Reasons for Refusal**

1. By reason of the intensification of residential use at the site and proximity of the proposed building to the site boundaries the proposal would result an inappropriately intense use of the application site within the context of a street composed of single dwellinghouses. The development is therefore likely to be harmful to the character and visual amenities of the locality and amount to an undesirable precedent for permitting similarly harmful development in the surrounding area with the cumulative effect of exacerbating the harmful consequence of the proposal. Accordingly, the proposed development is contrary to Local Plan and Alterations policies CP2 (iv), CP7, DBE1 and DBE11(i), which are consistent with the National Planning Policy Framework.

**Way forward:**

Members considered redevelopment of this site should only be for a single dwellinghouse of an appropriate size and siting in relation to neighbouring buildings and site boundaries such that the visual amenities of the locality are safeguarded.

**Reasons for Refusal**

1. By reason of its height, rearward projection and proximity to the site boundary with 27 Sparelease Hill the proposed two-storey side/rear extension would appear excessively overbearing when seen from the adjacent patio area of 27 Sparelease Hill and from within the adjacent rear facing rooms of that house. Furthermore, the proposed ground floor flank elevation window facing the site boundary would be likely to be perceived as giving rise to excessive overlooking of 27 Sparelease Hill when seen from its adjacent patio/rear garden area. Those matters alone and cumulatively would cause excessive harm to the living conditions of 27 Sparelease Hill, contrary to Local Plan and Alterations policy DBE9, which is consistent with the National Planning Policy Framework.

**CONDITIONS**

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 The development hereby permitted will be completed strictly in accordance with the approved drawings nos: PL01, PL02, PL03 B, PL04 B, PL05 B, PL06 A and 15-044-059
- 3 No construction works above ground level shall take place until documentary and photographic details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority, in writing. The development shall be implemented in accordance with such approved details.
- 4 No development shall take place, including site clearance or other preparatory work, until full details of both hard and soft landscape works (including tree planting) and implementation programme (linked to the development schedule) have been submitted to an approved in writing by the Local Planning Authority. These works shall be carried out as approved. The hard landscaping details shall include, as appropriate, and in addition to details of existing features to be retained: proposed finished levels or contours; means of enclosure; car parking layouts; other minor artefacts and structures, including signs and lighting and functional services above and below ground. The details of soft landscape works shall include plans for planting or establishment by any means and full written specifications and schedules of plants, including species, plant sizes and proposed numbers /densities where appropriate. If within a period of five years from the date of the planting or establishment of any tree, or shrub or plant, that tree, shrub, or plant or any replacement is removed, uprooted or destroyed or dies or becomes seriously

damaged or defective another tree or shrub, or plant of the same species and size as that originally planted shall be planted at the same place, unless the Local Planning Authority gives its written consent to any variation.

- 5 No development shall take place until a Phase 1 Land Contamination investigation has been carried out. A protocol for the investigation shall be submitted to and approved in writing by the Local Planning Authority before commencement of the Phase 1 investigation. The completed Phase 1 report shall be submitted to and approved in writing by the Local Planning Authority prior to the commencement of any necessary Phase 2 investigation. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the Phase 2 site investigation condition that follows]
- 6 Should the Phase 1 Land Contamination preliminary risk assessment carried out under the above condition identify the presence of potentially unacceptable risks, no development shall take place until a Phase 2 site investigation has been carried out. A protocol for the investigation shall be submitted to and approved by the Local Planning Authority before commencement of the Phase 2 investigation. The completed Phase 2 investigation report, together with any necessary outline remediation options, shall be submitted to and approved by the Local Planning Authority prior to any redevelopment or remediation works being carried out. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the remediation scheme condition that follows]
- 7 Should Land Contamination Remediation Works be identified as necessary under the above condition, no development shall take place until a detailed remediation scheme to bring the site to a condition suitable for the intended use has been submitted to and approved by the Local Planning Authority. The development shall be carried out in accordance with the approved remediation scheme unless otherwise agreed in writing by the Local Planning Authority. The remediation scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures and any necessary long term maintenance and monitoring programme. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 or any subsequent version, in relation to the intended use of the land after remediation.  
[Note: This condition must be formally discharged by the Local Planning Authority

before the submission of details pursuant to the verification report condition that follows]

