Night Time Public Order Action by Essex Police

Essex Police currently commits a number of officers to policing public order on Friday and Saturday evenings in Epping Forest District to deal with the not only the aforementioned incidents but also others in the area.

Over traditionally busy periods such as the summer months approximately eight Police Constables and one Police Sergeant along with four Police Community Support Officers are tasked with solely policing the pubs and clubs of EFD on a Friday and Saturday nights.

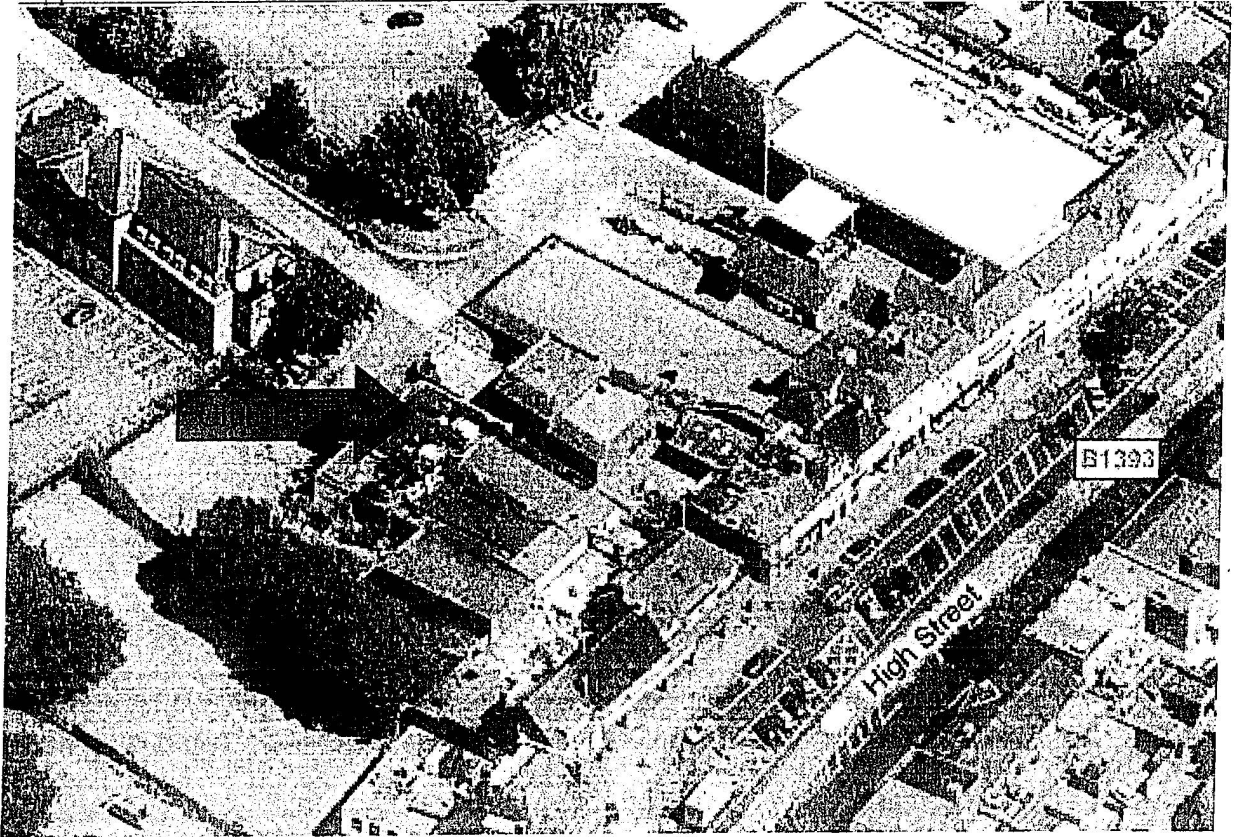

At other times four officers are tasked specifically with covering the areas of Loughton and Epping on these days with support from the response shifts that run with a minimum of one sergeant and eight officers.

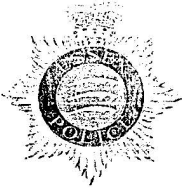

Due to the number of officers often needed to cover public order and other alcohol related crime. Epping Forest Police's capability to deal with burglaries, stolen vehicles and respond to other incidents can be seriously impacted on these evenings.

Other information

Epping High Street around the area of 195 Club is also subject to public order incidents on a regular basis on Friday and Saturday evenings. Solid data on this is not available at the time of this report as it is required to be accessed from the storm system.

I have looked at incidents across the opening hours of all the premises but have not included incidents of burglaries on the premises out of hours as they do not provide any relevance to the influence of the premises during opening hours on crime in the area.

Since August 2008 Essex Police has had a total of twenty one criminal offences linked to these establishments compared to the forty that can be linked to Club 195.

Therefore of crimes related to bars and clubs on or just off of Epping High Street Sixty Six Percent are linked to Club 195.

From an assault perspective there have been just three incidents of Actual Bodily Harm (ABH) linked to these premises and no incidents of Grievous Bodily Harm (GBH) reported at any of these places.

Club 195 by comparison has had seven incidents of GBH and fourteen incidents of ABH either inside or directly linked to the premises.
