Metal blade, wood handle fastened by metal rivet	Social and Industrial History		Blade is well worn, rusty, mis-sharpen and thin.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
13	Team A Store 2.	1993.421	metal figure of Spanish Soldier	Possibly 17th Century soldier statue on square stand. Looks more 19th century to me - EG - need to look at item more closely as images are too dark - did this come from a clock?	Social and Industrial History		Possibly missing a pole or flag in his right hand. Possibly not bronze but spelter as discoloured black with silver coming through	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

15	Team A Store 2.	1990.66.17	China tea cup	creamware tea cup with matching lid and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		No damage noticed.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
16	Team A Store 2.	1990.66.7	small side plate	creamware side plate and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		No damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
17	Team A Store 2.	1990.66.3	small side plate	creamware side plate and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		No damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
18	Team A Store 2.	1990.66.5	small side plate	creamware side plate and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		No damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
19	Team A Store 2.	1990.66.6	small side plate	creamware side plate and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		No damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

20	Team A Store 2.	1990.66.2	small side plate	creamware side plate and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Small chip to rim	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
21	Team A Store 2.	1990.66.4	small side plate	creamware side plate and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
22	Team A Store 2.	1990.66.13	China tea saucer	creamware saucer and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
23	Team A Store 2.	1990.66.9	China tea saucer	creamware saucer and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
24	Team A Store 2.	1990.66.10	China tea saucer	creamware saucer and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

25	Team A Store 2.	1990.66.12	China tea saucer	creamware saucer and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
26	Team A Store 2.	1990.66.11	China tea saucer	creamware saucer and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
27	Team A Store 2.	1990.66.8	China tea saucer	creamware saucer and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
28	Team A Store 2.	1990.66.15	teacup	creamware tea cup and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
29	Team A Store 2.	1990.66.14	teacup	creamware tea cup and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
30	Team A Store 2.	1990.66.16	teacup	creamware tea cup and blue glaze crescent decoration around top and around lid marked underneath 'crayon loop' by Susie Cooper	Social and Industrial History		Complete, no damage, appears unused	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

31	Team A Store 2.	1992.96	metal tin tray with three compartments	Black metal box with 3 lidded compartments maybe a portable small cash box.	Social and Industrial History		Paper labels attached to the lids. Metal surface is heavily marked.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
32	Team A Store 2.	1992.103.2	Spinning top	turned wooden spinning top with lines pattern and larger groove for winding string	Social and Industrial History		Generally in good condition, but with small chips to the top rim and line crack down side	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
33	Team A Store 2.	1992.103.3	Spinning top	short wooden carved spinning top. No decoration but with groove for string	Social and Industrial History		Generally in good condition, but showing age wear and some small damage	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
34	Team A Store 2.	1992.98	Mk V anti dimming kit	tin tube with screw ends, one seized up, the other exposes a lint cloth. Writing on outside indicates to clear eyepieces but not to polish	Social and Industrial History		Kit in metal tube good condition apart from some minor surface rust and one screw cap seized probably due to corrosion.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
35	Team A Store 2.	1992.103.1	Solid metal iron	T Sheldon & Co. W'Hampton small metal iron possibly for newspapers or small items of clothing such as collars or cuffs	Social and Industrial History		Iron in good original condition, used with some paper substance stuck to it, slightly dirty in crevasses	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

36	Team A Store 2.	1992.228	card piece from game	coloured card piece of fireman's head and horses hoof . Taken from a game	Social and Industrial History		partial piece of coloured card from a game (unknown). Incomplete.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
37	Team A Store 2.	1992.226	Go-Bang board game board	Board for game GO-BANG. Black with Gold lettering. Opens to square shape	Social and Industrial History		Card Board slightly warped with slight splitting on folded edge on inside. Possible water damage discolouration to top corner. Gold lettering worn.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
38	Team A Store 2.	2002.66	Black lacquer desk ink well/pen tray	Wooden desk pen tray with spaces for nibs, missing two inkwells. Floral painted pattern, gilt pattern round edges and mother of pearl inlay.	Social and Industrial History		Decorated with inset mother of pearl, painted flowers and gold decoration. Some chips around edges, general wear complete apart from missing two ink wells	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

Metal round file shows some old surface rust. Missing metal ring on wood handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
91	Team A Store 2.	NA_15_A	scissors	metal heavy duty scissors in curved shape industrial use, marked England with faint horses head visible.	Social and Industrial History		metal scissors in good overall condition, some polished wear and fully working.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
92	Team A Store 2.	NA_16_A	metal fitting	heavy metal bracket with screw or bolt holes and forming a small round ring at the end. Maybe for fastening to a cart to hold rope through ring	Social and Industrial History		metal shows rust and corrosion and looks to be blacksmith made. Still solid and heavy		Yes

93	Team A Store 2.	NA_17_A	heavy leather harness	leather harness with metal buckle and loop fastener.	Social and Industrial History		metal parts rusty, leather now hard with wear and signs of damage around one buckle hole. Not pliable.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
94	Team A Store 2.	NA_18_A	metal peg	long heavy metal peg with sharp point end and round ring at top. Blacksmith made for anvil	Social and Industrial History		metal showing age and roughly made. Some surface rust, generally no damage or wear from use.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
95	Team A Store 2.	NA_19_A	metal scissor tongs	heavy metal scissor action tongs to hold something in gripped end	Social and Industrial History		metal in good overall condition. Loose fastening means grip ends do not easily meet.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
96	Team A Store 2.	NA_20_A	metal peg	short heavy metal peg with sharp point end and round ring at top. Blacksmith made for anvil	Social and Industrial History		metal showing age and roughly made. Some surface rust, generally no damage or wear from use.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
97	Team A Store 2.	NA_21_A	saw setter	metal tool for resetting saw teeth. Screw driver to tip. Red wooden handle. Markings SAW SET	Social and Industrial History		Generally good condition, some minor wear from use, some red paint worn away from use.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
98	Team A Store 2.	NA_22_A	metal tool with spike	Blacksmith tool for use with handle to hammer wedge. Metal shows signs of copper rather than iron	Social and Industrial History		parts of metal spike for handle shows corrosion. The wedge chisel part shows wear from use and minor corrosion on tip.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
99	Team A Store 2.	NA_23_A	metal peg	heavy metal 'L' shaped peg. Square pointed with right angle rounded bar to top, crudely made.	Social and Industrial History		Some corrosion and surface rust	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

100	Team A Store 2.	NA_24_A	metal peg	small iron peg with right angle round pin at top, crudely made.	Social and Industrial History		Some corrosion and surface rust	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
101	Team A Store 2.	NA_25_A	metal spring clip	large metal spring clip with metal ring and wood wedge to lock spring clip in place. Small piece of twine tied to metal ring	Social and Industrial History		twine frayed and disintegrating. Metal clip and ring show signs of wear and use, the thin metal clip spring has major crack and part of the clip is also missing. Wood wedge holding things in place and shows old woodworm damage .	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
102	Team A Store 2.	NA_26_A	metal cylindrical plug	solid metal plug with signs of hammering to top	Social and Industrial History		metal surface rust, signs of wear and use	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
103	Team A Store 2.	NA_27_A	long metal peg	long metal peg with folded over top and chisel pointed tip	Social and Industrial History		some surface paint still visible, surface rust and signs of use. Generally good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
104	Team A Store 2.	NA_28_A	long metal peg	long metal peg with folded over top and chisel pointed tip	Social and Industrial History		some surface paint still visible, surface rust and signs of use. Generally good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
105	Team A Store 2.	NA_29_A	wooden plug	Wooden tapered round plug with metal top incorporating large ring with sunrise on one side of base and P&O on the other	Social and Industrial History		wood plug shows damage and deterioration to bottom part of plug possibly due to liquid. Remainder still has original finish. Metal top and ring in very good condition	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
106	Team A Store 2.	NA_30_A	sickle	iron bladed sickle with wooden handle. Makers name s&j spear and Jackson impressed mark to blade	Social and Industrial History		wooden handle chipped and worn through use. Blade rusty, point rounded and generally not sharp	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