- 8 Following completion of measures identified in the approved remediation scheme and prior to the first use or occupation of the development, a verification report that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval. The approved monitoring and maintenance programme shall be implemented.
- 9 In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the approved Phase 2 report, it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken in accordance with a methodology previously approved by the Local Planning Authority. Following completion of measures identified in the approved remediation scheme, a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with the immediately above condition.
- 10 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.
- 11 No development shall take place until details of levels have been submitted to and approved by the Local Planning Authority showing cross-sections and elevations of the levels of the site prior to development and the proposed levels of all ground floor slabs of buildings, roadways and accessways and landscaped areas. The development shall be carried out in accordance with those approved details.
- 12 Prior to the first occupation of the development the vehicle parking and turning areas as indicated on the approved plans shall be provided, hard surfaced, sealed and marked out. The parking and turning areas shall be retained in perpetuity for their intended purpose.
- 13 Prior to first occupation of the proposed development, the Developer shall be responsible for the provision and implementation of a Residential Travel Information Pack for sustainable transport, approved by Essex County Council.
- 14 There shall be no discharge of surface water onto the Highway.
- 15 No unbound material shall be used in the surface treatment of the vehicular access within 6 metres of the highway boundary.

- 16 No development shall take place until details of proposed external lighting have been submitted to and approved by the Local Planning Authority showing location of lights and spillage. The development shall be carried out in accordance with those approved details.
  
- 17 No development shall take place until wheel washing or other cleaning facilities for vehicles leaving the site during construction works have been installed at the site. The installed cleaning facilities shall be used to clean vehicles wheels immediately before leaving the site.
  
- 18 Prior to the occupation of the development hereby approved non-illuminated signage advising that parking of vehicles is prohibited on the access drive to the site off Chequers Road shall be displayed along the access drive. Such signage shall be displayed permanently.

**Reasons for Refusal**

- 1 By reason of its proximity and relation to neighbouring dwellings the proposed development would appear excessively overbearing when seen from the rear of 68, 70 and 72 Church Lane and would give rise to excessive overlooking of the rear garden of 1 Elmores from first floor rear elevation windows of the houses at plots 01 and 02. Consequently, the proposed development would cause excessive harm to the living conditions of the dwellinghouses concerned, contrary to Local Plan and Alterations policy DBE9, which is consistent with the National Planning Policy Framework.
2. By reason of the sites vehicular access via a long, narrow accessway with poor driver visibility of the adjacent footway at its junction with Whitehills Road, the proposal is likely to result in conflict between vehicles exiting the site and pedestrians using the footway. Such conflict is likely to be more hazardous than that arising from the lawful use of the site for garaging motor vehicles. Having regard to the proximity of the junction to the entrance of a special school, Oak View School, the pedestrians using the footway are likely to include a significant number of vulnerable persons. It is therefore concluded the proposed development is likely to generate conditions prejudicial to the safety of pedestrians using the adjacent footway on Whitehills Road, contrary to Local Plan and Alterations policy ST4, which is consistent with the National Planning Policy Framework.

**Way Forward:**

Members considered a smaller development of 1 or 2 houses of different design might address the overbearing and overlooking harm but were not convinced the highway safety matter could be successfully addressed by works for any residential development at the site.

- 3 No development shall take place, including site clearance or other preparatory work, until full details of both hard and soft landscape works (including tree planting) and implementation programme (linked to the development schedule) have been submitted to an approved in writing by the Local Planning Authority. These works shall be carried out as approved. The hard landscaping details shall include, as appropriate, and in addition to details of existing features to be retained: proposed finished levels or contours; means of enclosure; car parking layouts; other minor artefacts and structures, including signs and lighting and functional services above and below ground. The details of soft landscape works shall include plans for planting or establishment by any means and full written specifications and schedules of plants, including species, plant sizes and proposed numbers /densities where appropriate. If within a period of five years from the date of the planting or establishment of any tree, or shrub or plant, that tree, shrub, or plant or any replacement is removed, uprooted or destroyed or dies or becomes seriously damaged or defective another tree or shrub, or plant of the same species and size as that originally planted shall be planted at the same place, unless the Local Planning Authority gives its written consent to any variation.

- 4 Details of surface water disposal shall be submitted to and approved in writing by the Local Planning Authority before any work commences, and the development shall be implemented in accordance with such agreed details.
- 5 No development shall take place until full details of refuse and cycle stores including details of storage of materials for recycling have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.
- 6 Prior to the first occupation of the proposed development, the Developer shall be responsible for the provision and implementation of a Residential Travel Information Pack for sustainable transport, approved by Essex County Council, to include six one day travel vouchers for use with the relevant local public transport operator.
- 7 No development shall take place until wheel washing or other cleaning facilities for vehicles leaving the site during construction works have been installed in accordance with details which shall be submitted to and agreed in writing by the Local Planning Authority. The approved installed cleaning facilities shall be used to clean vehicles immediately before leaving the site.
- 8 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.
