- (2) To review the Risk Management Policy and Strategy and refer to Cabinet for approval.

### **Executive Summary:**

This report gives the Audit and Governance Committee the opportunity to comment on and suggest new risks for inclusion on the Corporate Risk Register or changes to the scoring of existing risks and refer to Cabinet for approval.

The Committee is to review the Risk Management Policy and Strategy and refer to Cabinet for approval.

### **Reasons for Proposed Decision:**

To enhance the Council's risk management framework.

### Other Options for Action:

None. Formal responsibility for making recommendations to Cabinet on risk management issues lies with the Audit and Governance Committee. Members may suggest new risks for inclusion or changes to the scoring of existing risks.

### **Report:**

### Corporate Risk Register

- 1. The corporate risk register has been reviewed and updated by the Senior Leadership Team to reflect the current position and is attached at appendix 1.
- 2. The risk register was subsequently presented to the Corporate Governance Group (which includes the Chief Executive and the Section 151 Officer in its membership) for review and challenge.
- Members are asked to consider the attached updated Corporate Risk Register (Appendix 1) to determine whether the risks listed are scored appropriately and whether there are any additional risks that should be included. Appendices 2a and 2b set out Council's

revised risk likelihood and impact assessment matrices which are used to determine individual risk scorings.

- 4. The following key points should be noted:
  - HRA002 (Inability to provide building/regeneration programme) is a new risk and reflects the increase in building costs, increased cost of borrowing risks, and targets outlined in the Local Plan not being met.
  - ECDEV001 (Economic Development) is to be removed from the Corporate Risk Register as the risk is being managed to an acceptable level. It will continue to be managed at Service Level.
  - Following a thorough review of SUS001 (Failure to achieve carbon emissions targets) the risk score has increased and clear cross cutting action plans have been identified.
  - A detailed evaluation of COMP001 (Failure of compliance with social housing regulation) has resulted in an increase in the risk score. Clear actions have been identified to address this.

The table below outlines the direction of travel for each risk since it was updated for the March 2023 Audit and Governance Committee.
