- 1 The scheme makes no practical provision for any affordable housing provision, contrary to policies H6A and H7A of the adopted Local Plan and Alterations.

Report Item No: 7

APPLICATION No:	EPF/0241/09
SITE ADDRESS:	Old Rectory Farm Church Lane Stapleford Abbots Romford Essex RM4 1ES
PARISH:	Stapleford Abbots
WARD:	Passingford
DESCRIPTION OF PROPOSAL:	Conversion of redundant agricultural buildings into 2 residential units. (Revised application)
DECISION:	Refused Permission

REASONS FOR REFUSAL

- 1 The site is within the Metropolitan Green Belt. The proposed works represent inappropriate development and are therefore at odds with Government advice, as expressed in PPG2, the policies of the adopted Local Plan and Alterations. The latter state that within the Green Belt permission will not be given, except in very special circumstances for the construction of new buildings or for the change of use or extension to existing buildings except for the purposes of agriculture, mineral extraction or forestry, small scale facilities for outdoor participatory sport and recreation, cemeteries, or similar uses which are open in character.

In the view of the Local Planning Authority the proposed residential use will result in an adverse impact on the openness, character and appearance of the Green Belt, and will increase traffic generation. Furthermore, the applicant has not demonstrated why other alternative preferred re-uses are not suitable. The proposal is therefore contrary to Policy GB8A and GB9A of the adopted Local Plan and Alterations.

It has also not been proved to the Council's satisfaction that the building is worthy of retention and that the site is unsuitable for a business use, contrary to Policy GB9A of the adopted Local Plan and Alterations.

- 2 The site is an isolated site in a rural area. The scheme will promote commuting, as it is poorly served by public transport and most access will be by private motor vehicle, it will therefore fail to enhance the rural environment. Therefore the proposal does not constitute a sustainable development in this rural location, contrary to policies CP1, 2, 3, & 9 of the Adopted Local Plan and Alterations.

- 3 Having regard to the existing traffic use and the additional traffic which this proposal is likely to generate or attract, the road which connects the proposed access to the nearest traffic distributor is considered to be inadequate to cater for the proposal while providing reasonable safety and efficiency for all road users owing to its unsatisfactory width, alignment and construction, contrary to policies ST4 and ST6 of the adopted Local Plan and Alterations.
