CONDITIONS

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 The development hereby permitted will be completed strictly in accordance with the approved drawings nos: 612/058/PL01, 612/058/PL02, 612/058/PL03 Rev B, 612/058/PL04 Rev B, 612/058/PL05 Rev A, 612/058/PL06 Rev D, 612/058/PL07 Rev B, 612/058/PL08, 612/058/PL09 Rev A and 612/058/PL10 Rev B.
- 3 No construction works above ground level shall take place until documentary and photographic details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority, in writing. The development shall be implemented in accordance with such approved details.
- 4 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 as amended (or any other Order revoking, further amending or re-enacting that Order) no extensions, roof enlargements or erection of outbuildings larger than 10 cubic metres generally permitted by virtue of Classes A, B and E of Part 1 of Schedule 2 to the Order shall be undertaken without the prior written permission of the Local Planning Authority.

- 5 No development shall take place until details of surface water disposal have been submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with such agreed details.
- 6 No development shall take place until details of levels have been submitted to and approved by the Local Planning Authority showing cross-sections and elevations of the levels of the site prior to development and the proposed levels of all ground floor slabs of buildings, roadways and accessways and landscaped areas. The development shall be carried out in accordance with those approved details.
- 7 No development, including site clearance, shall take place until a scheme of soft landscaping and a statement of the methods, including a timetable, for its Implementation (linked to the development schedule), have been submitted to the Local Planning Authority and approved in writing. The landscape scheme shall be carried out in accordance with the approved details and the agreed timetable. If any plant dies, becomes diseased or fails to thrive within a period of 5 years from the date of planting, or is removed, uprooted or destroyed, it must be replaced by another plant of the same kind and size and at the same place, unless the Local Planning Authority agrees to a variation beforehand in writing.
- 8 No development shall take place until wheel washing or other cleaning facilities for vehicles leaving the site during construction works have been installed. The installed cleaning facilities shall be used to clean vehicles immediately before leaving the site.
- 9 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:
 1. The parking of vehicles of site operatives and visitors
 2. Loading and unloading of plant and materials
 3. Storage of plant and materials used in constructing the development
 4. The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate
 5. Measures to control the emission of dust and dirt during construction, including wheel washing.
 6. A scheme for recycling/disposing of waste resulting from demolition and construction works.
- 10 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.

- 11 No development shall take place until a Phase 1 Land Contamination investigation has been carried out. A protocol for the investigation shall be submitted to and approved in writing by the Local Planning Authority before commencement of the Phase 1 investigation. The completed Phase 1 report shall be submitted to and approved in writing by the Local Planning Authority prior to the commencement of any necessary Phase 2 investigation. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the Phase 2 site investigation condition that follows]
- 12 Should the Phase 1 Land Contamination preliminary risk assessment carried out under the above condition identify the presence of potentially unacceptable risks, no development shall take place until a Phase 2 site investigation has been carried out. A protocol for the investigation shall be submitted to and approved by the Local Planning Authority before commencement of the Phase 2 investigation. The completed Phase 2 investigation report, together with any necessary outline remediation options, shall be submitted to and approved by the Local Planning Authority prior to any redevelopment or remediation works being carried out. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the remediation scheme condition that follows]
- 13 Should Land Contamination Remediation Works be identified as necessary under the above condition, no development shall take place until a detailed remediation scheme to bring the site to a condition suitable for the intended use has been submitted to and approved by the Local Planning Authority. The development shall be carried out in accordance with the approved remediation scheme unless otherwise agreed in writing by the Local Planning Authority. The remediation scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures and any necessary long term maintenance and monitoring programme. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 or any subsequent version, in relation to the intended use of the land after remediation.
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the verification report condition that follows]