107	Team A Store 2.	NA_31_A	rawl plug hammer	metal mechanical hammer to insert rawl plugs by turning wooden handle. The tool has a wooden handle like a saw or hold it in place. Side marked rawl plug mechanical hammer	Social and Industrial History		overall dirty and greasy. Wooden parts similar. Minor rust to some metal surface mainly to tip. Mechanism appears to work and is not frozen	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
108	Team A Store 2.	NA_32_A	brace and bit drill	Metal and wood brace and bit hand drill.	Social and Industrial History		wooden parts damaged and major wear. Edges missing. Metal parts rusty and appear frozen. Ratchet not free	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
109	Team A Store 2.	NA_33_A	metal tool with spike	black metal cutter marked CLOU and foreign. Swing out pointed blade. Purpose unclear, can opener? String cutter?	Social and Industrial History		very good original condition. Plain a bit scuffed but no real sign of wear or use.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
110	Team A Store 2.	NA_34_A	Metal spanner	Metal spanner with some red paint remaining. Square open end with closed squares at other end. Each side having different square measurement, Approx. 1-1.5cm. Made in the USA, planet junior	Social and Industrial History		metal rusty overall and dirty. Red paint flaking	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
111	Team A Store 2.	NA_35_A	metal spanner	metal spanner with open end marked 14, and 6 sided nut slot on the other end.	Social and Industrial History		Metal rusty overall and dirty. Small white paint mark to one side	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
112	Team A Store 2.	NA_36_A	metal knife	metal cutting knife with rivetted wood handle. Blade has been hammered from use on top edge marked Shillito, Sheffield.	Social and Industrial History		blade and handle show wear and some rust but complete and apart from hammered use, is not damaged.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

113	Team A Store 2.	NA_37_A	metal knife	metal cutting knife with rivetted wood handle. Blade has been hammered from use on top edge marked made in England, Sheffield.	Social and Industrial History		blade and handle show wear and some rust but complete and apart from hammered use, is not damaged.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
114	Team A Store 2.	NA_38_A	plumb line	builders metal plumb line attached to long string wound around wooden frame.	Social and Industrial History		all parts show limited use and in good overall condition. String shows age and is dirty. Some minor damage to wood frame on one corner.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
115	Team A Store 2.	NA_39_A	turnkey	long small sized metal turnkey	Social and Industrial History		metal body is slightly bent. Overall, rusty.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
116	Team A Store 2.	NA_40_A	hammer	small metal hammer with wood shaft. Suitable for small nails or tacks.	Social and Industrial History		iron hammerhead not loose in handle but rusty condition. Wooden shaft handle showing some wear near hammer top but generally wear from heavy use	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
117	Team A Store 2.	NA_41_A	metal pipe wrench	Adjustable metal pipe wrench. Marked made in England BDG	Social and Industrial History		generally good condition, with some small overall rust. Screw for adjustment missing nut?	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
118	Team A Store 2.	NA_42_A	sheet metal cutter	Sheet metal cutting pliers with coiled spring and handle fastener.	Social and Industrial History		good condition with remaining black paint on handles. Blade end showing surface rust. Looks complete and working order	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

119	Team A Store 2.	NA_43_A	metal tool	metal tool with special shaped flat end and gouge shape other end like a tyre iron	Social and Industrial History		heavy rust overall. Use unknown.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
120	Team A Store 2.	NA_44_A	metal spike	shaped metal spike with pointed end and flat hammered top. Partially hollowed shape to body with fine groove lines all over	Social and Industrial History		overall metal is dirty and rusty with some corrosion and pitting especially to sharp end.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
121	Team A Store 2.	NA_45_A	hand cutter	metal bladed cutter spring loaded for cutting branches?	Social and Industrial History		rust overall metal surfaces. Small amount of white paint visible on grip otherwise dirty.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
122	Team A Store 2.	NA_46_A	narrow sharp tool	Narrow long square shaped metal rod with angled end to sharp tip. Possibly a blade for a wood plane or moulding plane.	Social and Industrial History		generally good condition. Signs of use and re-sharpening. Some minor rust on surfaces.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
123	Team A Store 2.	NA_47_A	grease gun	small metal blue grease or oil gun with screwed on plunger trigger and re-enforced clear plastic tube with metal nozzle	Social and Industrial History		complete and working , with much blue paint remaining. Plastic tube not very pliant. Screw cap frozen.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
124	Team A Store 2.	NA_48_A	drill bits	metal drill bits for hand brace drill. Various types and sizes. One is a screwdriver bit.	Social and Industrial History		all metal drill bits look complete and undamaged. All show signs of age and rust.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

125	Team A Store 2.	NA_49_A	drill bits	metal drill bits for hand brace drill. Various types and sizes. One is a screwdriver bit.	Social and Industrial History		all metal drill bits look complete and undamaged. All show signs of age and rust to some degree.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
126	Team A Store 2.	NA_50_A	rawl drills	13 metal rawl drills of similar size together with card box.	Social and Industrial History		card box broken and incomplete, poor condition drills in good condition with only some superficial rust on surfaces	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
127	Team A Store 2.	NA_51_A	rasp	metal hand rasp with wooden handles. Alloy body. Partial red label to side, not readable.	Social and Industrial History		wooden handles grubby and worn. Alloy rasp body showing signs of age and dirt.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
128	Team A Store 2.	NA_52_A	metal hook with metal eyelet.	heavy metal hook with one chain link together with metal closable eyelet attached to short length of metal cable.	Social and Industrial History		both metal items dirty and grubby. The hook is also rusty all over.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
129	Team A Store 2.	1995.5.1	jigsaw	Mr men puzzle 50 jigsaw cardboard box containing cardboard jigsaw pieces in clear plastic bag.	Social and Industrial History		cardboard box lid good condition with minor biro marks and one strengthened corner with old Sellotape. Box container has old Sellotape around whole edge. Jigsaw pieces look in almost new condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
130	Team A Store 2.	NA_56_A	brass tap	brass tap with spout shaped and cast as a ducks head. The head turns.	Social and Industrial History		some corrosion to pipe end which may be a different metal joined on or cut from original vessel	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

131	Team A Store 2.	NA_57_A	Iron toolhead	Iron blacksmith made small axe head with loop for handle.	Social and Industrial History		Iron shows some signs of use and rust with very minor splits on handle loop. Axe is blunt.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
132	Team A Store 2.	NA_58_A	Iron toolhead	Iron blacksmith made shaped tool with loop end for handle	Social and Industrial History		crudely made iron tool.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
133	Team A Store 2.	NA_59_A	plumb line bob	Metal plumb bob with groove around top and coming to a point at the base	Social and Industrial History		well made showing no sign of rust or corrosion.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
134	Team A Store 2.	NA_60_A	steel club hammer head	Steel club hammer head with central hole for handle. Marked 38257 and solid steel , 2lbs	Social and Industrial History		very good condition with little sign of use. Hammer head faces polished.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
135	Team A Store 2.	NA_61_A	hammer head	metal hammer head with one end with flat face and the other a chisel point sharp axe head. Hole in top to take handle. Marked 35013	Social and Industrial History		metal in good overall polished condition but with small patches of rust	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
136	Team A Store 2.	NA_62_A	metal face mask	cast Wall mounted metal monster face with square mouth opening for outlet.	Social and Industrial History		metal casting very detailed, showing dirt all over. No visible corrosion or damage. Some brass colour showing through on reverse side, may be brass metal.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

137	Team A Store 2.	NA_63_A	cast metal face plaque	metal hollow cast of male head looking to the left. Small ring attachment for hanging.	Social and Industrial History		metal plaque very dirty on front and back but complete with no visible damage.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
138	Team A Store 2.	NA_64_A	door knocker	large heavy brass door knocker. Knocker shaped round with attached metal pin for attaching through door.	Social and Industrial History		metal is slightly discoloured but shows not heavy wear	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
139	Team A Store 2.	NA_65_A	small tin with tacks and screws	small metal tin once containing tablets or pastilles now with old tacks, screws and nails.	Social and Industrial History		tin dented, very rusty with indiscernible content label. Contents rusty.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
140	Team A Store 2.	NA_66_A	round tin with tacks	round tin containing some tacks. WD and H O Wills Bristol and London embossed on lid	Social and Industrial History		tin very rusty and dirty. Signs of paper seal around lid.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
141	Team A Store 2.	NA_67_A	round polish tin	The Nugget black polish round tin with paper label	Social and Industrial History		Tin rusted shut. Paper label in good condition. Remains of label on base detailing how to open tin.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
142	Team A Store 2.	NA_68_A	shoe horn and hook	Firth Stainless small shoe horn with button hook on other end	Social and Industrial History		condition of metal is excellent.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

