Our approach to quality	25

Introduction

The key messages in this report:

We have pleasure in presenting our planning report to the Audit & Governance Committee for the 2022/23 audit. We would like to draw your attention to the key messages as set out below:

Audit quality is our number one priority. We plan our audit to focus on audit quality and have set the following audit quality objectives for this audit:

A robust challenge of the key judgements taken in the preparation of the financial statements.

A strong understanding of your internal control environment.

A well planned and delivered audit that raises findings early with those charged with governance.

Audit Scope

Our principal audit objective is to obtain sufficient, relevant and reliable audit evidence to enable us to express an opinion on the statutory accounts of the Council prepared in accordance with the Code of Practice on Local Authority Accounting ("the Code") issued by CIPFA for the year ended 31 March 2023. We will conduct our audit in accordance with International Standards on Auditing (UK) ("ISAs UK") as adopted by the UK Auditing Practices Board ("APB"), and Code of Audit Practice issued by the National Audit Office.

Our responsibilities as auditor, and the responsibilities of the Council, are set out in the 'PSAA Statement of responsibilities of auditors and audited bodies: Principal Local Authorities and Police Bodies' published by Public Sector Audit Appointments Limited.

Significant Risks

The Code requires that the auditor's work should be risk-based and proportionate. We tailor our work to reflect local circumstances and our assessment of risk. In relation to our audit for the year ended 31 March 2023, we have identified the following significant audit risks:

- Valuation of properties – Fixed assets and investment properties – there is significant judgement over the subjective inputs to the valuation.
- Capitalisation of expenditure – there is judgement over the appropriate classification of spend between capital and revenue. The Council has greater flexibility over the use of its revenue compared to its capital resources. This provides a potential incentive to inappropriately classify spend as capital which does not meet the accounting criteria for classification as such.
- Management override of controls – auditing standards presume there is a risk that the accounts may be fraudulently misstated by management overriding controls. Key areas of focus are: bias in the preparation of accounting estimates; inappropriate journal entries; and transactions which have no economic substance.

Our description on the potential significant audit risk is set out on pages 13 – 15.

International Standards on Auditing set a rebuttable presumption of the risk of fraud in the recognition of revenue.

The implementation of International Financial Reporting Standard 16 – Leases (IFRS 16) has been deferred by CIPFA LASAAC until the 2024-25 financial year. The new standard, IFRS 16, will require adjustments to recognise on balance sheet arrangements currently treated as operating leases. Therefore, whilst for 2022/23 this is still not applicable, we recommend the Council makes the necessary arrangements to assess the impact on the Authority's accounts due to IFRS 16 implementation from its implementation date of 1 April 2024.

Introduction (continued)

The key messages in this report (continued):

Impact of the backstop provisions

Under the backstop provisions, local authorities will be required to publish their statement of accounts and audit report by the backstop date. For financial years up to 31 March 2023, this will be 13 December 2024.

Our audit for the 2022/23 financial year is underway, and we currently expect to issue an unqualified audit opinion.

However, it's important to note that timely support is crucial for us to complete the audit by the backstop date. If significant delays occur and we cannot complete all audit work required under auditing standards, we may need to issue a disclaimer of opinion as outlined in the backstop proposals. This is because we will be unable to obtain sufficient appropriate audit evidence by the backstop date, and that the areas affected would be material and pervasive so that we would be unable to form a view as to whether the financial statements give a true and fair view. Our report would explicitly state that the disclaimer of opinion is due to the backstop provisions.

Progress of our audit planning procedures

We are currently concluding our 2021/22 accounts audit and our ISA260 Report is being presented to this meeting.

Our 2022/23 planning procedures have been undertaken and we are progressing with testing procedures on financial statements. We will update the committee once our procedures are concluded.

Issues identified in 2021/22

As per the requirement of ISA260, we are required to communicate with those charged with governance matters identified in our audit. We envisage to issue audit opinion on 2021/22 accounts at the next AC meeting. We will follow up on any control recommendation and assess whether management has adequately implemented our recommendation. This assessment will further inform our risk assessment, and we will update the authority if we choose to make changes to our risk assessment in respect of this follow up. We will also report to the Audit & Governance Committee on our findings with respect to the follow up of the prior year recommendations.

Value for Money

The Code requires that the auditor's work should be risk-based and proportionate. We tailor our work to reflect local circumstances and our assessment of risk.

The National Audit Office (NAO) issued a revised Code of Audit Practice from 2020/21 onwards, with a revised approach to "Value for Money" work. This has moved to a regime of narrative reporting in a new public "Annual Auditor's Report".

We will continue to follow the revised code guidance for our VFM work.