- 14 Following completion of measures identified in the approved remediation scheme and prior to the first use or occupation of the development, a verification report that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval. The approved monitoring and maintenance programme shall be implemented.
- 15 In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the approved Phase 2 report, it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken in accordance with a methodology previously approved by the Local Planning Authority. Following completion of measures identified in the approved remediation scheme, a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with the immediately above condition.
- 16 Prior to the first occupation of the development the vehicle parking and turning areas as indicated on the approved plans shall be provided, hard surfaced, sealed and marked out. The parking and turning areas shall be retained in perpetuity for their intended purpose.
- 17 Prior to first occupation of the proposed development, the Developer shall be responsible for the provision and implementation of a Residential Travel Information Pack for sustainable transport, approved by Essex County Council.
- 18 There shall be no discharge of surface water onto the Highway.
- 19 No unbound material shall be used in the surface treatment of the vehicular access within 6 metres of the highway boundary.
- 20 The development hereby approved shall not be commenced until a scheme of external lighting for the accessways serving the site together with vehicle parking and circulation areas has been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved external lighting scheme.

Report Item No: 3

APPLICATION No:	EPF/0837/16
SITE ADDRESS:	53 Queens Road Buckhurst Hill Essex IG9 5BU
PARISH:	Buckhurst Hill
WARD:	Buckhurst Hill West
DESCRIPTION OF PROPOSAL:	Conversion and extension of existing premises. Retention of Class A1. Retain unit on-street frontage. Change of use of first floor from use ancillary to A1 use to class C3(a) residential. Rear part of existing retail unit to change use from A1 to class C3 (a) residential.
DECISION:	Refused Permission

http://planpub.eppingforestdc.gov.uk/NIM_websearch/ExternalEntryPoint.aspx?SEARCH_TYPE=1&DOC_CLASS_CODE=PL&FOLDER1_REF=583620

REASONS FOR REFUSAL

- 1 By reason of its height and bulk at upper level the proposed development would appear incongruous and over-dominant in relation to the application building and adjacent buildings, detracting from the appearance of the application site and the character and appearance of the locality. Accordingly, the proposal is contrary to Local Plan and Alterations policies CP2(iv), CP7 and DBE1(i), which are consistent with the National Planning Policy Framework.

- 2 By reason of the failure to make provision for off-street vehicle parking for the proposed flats in accordance with Essex County Council Parking Standards (2009) the proposal does not allow for likely vehicle ownership by the occupants of the flats and consequently is likely to contribute parking stress in the locality. The proposal is therefore contrary to Local Plan and alterations Policy ST6, which is consistent with the National Planning Policy Framework.

Way Forward

Members considered a revised scheme with a reduced roof height and hipped design may overcome their objections on design grounds. In relation to parking provision, members were aware that land in the applicant's ownership rear of the application site is accessible from Back Lane and considered the application site could be enlarged to include that land and make appropriate provision for off-street parking on it. Members recognised that land could improve the quality of the development by providing for additional private amenity space.

- 3 No development shall have taken place until samples of the types and colours of all external finishes have been submitted to and approved by the Local Planning Authority in writing prior to the commencement of the development. The development shall be implemented in accordance with such approved details.
- 4 No development shall take place until details of surface water disposal have been submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with such agreed details.
- 5 No development shall take place, including site clearance or other preparatory work, until full details of both hard and soft landscape works (including tree planting) and implementation programme (linked to the development schedule) have been submitted to an approved in writing by the Local Planning Authority. These works shall be carried out as approved. The hard landscaping details shall include, as appropriate, and in addition to details of existing features to be retained: proposed

finished levels or contours; means of enclosure; car parking layouts; other minor artefacts and structures, including signs and lighting and functional services above and below ground. The details of soft landscape works shall include plans for planting or establishment by any means and full written specifications and schedules of plants, including species, plant sizes and proposed numbers /densities where appropriate. If within a period of five years from the date of the planting or establishment of any tree, or shrub or plant, that tree, shrub, or plant or any replacement is removed, uprooted or destroyed or dies or becomes seriously damaged or defective another tree or shrub, or plant of the same species and size as that originally planted shall be planted at the same place, unless the Local Planning Authority gives its written consent to any variation.

- 6 No development, including works of demolition or site clearance, shall take place until a Tree Protection Plan Arboricultural Method Statement and site monitoring schedule in accordance with BS:5837:2012 (Trees in relation to design, demolition and construction - recommendations) has been submitted to the Local Planning Authority and approved in writing. The development shall be carried out only in accordance with the approved documents unless the Local Planning Authority gives its written consent to any variation.