143	Team A Store 2.	NA_69_A	wood handle bradle	metal bradle type tool with curved tip with carved wooden handle	Social and Industrial History		wooden handle in general good condition slightly discoloured but complete. Metal spike is bent slightly out of shape and has rust on metal where meets handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
144	Team A Store 2.	NA_70_A	wood handle bradle	metal bradle type tool with curved tip with carved wooden handle	Social and Industrial History		wooden handle in general good condition and complete. Metal spike is shaped at end but not out of shape and has rust on metal where meets handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
145	Team A Store 2.	NA_71_A	wood handle bradle	metal bradle type tool with curved tip with carved wooden handle	Social and Industrial History		wooden handle in general good condition and complete. Metal spike is shaped at end but not out of shape	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
146	Team A Store 2.	NA_72_A	wood handled knife	shaped metal blade with riveted wooden handle	Social and Industrial History		metal blade showing signs of use with polished tip, wood handle shows signs of wear from use	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
147	Team A Store 2.	NA_73_A	wood handled hammer	small shaped metal hammer or tool with wooden handle and brass ring at join.	Social and Industrial History		generally good condition with signs of use and wear overall. No visible damage except the wood handle has a split along its length.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
148	Team A Store 2.	NA_74_A	metal hand tool	small shaped metal hand tool with folded over loop at end. Wooden handle and brass ring on hilt	Social and Industrial History		excellent condition with metal still shiny and wood fresh.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

149	Team A Store 2.	NA_75_A	metal hammerhead	metal hammer head with large flat head and chisel shape to other side. Centre hole for handle	Social and Industrial History		overall in very good condition with signs of use on hammer side and minor serrations on chisel side	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
150	Team A Store 2.	NA_76_A	wood handled spike tool	small wooden round handled tool with short metal pin or spike protruding	Social and Industrial History		signs of age, with the wood dark in colour and the metal pin showing some rust around the base.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
151	Team A Store 2.	NA_77_A	carpet knife	old metal carpet blade or knife with wood handle	Social and Industrial History		metal blade has usage wear and is blunt at tip. Generally paint specks on blade and wood handle which is also showing wear.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
152	Team A Store 2.	NA_78_A	metal shoe heel protectors	2 metal heel protectors mounted on original card for Blakey's shoe protectors	Social and Industrial History		card discoloured with remains of rust, generally misshapen. The metal protectors have surface rust and sharp points to underside	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
153	Team A Store 2.	NA_79_A	shoe horn	aluminium TRUE FORM metal shoe horn	Social and Industrial History		grubby appearance shows signs of wear and use with parts of metal with surface marks	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
154	Team A Store 2.	NA_80_A	wooden tool	the Boston series of high class shoe tools. For finishing hand and machine work labels on shaped piece of wood embossed WHU on side and drilled hole to one end	Social and Industrial History		wood complete and shows some dirt but is undamaged. The paper labels have wear and are grubby	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

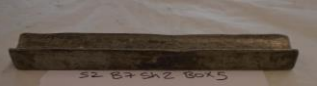

155	Team A Store 2.	NA_81_A	metal button measure	white metal tool with calibrated slot along middle and a hole at top for hanging up	Social and Industrial History		metal slightly discoloured and all showing signs of age. No visible damage	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
156	Team A Store 2.	NA_82_A	embossing tool	wooden handled tool with metal serrated wheel for imprinting patterns on leather. Marked JC on handle	Social and Industrial History		overall wood handle has age but is not damaged. The metal tool is complete and has no sign of damage but has rusty surface.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
157	Team A Store 2.	NA_83_A	polish stick	resin rod for polishing items. Red in colour	Social and Industrial History		stick has groove where it has been used. Overall dirty and grubby.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
158	Team A Store 2.	NA_84_A	metal shoe protector	a metal shoe protector marked 1 1/2 Snow	Social and Industrial History		metal rusty fastenings not present,	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
159	Team A Store 2.	NA_85_A	metal shoe protector	a metal shoe protector marked 2 1/4 Snow	Social and Industrial History		metal rusty fastenings not present,	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
160	Team A Store 2.	NA_86_A	metal shoe protector	a metal shoe protector marked 2 3/4 FHR	Social and Industrial History		metal rusty fastenings not present,	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
161	Team A Store 2.	NA_87_A	rubber heel protector	ladies shoe rubber heel replacement marked 1 1/2	Social and Industrial History		rubber hard and discoloured white surface.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

162	Team A Store 2.	NA_88_A	polish stick	short stick of black polish. Moulded with groove along top	Social and Industrial History		end piece of possible hard stick of black shoe polish or leather colour. Part missing, groove worn by usage.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
163	Team A Store 2.	NA_89_A	rubber heel protector	circular Sussex heel size 2¼ made of black rubber	Social and Industrial History		as new condition, rubber as new	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
164	Team A Store 2.	NA_90_A	metal hammer	metal flat headed hammer one side large circular flat head, other side smaller similar. Wood handle .	Social and Industrial History		age wear to handle which is loose and small . Hammer head with rust and overall dirt	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
165	Team A Store 2.	NA_91_A	Heel polish	Box -all brown polish resin. Circular.	Social and Industrial History		item unused but grubby and marked, especially underneath. Pieces of resin chipped away and black deposit visible	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
166	Team A Store 2.	NA_92_A	shoemakers tool	metal shoemakers grip for pulling leather uppers over last to attach to sole of shoe. Wooden handle with brass ring where metal tool goes into handle	Social and Industrial History		all complete with no damage visible to wooden handle . Some surface discolouration to metal part and minor pitting from rust. Now polished and cleaned. Brass ring loose.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
167	Team A Store 2.	NA_93_A	metal pliers	dual purpose Metal curved pliers with hammer protruding below.	Social and Industrial History		signs of use and some surface old corrosion or pitting from rust, now cleaned	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

168	Team A Store 2.	NA_94_A	metal file	hand held metal file with rounded end and 4 grades of file on surfaces. Marked made in öberg, Sweden.	Social and Industrial History		good condition with a few rust patches.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
169	Team A Store 2.	NA_95_A	shoe or woodworking tool	metal woodworking chisel tool to make square holes in wood . Shaped wooden handle	Social and Industrial History		wood handle in very good condition and no real signs of damage. Metal part and cutting points are worn to some extent.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
170	Team A Store 2.	1993.594	large bellows	wood and leather with metal tip bellows. WAT 46	Social and Industrial History		Metal tip damaged with tip crushed and with parts missing. Leather bellows dry and disintegrating with much damage and splits and loose metal wire exposed. Leather strap on handle broken and incomplete, wood appears good but showing age.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
171	Team A Store 2.	1993.597	large sickle	metal sickle with wood handle WAT 969 . Blade marked PARK	Social and Industrial History		metal blade with surface rust and much wear from use. Wooden handle similar with wear but complete.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
172	Team A Store 2.	1993.595	branding iron	iron JRC branding iron with long handle and loop end WA976	Social and Industrial History		Iron very rust coated all over.no damage visible	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
173	Team A Store 2.	1993.598	Tyre pump	large metal tyre pump with wood handle. Folding foot rests with screw fastening nozzle, missing attaching metal and rubber tube	Social and Industrial History		Metal is rusty all over and corroded. Wood handle is complete but shows signs of age.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
174	Team A Store 2.	1993.596	trenching tool	metal tool possibly for garden work small spade and pick axe and hole for wooden handle	Social and Industrial History		metal very corroded and rusty.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

175	Team A Store 2.	2003.355	wooden and paper box	Wooden box made to resemble old book. Blue marbled paper and black spine covered. with book title SCRAPS.	Social and Industrial History		wooden parts loose or detached and held by paper covering.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
176	Team A Store 2.	1993.316	Glass jar	round clear glass jar with screw lid (missing) WA186	Social and Industrial History		glass jar complete, missing screw lid. Discolouration to inside surface	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
177	Team A Store 2.	1993.314	small pottery jar	small round brown earthenware pot with groove around top. No lid WA184	Social and Industrial History		no visible damage, pot is complete	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
178	Team A Store 2.	1993.315	pottery round cone shaped pot	small flower pot shaped earthenware brown pot. No hole to base. WA185	Social and Industrial History		no visible damage, pot is complete	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
179	Team A Store 2.	1993.311	Glass bottle	rectangular body with long round necked clear glass medicine bottle missing cap. WA181	Social and Industrial History		glass very dirty but no visible damage.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
180	Team A Store 2.	1993.312	Glass bottle neck	old green bottle neck only. Possibly wine or spirits. WA187. long neck	Social and Industrial History		broken sharp edged glass bottle neck	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

