| 42      | Is it possible to change boundary at Matching Green, so as the High Laver part of the village is represented by Matching Parish Council. As they are part of Matching Green Village.                    | Threshern Bush                |
| 43      |   | Magdalen Laver, Ongar         |
| 44      | A boundary change that enables me to vote on issues where I live, including schooling planning and transport issues.  | Matching Green                |
| 45      | A reconsideration of the boundaries in the future would be welcome.   | Matching Green                |

| 52      | Why is the village of Matching Green in two Parishes? Surely it would make better sense for Matching Green to be one complete parish. This would make us more united and give a true sense of belonging | Matching Green                |
| 53      | An opportunity to review the total number of Councillors covering The Lavers. A greater cost saving, without detriment could be achieved if the total number of Councillors were to be reduced to 7.    | Magdalen Laver                |
| 54      |   | High Laver, Nr Ongar          |