- 7 A flood risk assessment and management and maintenance plan shall be submitted to and approved by the Local Planning Authority prior to commencement of development. The assessment shall include calculations of increased run-off and associated volume of storm detention using WinDes or other similar best practice tools. The approved measures shall be carried out prior to the substantial completion of the development and shall be adequately maintained in accordance with the management and maintenance plan.

- 8 No development shall take place until a Phase 1 Land Contamination investigation has been carried out. A protocol for the investigation shall be submitted to and approved in writing by the Local Planning Authority before commencement of the Phase 1 investigation. The completed Phase 1 report shall be submitted to and approved in writing by the Local Planning Authority prior to the commencement of any necessary Phase 2 investigation. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the Phase 2 site investigation condition that follows]

- 9 Should the Phase 1 Land Contamination preliminary risk assessment carried out under the above condition identify the presence of potentially unacceptable risks, no development shall take place until a Phase 2 site investigation has been carried out. A protocol for the investigation shall be submitted to and approved by the Local Planning Authority before commencement of the Phase 2 investigation. The completed Phase 2 investigation report, together with any necessary outline remediation options, shall be submitted to and approved by the Local Planning

Authority prior to any redevelopment or remediation works being carried out. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.

[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the remediation scheme condition that follows]

- 10 Should Land Contamination Remediation Works be identified as necessary under the above condition, no development shall take place until a detailed remediation scheme to bring the site to a condition suitable for the intended use has been submitted to and approved by the Local Planning Authority. The development shall be carried out in accordance with the approved remediation scheme unless otherwise agreed in writing by the Local Planning Authority. The remediation scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures and any necessary long term maintenance and monitoring programme. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 or any subsequent version, in relation to the intended use of the land after remediation.

[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the verification report condition that follows]

- 11 Following completion of measures identified in the approved remediation scheme and prior to the first use or occupation of the development, a verification report that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval. The approved monitoring and maintenance programme shall be implemented.

- 12 In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the approved Phase 2 report, it must be reported in writing immediately to the Local Planning Authority. Following completion of measures identified in the approved remediation scheme, a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with the immediately above condition.

- 13 No development shall take place until details of levels have been submitted to and approved by the Local Planning Authority showing cross-sections and elevations of the levels of the site prior to development and the proposed levels of all ground floor slabs of buildings, roadways and accessways and landscaped areas. The development shall be carried out in accordance with those approved details.

- 14 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:
1. The parking of vehicles of site operatives and visitors
 2. Loading and unloading of plant and materials
 3. Storage of plant and materials used in constructing the development
 4. The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate
 5. Measures to control the emission of dust and dirt during construction, including wheel washing.
 6. A scheme for recycling/disposing of waste resulting from demolition and construction works.
- 15 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.
- 16 Prior to the first occupation of the development the access arrangements, vehicle parking and turning areas as indicated on the approved plans shall be provided, hard surfaced, sealed and marked out. The access, parking and turning areas shall be retained in perpetuity for their intended purpose.
- 17 Prior to first occupation of the proposed development, the Developer shall be responsible for the provision and implementation, per dwelling, of a Residential Travel Information Pack for sustainable transport, approved by Essex County Council, to include six one day travel vouchers for use with the relevant local public transport operator.
- 18 Prior to the commencement of works or any site clearance, the developer shall submit for approval to the Local Planning Authority, details of the proposed boundary treatments. This shall include details new boundaries and those to be retained and shall give consideration for the requirement for, provision and retention of, retaining walls around the site.
- 19 Prior to the commencement of works a detailed drainage survey of the piped watercourse is required. This shall include a CCTV survey with details of the location, pipe size, condition and outfall information.
- 20 The development shall be carried out in strict accordance with the approved ecology information and recommendations supplied in the letter dated 29th April 2016 by AA Environmental Landscaping Limited.

- 21 Prior to first occupation of the development hereby approved, the proposed second floor front facing window opening on plot 5 (for the avoidance of any doubt the most southerly terrace) shall be entirely fitted with obscured glass to a height of 1.5 metres and have fixed frames to a height of 1.8m above the floor of the room in which the window is installed and shall be permanently retained in that condition.