181	Team A Store 2.	1993.313	Glass bottle neck	old green bottle neck only. Possibly wine or spirits. WA187 short neck	Social and Industrial History		broken sharp edged glass bottle neck	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
182	Team A Store 2.	1993.317	Glass bottle neck	old green bottle neck only. Possibly wine or spirits. WA187 long neck	Social and Industrial History		broken sharp edged glass bottle neck	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
183	Team A Store 2.	1993.318	glass bottle stopper	green glass jar lid marked Aire & Calder bottle co ,Castleford and London WA188	Social and Industrial History		glass badly chipped on most of rim	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
184	Team A Store 2.	NA_98_A	pipe bender	Small Red painted Metal Hill Moor size 1 pipe bender.	Social and Industrial History		Metal pipe bender shows no damage but is grubby from use with some minor surface rust	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
185	Team A Store 2.	NA_99_A	pipe bender	Medium Red painted Metal Hill Moor size 2 pipe bender.	Social and Industrial History		Metal pipe bender shows no damage but is grubby from use with some minor surface rust	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
186	Team A Store 2.	NA_100_A	pipe bender	Large Red painted Metal Hill Moor size 3 pipe bender.	Social and Industrial History		Metal pipe bender shows no damage but is grubby from use with some minor surface rust	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

187	Team A Store 2.	1996.113.7	pipe bender	small alloy metal Hill More ½ BS659	Social and Industrial History		Alloy pipe bender for bending, slightly mis sharpen and grubby/dirty from use	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
188	Team A Store 2.	1996.113.5	pipe bender	Medium alloy metal Hill More pipe bender	Social and Industrial History		Alloy pipe bender for bending, slightly mis shaped and grubby/dirty from use	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
189	Team A Store 2.	1996.113.6	pipe bender	Large alloy metal Hill More pipe bender	Social and Industrial History		Alloy pipe bender for bending, slightly mis shaped and grubby/dirty from use	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
190	Team A Store 2.	T 459	China doll	China headed child's doll with closing eyes and light brown hair. Dressed in pink beaded thin material dress, with underskirt and white bloomers. Feet covered with cream coloured woven socks. Back of neck marked Germany with monogram HSt 15.	Social and Industrial History		old tear to dress on sleeve. No visible damage or distress visible	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
191	Team A Store 2.	2000.356	China wash bowl	cream and blue large China wash bowl with pink flower decoration.	Social and Industrial History		Wash bowl very dirty and with various cracks and chips on body and rim.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
192	Team A Store 2.	2001.222	small animal trap	metal black painted small animal (rabbit?) trap with jaws and chain attached.	Social and Industrial History		metal shows some level of corrosion and jaws are frozen. Item complete	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
193	Team A Store 2.	2001.222.1	small animal trap	metal black painted small animal (rabbit?) trap with jaws and chain attached to ground peg.	Social and Industrial History		metal shows some level of corrosion and jaws are frozen. Item complete	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

194	Team A Store 2.	2001.221	conker	Wooden 'conker' with metal (lead) filling and rope handle. Heavy.	Social and Industrial History		overall good and complete condition. Wood shows signs of age as does the rope handle	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
195	Team A Store 2.	NA_101_A	farming tool	metal farming tool or hoe without handle.	Social and Industrial History		metal corroded and in poor state. Missing handle and cutting blade thin.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
196	Team A Store 2.	2001.1117	scoop	brass metal helmet shaped coal scoop with rivetted brass handle	Social and Industrial History		metal has dull finish but complete and with no visible damage	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
197	Team A Store 2.	2001.1047	brush	wood, and hair/bristle brush. Wood Handle painted black, coconut hair bristles on one side with black and white hair on other. Small makers plaque on side Best English Fort Brand	Social and Industrial History		wood handle excellent condition with a few chips to paint, all bristles show signs of use and wear although clean.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
198	Team A Store 2.	2001.1106	leather making tool	Metal leather shoe making tool with wood handle. Initials pin marked possibly S.B.	Social and Industrial History		metal head rusty and wood handle dirty.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

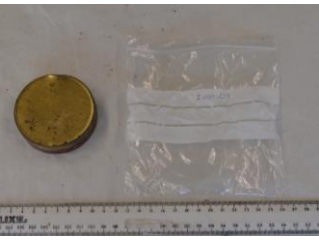

199	Team A Store 2.	2001.1105.1-8	Metal shoe lasts	Eight metal shoe lasts of varying sizes.	Social and Industrial History		Metal shoe lasts. Varying sizes and shapes. Some exterior rust on each but otherwise in fair condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
200	Team A Store 2.	1981.239	Glass milk bottle	Glass milk bottle with green transfer writing on the front.	Social and Industrial History		Green writing (possibly transfer) on the front fading. Some residue on the inside of the bottle. Otherwise in fair condition with no cracks or breakages.	Gould's Dairy Loughton, however poor condition and better example in collection	Yes
201	Team A Store 2.	1993.439	Metal toasting fork	Metal (possibly brass) toasting fork with ship design on handle.	Social and Industrial History		Some signs of wear on the handle but otherwise in very good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
202	Team A Store 2.	1993.433	Glass measuring flask	Glass measuring flask with lip at the end and measurements on the side	Social and Industrial History		Chip along the base of the glass and some black residue and dust at the bottom of the glass. Otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
203	Team A Store 2.	1991.275	Glass tankard	Glass tankard with music box inside that plays 'God Save The King'. Commemorative glass to the coronation of King George VI	Social and Industrial History		Large crack at base of glass. Base appears to have been repaired with thick layer of glue around outside edge. Music box still in working order. Engraved text on the front of the tankard still visible.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

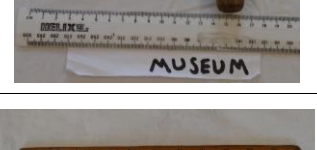

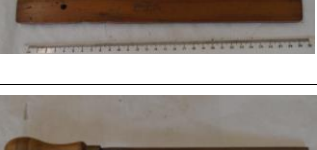

204	Team A Store 2.	T284.1	Metal round tin (small)	Small round metal tin with 'Car's Blackit Polish' written on the front	Social and Industrial History		Tin is very rusted. Words on the tin are mostly obscured by corrosion. One side of the tin is brighter than the other in places.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
205	Team A Store 2.	T284.2	Metal cylindrical tin	Metal cylindrical tin with 'Girard's Bath Crystals' written on a label on the outside.	Social and Industrial History		Tin is very rusted around the rim and is crazed on the inside. Label is still clear to read.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
206	Team A Store 2.	T284.3	Metal round tin (medium)	Medium round metal tin with 'Car's Blackit Polish' written on the front.	Social and Industrial History		Tin is very rusted. Some of the sticker on the front of the tin has come away and has rusty marks across it. The writing on the underside of the tin is obscured by rust.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
207	Team A Store 2.	T284.4	Cardboard cylindrical tin	Cylindrical cardboard tin with metal lid. Label on outside reads: 'Pearce Duff's Epsom Salts'.	Social and Industrial History		Lid of the tin is scuffed and rusted. Inside the tin there are remnants of the Epsom Salts on the outside edge. Cardboard in fair condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
208	Team A Store 2.	T284.5	Cardboard match boxes	Two cardboard match boxes. One reads: 'Ruby Matches - Bryant & May' and the other reads 'Milkmaid Brand Milk'.	Social and Industrial History		Both match boxes in fairly bad condition. Both show possible signs of damp and dirt and the 'Ruby Red' match box has one edge torn.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

209	Team A Store 2.	T284.6	Cardboard/paper packet	Cardboard/paper butter scotch packet	Social and Industrial History		Paper around packet is torn and cardboard box has been flattened. Some possible signs of water damage around the back of the paper	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
210	Team A Store 2.	T284.7	Cardboard/paper razor box/packet	One cardboard box containing 'Peacock' razor blades and one paper packet containing 'The Smiler Razor Blade'.	Social and Industrial History		Cardboard box is flattened and signs of damage and possible damp. Logo and words still visible. Paper packet has signs of damage but is otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
211	Team A Store 2.	T284.8	Paper railway timetable	Paper railway timetable - Cambrian railways	Social and Industrial History		Paper is creased and text is smudged around the back of the paper. Otherwise text is visible.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
212	Team A Store 2.	T284.9	metal tin	Red metal tin with flower pattern around the lid and a serpent and floral pattern around the outside.	Social and Industrial History		Metal shows possible signs of rust and dirt. Otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
213	Team A Store 2.	NA_102_A	Metal and wood stereoscope	Metal (possibly aluminium) and wooden stereoscope. Words on underside read: 'Underwood & Underwood New York. Patented USA June 11 1901'	Social and Industrial History		Signs of rust around the hinges at the bottom of the wooden cross and around the screws attaching the metal to the wooden base. Spots of rust around the metal parts.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

214	Team A Store 2.	NA_103_A	Metal and wood stereoscope	Metal and wood stereoscope. Words on underside read: 'Underwood & Underwood New York. Patented USA June 11 1901'	Social and Industrial History		Some patches of the metal are dirty from use and there are scuffs to the top of the wood but otherwise in excellent condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
215	Team A Store 2.	1991.245	Metal scales	Metal weighing scales. Yellow writing transfer on the front of the scales reads: 'To Weigh 7.LB British Made'.	Social and Industrial History		Metal platform holding weights shows signs of flaking and possible rust. Yellowing around the edges of the transfer for the writing. Some scuff marks along the bottom. Otherwise in fair condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
216	Team A Store 2.	1988.30.12	Metal and wood axe	Metal and wood axe. Engraved writing into the axe blade reads: 'Elwell'.	Social and Industrial History		Wooden handle has a small section missing from the top around the axe blade. Some scuffs to the wood around the handle and small signs of rust on the blade.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
217	Team A Store 2.	1988.30.37	Metal door hinge	Ornate metal door hinge	Social and Industrial History		Metal on the hinge is friable and very rusty.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
218	Team A Store 2.	1993.305	Metal and glass oil lamp	Metal and glass oil lamp. Embossed letters on glass read: 'British Made'	Social and Industrial History		Metal on lantern is extremely rusted. There are several cobwebs around the base and an old cocoon from a butterfly or moth around the top. The glass is dusty and has a few stains on it.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

219	Team A Store 2.	2001.238	Wood and metal leather burnisher	Wood and metal leather burnisher. Engraving on one side reads: 'A George Barnsley' and '3'	Social and Industrial History		Wood around the top of the burnisher is cracked and corroded. Some black residue on the wooden handle. Metal shows signs of rust.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
220	Team A Store 2.	2001.239	Metal circular shoe Polish Tin	Metal circular shoe polish tin. Label on the tin reads: 'Wren's Brown Super Wax Shoe Polish: Made in England Since 1889 By Appointment to H.M. King George VI'	Social and Industrial History		Small dent around the base of the tin. Signs of rust all around the circumference of the tin.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
221	Team A Store 2.	2001.246	Metal and wood strainer	Metal and wood strainer	Social and Industrial History		Mesh metal net coming lifting at the edges. Metal connecting pan to base rusted. Base rusted around outside edge and inside.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
222	Team A Store 2.	NA_104_A	Wooden shoe lasts with some metal fastenings	Pair of wooden shoe lasts with numbers '10, 15 2179' engraved on the top and metal fastenings	Social and Industrial History		Wood showing possible signs of woodworm on the underside and in patches on the top. Metal fastenings on the right shoe are rusted and there is some white residue possibly paint on the heel of the right shoe	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

223	Team A Store 2.	NA_105_A	Metal crucible	Metal crucible in two pieces. Both pieces held together with plastic tag around the handle. Writing on the bottom hard to read but may say: 'Kenrick 16 Pint'	Social and Industrial History		Metal very rusted around the top and spotted across the handle. Small nail inside the smaller pot.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
224	Team A Store 2.	NA_106_A	Metal shoe last	Heavy metal shoe last (possibly iron) with 'TITAN' embossed in between the joins.	Social and Industrial History		Metal rusted in several places across the last particularly on the largest shoe size.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
225	Team A Store 2.	NA_107_A	Metal shoe last	Heavy metal shoe last (possibly iron) with 'TITAN' embossed in between the joins.	Social and Industrial History		Metal shows signs of rust. Some cobwebs (one potential dead spider) and dust on the joins.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
226	Team A Store 2.	NA_108_A	Metal bolt	Metal (possibly iron) bolt	Social and Industrial History		Some signs of rust on metal under possible coat of black paint or other preservative. Some dust on the base.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
227	Team A Store 2.	2001.1061	Metal and wood screw	Metal screw with wooden handle	Social and Industrial History		Metal around fastening on top of wooden handle is rusted and shows possible signs of oxidising. Some rust around top of metal screw and around screw .	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

228	Team A Store 2.	2001.1115	Metal trap	Metal (possibly iron) trap	Social and Industrial History		Some signs of rust around the prongs of the trap. Still opens when pressed at the bottom. Small fleck of white paint on the handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
229	Team A Store 2.	2001.1048	Metal and wooden saw	Metal saw with wooden handle	Social and Industrial History		Small patches of rust on the saw blade and some dust on the metal. Scuffs on the wooden handle. Saw blade sharp.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
230	Team A Store 2.	2001.1040	Metal and wooden saw	Metal saw with ornate wooden handle	Social and Industrial History		Possible oxidising on the metal fixings on the wooden handle. Some small signs of rust on the blade. Some scuffs to the wood. Saw blade sharp.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
231	Team A Store 2.	2001.1050	Metal and wooden saw	Metal saw with wooden handle	Social and Industrial History		Blade is very rusty and has some dust hanging from the edge closest to the handle. Wooden handle in fairly good condition with a few scuffs. Saw blade sharp.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
232	Team A Store 2.	2001.1074	Metal and wood hand drill	Metal hand drill with wooden handle	Social and Industrial History		Back of the metal crank is rusted and the red paint is flaking away. Crank still works although some tree debris and dust lodged in gears. Metal on crank is rusted. Wooden handle in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
233	Team A Store 2.	2001.1045	Wooden ruler	Wooden ruler with measurements up to 12. The initials 'EJA' and 'M.S.' are scratched into the wood.	Social and Industrial History		A few scuffs to the wood and a small piece of the bottom and top edges are missing. Some dust in a hole in the ruler. Otherwise in fairly good overall condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
234	Team A Store 2.	2001.1069	Metal and wood file	Metal flat file with wood handle. Engraved name at the base of the file reads: 'W.T.Y Zack Sons & Turner'	Social and Industrial History		Metal of the file is very rusted. Crack in the wooden handle from the base of the metal file. Some scuffs to the wood.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

235	Team A Store 2.	2001.1042	Metal gauge	Metal gauge with embossed writing on the top reading: 'C.T.D. Co. No.80. Cleveland Ohio. U.S.A.' and numbers along outside edge ranging from 1-60	Social and Industrial History		Some of the numbers on the outside edge are worn and hard to read. Some white dust or residue on the outside feet of the gauge. Some possible signs of rust. Some dust and possible plant debris on the underneath and possibly some black paint.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
236	Team A Store 2.	2001.1054	Wooden and metal ruler	Wooden folding ruler with metal hinges	Social and Industrial History		Metal rusted and has discoloured the wood. Some numbers have paint splashes on them. Ruler hinges still very stiff.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
237	Team A Store 2.	2001.1055	Wooden and metal ruler	Wooden folding ruler with metal hinges. Carved writing to one side reads: 'Warranted Boxwood'	Social and Industrial History		Hinges are quite loose. All numbers still readable on both sides and no visible signs of rust or corrosion from the metal.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
238	Team A Store 2.	2001.1068	Wooden and metal ruler	Wooden folding ruler with metal hinges. Carved writing on one side reads: 'Boxwood RABONE Made in England No. 1167'	Social and Industrial History		Some signs of potential rust or decolouration to the metal at the end of the ruler. Wood in good condition with no breaks or cracks. Overall fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
239	Team A Store 2.	2001.1049	Metal drill bit	Metal drill bit	Social and Industrial History		Metal inside the drill bit rusted and flaking. End of drill bit blunted.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

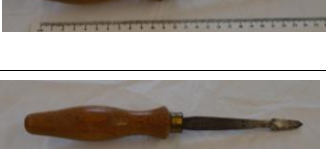

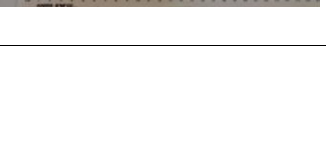

240	Team A Store 2.	2001.1096	Metal drill bit	Metal drill bit	Social and Industrial History		Metal inside the drill bit is rusted and flaking. Metal is scuffed around the bottom of the drill bit.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
241	Team A Store 2.	2001.1095	Metal drill bit	Metal drill bit	Social and Industrial History		Metal inside the drill bit is slightly rusted and is also rusted on the outside. Some parts flaking away from inside the drill bit.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
242	Team A Store 2.	2001.1088	Metal and wood screw	Metal screw with wooden handle	Social and Industrial History		Metal screw is shows signs of rust. Wooden handle has possible white paint marks on top and scuffs to the wood.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
243	Team A Store 2.	2001.1075	Metal block	Metal block	Social and Industrial History		Metal is very friable or dusty (possibly dirt). Possible signs of rust.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
244	Team A Store 2.	2001.1093	Metal compass	Metal compass	Social and Industrial History		Metal arms are in good condition with a few minor scrapes. Compass points have rusted.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

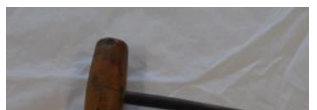

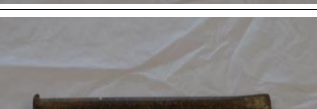

245	Team A Store 2.	2001.1056	Metal and wood scraper	Metal scraper with wooden hold. Carved words on the wooden handle read: 'Skarsten Scraper No. 62' and words engraved on the metal read: 'Skarsten MFG Co. London England'	Social and Industrial History		Metal on the scraper has large patches that have possibly corroded or rusted away. End of the scraper blade shows signs of rust. Wooden handle has lost some of the original lacquer or paint and has some dirty marks from paint or other substances on the wood.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
246	Team A Store 2.	2001.1076	Metal and wood screw	Metal screw with wooden handle	Social and Industrial History		Metal on the inside of the screw shows signs of rust. Wooden handle in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
247	Team A Store 2.	2001.1041	Metal and wood set square	Metal and wood set square with liquid balancing measure	Social and Industrial History		Scuffs and signs of rust on the metal. Scrapes against the wood and flecks of paint missing from the inside circle around the liquid balance.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
248	Team A Store 2.	2001.1065	Metal and wood set square	Metal and wood set square with ornate screw or nail fittings	Social and Industrial History		Metal is scuffed and rusted. Wood is chipped in places and scuffed. Otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
249	Team A Store 2.	2001.1066	Metal and wood set square	Metal and wood set square with diamond shaped nail or screw fittings	Social and Industrial History		Metal is very rusted and rough. Wood has some dents and scuff markings.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

250	Team A Store 2.	2001.1064	Metal and wood set square	Metal and wood set square with circular shaped nail or screw fittings. Carving on wood reads: 'British Made'	Social and Industrial History		Metal has rusted in places and is rough. Wood is scuffed but otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
251	Team A Store 2.	2001.1087	Metal and wood chisel	Metal chisel with wooden handle. Engraving to metal reads: 'Made In SW' and 'Wo'. Sticker on wooden handle reads: 'Wolf Cub Equipment'.	Social and Industrial History		Metal on the chisel shows signs of rust and the tip of the chisel has black marks on (possibly from use) and handle has a few scuffs on the wood. Otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
252	Team A Store 2.	2001.1077	Metal and wood tool	Metal tool with wooden handle, possibly used for woodwork. Number '11' engraved and 'H.L.D'	Social and Industrial History		Signs of rust on the front of the metal and more around the back. Some scuffs to the wooden handle but otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
253	Team A Store 2.	2001.1070	Metal and wood tool	Metal tool with wooden handle, possibly used for woodwork. The word 'Wolf' engraved into one side of the metal tip and 'Made in Sheff' on the other. Sticker attached to the wooden handle reads: 'Wolf Cub Equipment'.	Social and Industrial History		Metal tip in good condition with only some blackening to the metal. Handle is also in good condition with only a few scuffs and some small discolouring.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
254	Team A Store 2.	2001.1079	Metal and wood tool	Metal tool with wooden handle possibly used for woodwork. Number '2' engraved into the metal and 'B & H LD'	Social and Industrial History		Metal has darkened with some small signs of rust. Tip has jagged edge worn from use. Some scuffs to the handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
255	Team A Store 2.	2001.1091	Metal and wood tool	Metal tool with wooden handle, possibly used for woodwork. Number '6' engraved into metal and 'B & H LD'.	Social and Industrial History		Metal has rusted and is slightly loose from the handle. Some small scuffs to the wood.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
256	Team A Store 2.	2001.1080	Metal and wood tool	Metal tool with wooden handle, possibly used for woodwork. Number '4' engraved into the wood and 'B & H LD'	Social and Industrial History		Metal has rusted in places. Metal tool has come away from the wooden handle and is extremely loose. End of the tool that should be affixed to the handle has a point on it. Possible specks of paint on the wood and a crack through the wood from the metal tool to midway down the handle. Some dark marks to the wood.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
257	Team A Store 2.	2001.1089	Metal and wood tool	Metal (possibly steel) scooped tool with a wooden handle. Possibly used for woodwork. Engraving on the metal reads: '(I or J) Sorby Gilt Steel'	Social and Industrial History		Metal top may have broken away as pieces are missing. Small possible signs of rust and fixing between metal and wood is slightly loose.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

258	Team A Store 2.	2001.1090	Metal and wood tool	Metal (possibly steel) scooped tool with wooden handle. Possibly used for woodwork. Carving to handle reads 'H. Smerdon' and engraving to metal hard to read.	Social and Industrial History		Metal is rusted in places and around engraving, making it hard to read. Possible edge missing to the top of the tool and some scuffs along the wooden handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
259	Team A Store 2.	2001.1088	Metal and wood chisel	Metal chisel with wooden handle. Engravings read: 'Made in Sheffield' and 'Wolf'. Sticker attached to the wooden handle reads: 'Wolf Cub Equipment'.	Social and Industrial History		Metal is rusted in places around the chisel and the metal fastening holding it to the wooden handle. Wooden handle is dirtied and scuffed in places.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
260	Team A Store 2.	2001.1044	Metal tool	Metal (possibly steel) flat ended tool possibly used for woodwork	Social and Industrial History		Metal has completely rusted. Some black residue on the back of the flat side of the tool. Pieces missing from the base of the metal handle and some paint or covering chipped on the handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
261	Team A Store 2.	2001.1057	Metal and wood hammer	Metal hammer with wooden handle	Social and Industrial History		Metal shows signs of rust. Hammer is slightly loose from the wooden handle. Wood in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
262	Team A Store 2.	2001.1092	Metal and wood tool	Metal tool with wooden handle possibly used for woodwork. Metal engraving reads: 'Ward'. Carving on handle reads: 'E Jacobs'.	Social and Industrial History		Metal has almost completely rusted and is lifting away from the wooden handle. Wood on handle is scuffed.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
263	Team A Store 2.	2001.1091	Metal and wood tool	Metal tool with wooden handle. Engraving to metal reads: 'Ward Warranted' and carving to handle reads: 'E Jacobs'.	Social and Industrial History		Metal shows signs of rust and some black residue to the metal. Wooden handle is scuffed and dirtied.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
264	Team A Store 2.	2001.1084	Metal and wood tool	Metal tool with wooden handle. Engraved number '9' on the metal and 'B.A.H.I.B'	Social and Industrial History		Metal has rusted and discoloured and is slightly loose from the handle. Smudge of red paint on the handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
265	Team A Store 2.	2001.1072	Metal and wood tool	Metal pronged tool with wooden handle. Engraving on metal reads: 'S.B & Co.	Social and Industrial History		Metal is discoloured and shows small signs of rust. Wooden handle is in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

266	Team A Store 2.	2001.1060	Metal and wood hammer	Metal hammer with wooden handle	Social and Industrial History		Metal hammer with wooden handle. Metal is scuffed and shows signs of rust in places. Wooden handle is possibly newer than the metal hammerhead. Screws fixing the hammerhead to the wood are rusted.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
267	Team A Store 2.	2001.1063	Metal hammer	Metal hammer with hooped metal handle	Social and Industrial History		Metal is rusted and discoloured.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
268	Team A Store 2.	2001.1051	Metal and wood hammer	Metal hammer with wooden handle	Social and Industrial History		Metal is worn and rusted at the tip of the hammer and scuffed at the edges. Hammerhead is slightly loose from the handle and makes a rattling sound. Wood is scuffed.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
269	Team A Store 2.	2001.1043	Metal peg	Heavy metal peg.	Social and Industrial History		Very heavy. Metal is breaking apart and very rusted through black paint or covering. Several cracks to the top of the peg that have resulted in breaks.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
270	Team A Store 2.	2001.1082	Metal and wood tool	Metal tool with wooden handle. The number '12' engraved into the metal and 'B&H Ltd'	Social and Industrial History		Some signs of rust and discoloration to the metal. Some scuffs and a couple of small cracks in the wood.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
271	Team A Store 2.	2001.1078	Metal and wood tool	Metal tool with wooden handle. The number '5' is engraved in the metal and 'B&H Ltd'	Social and Industrial History		Some possible signs of oxidising around the join between the metal and the handle. Metal is dulled and the tip of the tool is worn from use. Wooden handle is scuffed and has chips.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
272	Team A Store 2.	2001.1080	Metal and wood chisel	Metal chisel with wooden handle. The number '8' is engraved in the metal and 'B&H Ltd'	Social and Industrial History		Metal is discoloured and shows signs of rust. The fixing between the metal and the wood has rusted. Some small scuffs to the wooden handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
273	Team A Store 2.	2001.1085	Metal and wood chisel	Metal chisel with wooden handle. The number '10' is engraved in the metal with 'B&H Ltd'	Social and Industrial History		Metal is discoloured and shows signs of rust around the tip of the chisel. Some small scuffs to the wooden handle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

274	Team A Store 2.	2001.1083	Metal and wood chisel	Metal chisel with wooden handle. The number '1' is engraved in the metal with 'B&H Ltd'	Social and Industrial History		Metal is rusted along the bottom and discoloured at the top. Wooden handle shows some small scuffs.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
275	Team A Store 2.	2001.1087	Metal and wood drill bit	Metal drill bit with wooden handle.	Social and Industrial History		Metal is rusted and discoloured. Wood is discoloured and scuffed. Some glue or other residue around the screw fixings has worn away pieces of the rust.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
276	Team A Store 2.	2001.1062	Metal and wood drill bit	Metal drill bit with wooden handle.	Social and Industrial History		Metal is discoloured with small signs of potential rust. Wood is scuffed and chipped.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
277	Team A Store 2.	2001.1074	Metal and wood drill bit	Metal drill bit with wooden handle.	Social and Industrial History		Metal around the inside of the drill bit has rusted and along the top of the drill bit. Wood is slightly scuffed and chipped. Possible oxidising around the fixing at the top of the drill.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
278	Team A Store 2.	2001.1039	Metal drill bit	Metal (possibly steel) drill bit	Social and Industrial History		Metal is rusted throughout. Some other discoloration to the metal.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
279	Team A Store 2.	2001.1046	Metal chisel	Heavy metal chisel. The letter 'M' or 'IV' engraved into the metal.	Social and Industrial History		Metal is very rusted and has some turquoise residue (possibly paint) on the outside. Top of the drill bit is cracking.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
280	Team A Store 2.	2001.1094	Metal chisel	Heavy metal chisel. Engraving in the metal reads: 'G. Mayhew' and 'M'	Social and Industrial History		Some white residue along the flat end of the drill bit and some white marks (possibly paint). Small signs of potential rust.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

281	Team A Store 2.	2001.1073	Metal chisel	Heavy metal chisel. Engraving in the metal reads: 'G. Mayhew' and 'M'	Social and Industrial History		Top of the metal drill bit is cracked. Some scuffs and signs of rust.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
282	Team A Store 2.	2001.1052	Metal and wood hand drill brace	Metal and wooden hand drill brace	Social and Industrial History		Metal is very rusted. Wood is scuffed around the edges of the circular end and has some flecks of paint on it.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
283	Team A Store 2.	2010.6	Wood mallet	Wooden mallet	Social and Industrial History		Wood has some stains and scuffs but is otherwise in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
284	Team A Store 2.	2001.1116	Metal and rubber grease gun	Metal grease gun with rubber handle. Engraving on the top reads: 'PAT NOS 259586, 265921, P NO 722869'	Social and Industrial History		Metal has rusted in the middle and around the end. Some black residue around the neck of the end of the grease gun.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
285	Team A Store 2.	2001.1039	Wooden and metal plane	Wooden plane with metal plate attached. Engraving to the metal plane unreadable.	Social and Industrial History		Wood is scuffed and dirtied with some black residue inside. Metal plate is very rusted, making engraving hard to read.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
286	Team A Store 2.	T65	Wooden bell box	Wooden bell box with six bell mechanisms: 'Lounge', 'Front Door', 'Bedroom 1', 'Bedroom 2', 'Bedroom 3', 'Side Door'. Text at bottom reads: 'C.H. Simmons 20 Fladgate Rd. Leytonstone'.	Social and Industrial History		Front screen on bell box very dusty. Wood is dirtied in the corners and the lid that covers the mechanisms is loose. Some potential paint marks on the wood and other dirty marks. Overall condition is fairly good.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

287	Team A Store 2.	1992.198	Metal radiopticon in original cardboard box	Metal radiopticon projector in original cardboard box. Outside of the box reads: 'Radiopticon: The Greatest Home Entertainer.' and some guidelines for use.	Social and Industrial History		Cardboard box has some dark patches on top and is distressed at the edges. Part of the label has torn off. The Radiopticon shows some signs of rust around the top and possible signs of oxidising as well as some dents in the metal. Some dust on the inside of the box.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
288	Team A Store 2.	T188.1	Card cigarette box	Cigarette box made of card. Label on the front reads: 'Player's Navy Cut Cigarettes "Mild"'. Back of the box reads: 'Manufactured from Rich Cool Navy Cut Tobacco, John Player & Sons Nottingham, England'	Social and Industrial History		Card is dusty and has a black mark on the back of the box. Some potential signs of damp to the bottom fold of the box.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
289	Team A Store 2.	T188.2	Cardboard box of matches	Cardboard box of matches with plastic ring fixing inside. Front of the box reads: 'Punch Match, J. John Masters & Co Ltd. London.'	Social and Industrial History		Cardboard box is dusty and the strike side is worn, but otherwise in very good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
290	Team A Store 2.	T188.3	Card box of cigarettes	Card box of cigarettes with image of a sailor on the front. Label reads: 'Player's Navy Cut Cigarettes "Medium"'. Back of the box reads: 'Manufactured from Virginia Tobacco, John Player & Sons, Castle Tobacco Factory, Nottingham, England.'	Social and Industrial History		Card is slightly dented, but is otherwise in very good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
291	Team A Store 2.	T188.4	Round metal tin	Round metal tin with sailor on the front. Label reads: 'Bulwark Cut Plug, W.D. & H.O. Wills'	Social and Industrial History		Lid of the tin is loose and the metal is scratched and shows possible signs of rust. Inside the tin, the paper insert is dirtied with yellow marks.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

292	Team A Store 2.	T188.5	Metal cocoa tin	Rowntree's metal cocoa tin. Paper label on the outside reads: 'Rowntree's Elect Cocoa'.	Social and Industrial History		Tin is very rusted and the paper label shows possible signs of foxing and is torn and lifting.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
293	Team A Store 2.	T188.6	Cylindrical metal tin	Cylindrical metal tin with paper label. Label on the outside reads: 'Bournville Cocoa'.	Social and Industrial History		Tin is very rusted and dirtied. The paper label is torn and shows possible signs of foxing.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
294	Team A Store 2.	T188.7	Metal patterned tin	Floral patterned metal tin with Chinese symbol on the top.	Social and Industrial History		Rust around the lid of the tin and around the base. Small dent around the top.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
295	Team A Store 2.	T188.8	Metal mustard tin	Metal mustard tin. Paper label on the outside reads: 'C.W.S. Fine Mustard, Silvertown'.	Social and Industrial History		Signs of rust and discolouration around the lid and base. Paper label is torn and peeling.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
296	Team A Store 2.	T188.9	Metal OXO tin	Metal OXO tin. Label on the front reads: 'OXO Cubes'	Social and Industrial History		Signs of rust around the outside edge and bottom of the tin. Scuffs along the top of the tin and along the bottom.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

297	Team A Store 2.	T188.10	Small metal OXO tin	Small metal OXO tin. Label on the front reads: 'OXO Brand Fluid Beef In Cubes'	Social and Industrial History		Outside edge of the tin is rusted and discoloured. Some small spots of rust across the label.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
298	Team A Store 2.	T188.11	Small metal cylindrical tin	Small metal baking powder tin. Paper label on the outside edge reads: 'Borwick's Baking Powder'.	Social and Industrial History		Lid of the tin and bottom show signs of rust. Paper label is discoloured and shows potential signs of foxing.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
299	Team A Store 2.	T188.12	Metal cylindrical tin	Metal cylindrical coffee tin with paper label reading: 'Teetgen's Pure Coffee awarded Four Gold Medals'	Social and Industrial History		Rust around the lid of the tin. Paper is yellowed and torn at the edges, shows potential signs of damp or foxing.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
300	Team A Store 2.	T188.13	Cardboard cylindrical tin	Cardboard Petroleum cylindrical tin. Paper label on the outside reads: 'The Sunlight Petroleum, Mantle 150 Candle Power, British Made by British-Labour'	Social and Industrial History		Card shows potential signs of foxing or discolouration around the lid and the bottom of the tin. Otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
301	Team A Store 2.	T188.14	Metal tin	Metal tin with Japanese ladies and blossom images on the side.	Social and Industrial History		Top of the tin shows signs of rust and discolouration. Tin is otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

302	Team A Store 2.	T188.15	Cardboard cylindrical tin	Cylindrical cardboard tin with metal base. Brand name is 'Cadburys' cocoa and milk powder	Social and Industrial History		Base of tin shows rusting. Lid of the tin is missing and cardboard or paper base has begun to peel away. Large piece of dust on the inside.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
303	Team A Store 2.	T188.16	Metal cylindrical tin	Metal cylindrical Salt tin. Outside label reads: 'C.W.S Osformo Nutritive Table Salt'.	Social and Industrial History		Around the top and bottom of the tin is rusted and some of the text on the back of the tin has chipped away. Otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
304	Team A Store 2.	T188.17	Metal cigarette tin	Metal cigarette tin with target and wings design. Label on the front reads: 'Player's Airman Navy Cut: A blend of British Empire and Virginia tobaccos'.	Social and Industrial History		Outside edge of the tin is possibly rusted or discoloured. Some scuffs to the design of the label, but otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
305	Team A Store 2.	NA_109_A	Glass bottle	Small glass bottle with six embossed vertical lines	Social and Industrial History		Glass has some small bubbling and scuffs on the outside. Some possible signs of residue on the inside. A small crack around the base with brown residue in it.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
306	Team A Store 2.	NA_110_A	Glass jar	Small glass jar with '616389' embossed around the rim	Social and Industrial History		Glass shows possible signs of repair around the rim and along the base where there is yellow residue sticking to the glass. There is dust and some potential plant matter inside the glass.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
307	Team A Store 2.	NA_111_A	Glass medicine bottle	Small glass bottle with 'Veno's Lightning Cough Cure' embossed on the outside.	Social and Industrial History		Bottle shows potential signs of dirt around the neck and in the bottom of the bottle. Some scuffs and scratches on the glass.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

308	Team A Store 2.	NA_112_A	Glass milk bottle (large)	Large glass milk bottle with the image of a crown and 'Regd. Trade Mark' embossed into one side and 'Contents 1PT' on the other.	Social and Industrial History		Small yellow marks on the bottom of the glass bottle and some scratches and scuffs to the outside but otherwise in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
309	Team A Store 2.	T188	Ceramic pot	Brown glazed ceramic pot.	Social and Industrial History		There is a chip in the base of the pot. The paint is scuffed and scratched in places on the outside edge.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
310	Team A Store 2.	NA_113_A	Glass milk bottle	Medium sized glass milk bottle with 'EHCS' embossed on one side and 'Enfield Highway Pasteurised Milk' on the other.	Social and Industrial History		Brown stain on the inside of the glass as well as a few scuffs. Bottle is otherwise in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
311	Team A Store 2.	NA_114_A	Ceramic water bottle	Ceramic bottle with 'Fox earth Mineral Water Company, Foxearth Essex' printed or painted on the front.	Social and Industrial History		Large chip on the base of the bottle and some white paint or other substance around it. Some grey residue along the lip of the bottle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
312	Team A Store 2.	NA_115_A	Glass medicine bottle	Glass bottle with 'Woodward Chemist London' embossed vertically on to the front.	Social and Industrial History		Some scuffs to the outside of the glass and some stains on the inside but otherwise in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

313	Team A Store 2.	NA_116_A	Ceramic ginger beer bottle	Ceramic bottle with 'Smith's Ginger Beer' engraved around the top and 'Bourne 36 Denby' on the bottom. Rubber stopper reads: 'James Cox & Co. Ltd. London'.	Social and Industrial History		A few small scuffs to the glaze. Stopper appears to be stuck in the bottle. Otherwise in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
314	Team A Store 2.	NA_117_A	Glass bottle	Small glass bottle	Social and Industrial History		Some white residue around the neck and possible crack around the base. Some small scuffs and scrapes but otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
315	Team A Store 2.	NA_118_A	Glass Lid	Green glass lid with 'Limited the Castleford' embossed on the rim.	Social and Industrial History		Embossed writing on the rim of the lid is disrupted due to pieces being broken off. Some jagged edges from broken glass. Orange dusty residue on the outside edge and along the bottom of the lid.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
316	Team A Store 2.	NA_119_A	Ceramic ginger beer bottle	Ceramic glazed bottle with: 'R. White's Old Style Ginger Beer' printed or painted on the front with rubber or metal stopper. '1930 Advancroft Co. Glasgow' embossed near the bottom.	Social and Industrial History		There are a few scuffs to the glaze but the bottle is otherwise in very good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
317	Team A Store 2.	NA_120_A	Glass milk bottle	Glass milk bottle with 'London Co-Op Society Limited' embossed into one side and 'LCS Contents 1PT' embossed into the other.	Social and Industrial History		A few scuffs to the outside of the glass. A large crack on the inside of the glass from the bottom to just above the middle. There is a brown stain at the bottom of the bottle.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

318	Team A Store 2.	2004.450-454	China tray with four cups	China tray with pink floral pattern and four small cups with same design. Imprint on the bottom of the tray reads: 'Wild Rose Royal Albert Crown China England'	Social and Industrial History		Crack through one of the small cups and some brown staining on the outside of each. Cups are otherwise in good condition. Tray is in very good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
319	Team A Store 2.	2011.2	Ceramic pie funnel	Ceramic pie funnel in the shape of a black bird. Inside stamp reads: 'Made in England'	Social and Industrial History		Glaze is worn from the bottom of the pie funnel. Otherwise in very good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
320	Team A Store 2.	2004.436	Ceramic feeding cup	Blue floral patterned ceramic feeding	Social and Industrial History		Some crazing in the glaze around the funnel, the bottom of the cup and inside the cup. Otherwise in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
321	Team A Store 2.	2004.455	Earthenware pie funnel	Ceramic pie funnel in the shape of a bell. Transfer on the outside reads: 'Traditional Earthenware. Ivory Classics. Pie Funnel. Made in England by the T.G. Green Pottery Est 1790'	Social and Industrial History		Small chip to the base of the pie funnel and some discolouration around it. Some stains on the glaze. Otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
322	Team A Store 2.	1990.67	Wood and metal model plane	Hand made green painted wooden model plane with metal wings and fixings.	Social and Industrial History		Signs of rust on the wings of the plane and around the tail. Some cracks around the join between the wooden body and the metal wings. Some signs of wear to the paintwork on the propellers and around the wheels.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
323	Team A Store 2.	NA_121_A	Cardboard jigsaw puzzle	Cardboard jigsaw puzzle in original cardboard box. Name on the outside reads: 'Gibbs Jig-Saw Puzzle No.3. The fight for the Ivory castle'.	Social and Industrial History		Box has yellowed in places and has collapsed at the sides. Picture and instructions on the outside of the box are still visible.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

324	Team A Store 2.	NA_122_A	Cardboard picture loto game	Picture loto game with pieces in original cardboard box. Outside label reads: 'Picture Loto. Published by J. Jaques & Son. Ltd. London. E.C.'	Social and Industrial History		Box is torn and warped at the edges and the lid doesn't quite fit properly. The pieces on the inside are in good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
325	Team A Store 2.	NA_123_A	Cardboard zoological loto game	Zoological game with pieces in original cardboard box. Outside label reads: 'Zoological Loto. A new game. Jaques & Son, Ltd. 20/21 Kirby St. Hatton Garden'.	Social and Industrial History		The box shows signs of wear at the edges and is torn along the base. The instructions on the inside of the box appear to have been drawn on or have been stained. Otherwise in fairly good condition overall.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
326	Team A Store 2.	1981.326	Ceramic pot	Orange ceramic pot	Social and Industrial History		Outer rim of the pot has several chips and the glaze has worn off. Inside of the pot has cracked in the bottom and also has chips to the glaze.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
327	Team A Store 2.	1981.315	Pottery wine/olive oil jug	Painted white pottery jug with two small spouts on either side of pottery handle.	Social and Industrial History		Some scratches and marks to the pottery. Otherwise in fairly good condition.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
328	Team A Store 2.	NA_124_A	Metal trivet	Metal trivet	Social and Industrial History		Metal has rusted and is flaking off the edges of the decorations.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes

329	Team A Store 2.	NA_125_A	Metal iron	Small metal iron	Social and Industrial History		Metal on the iron has completely rusted and there are scratches to the bottom.	This item is not relevant to the Collection Development Policy; There is limited provenance information and it is uncontextualised	Yes