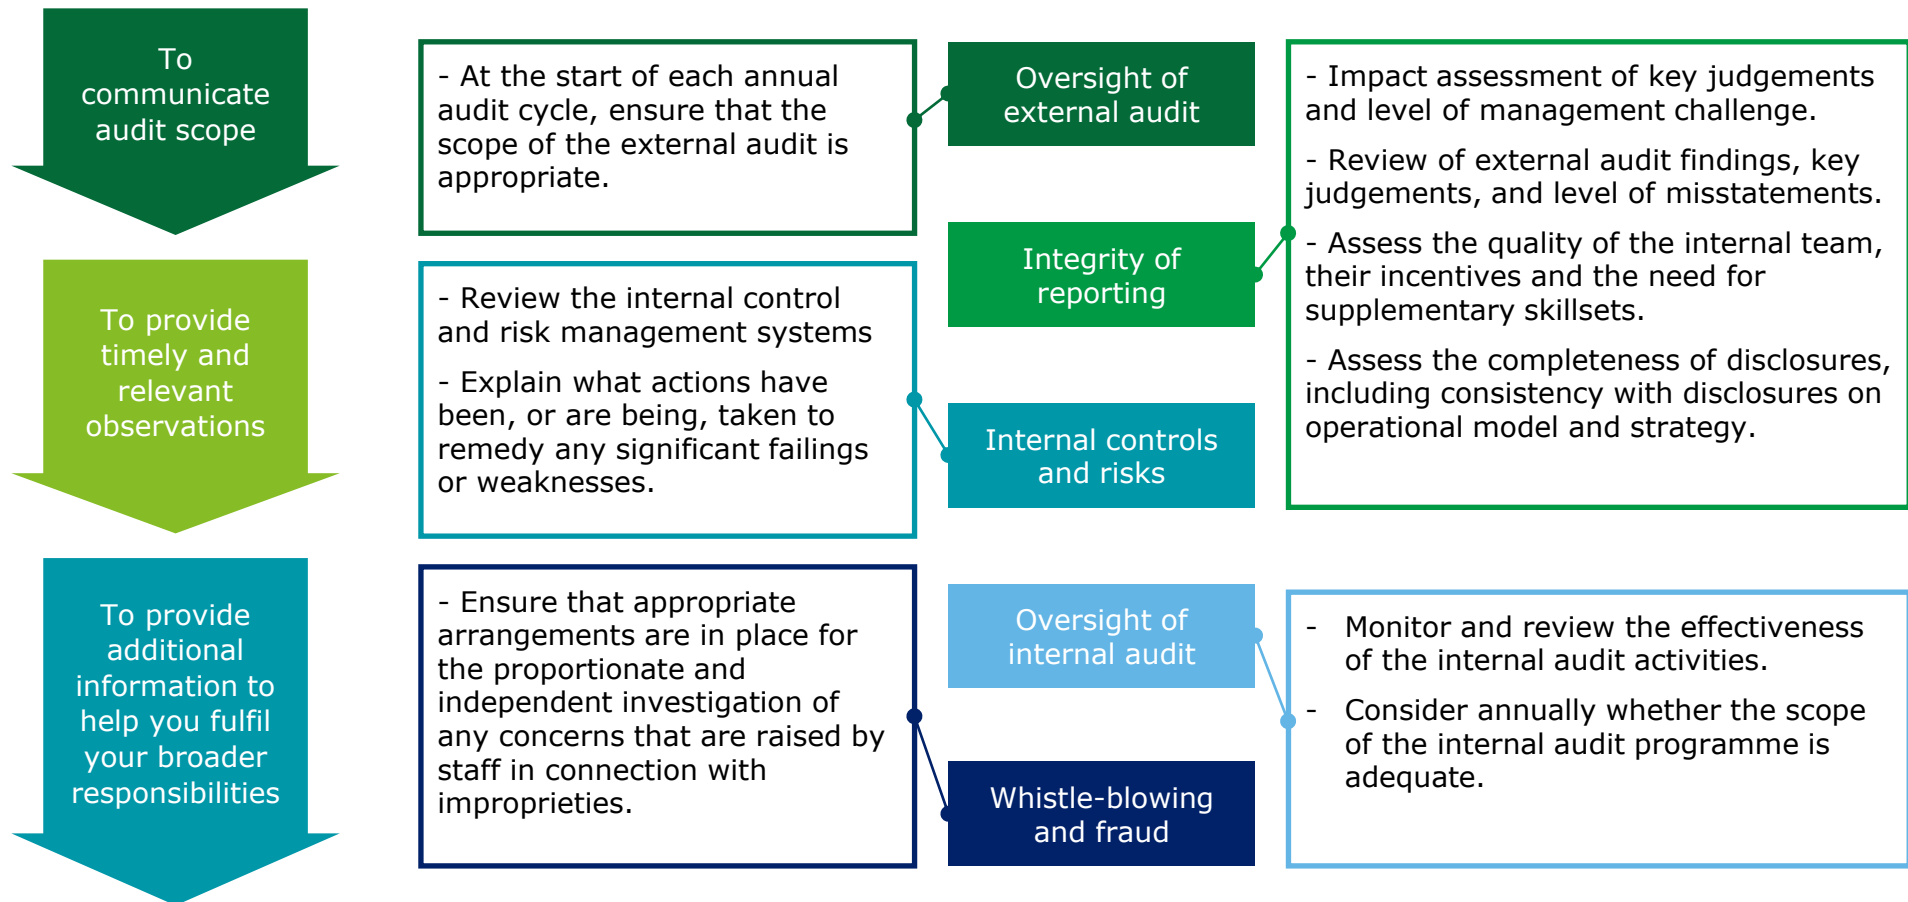

We will combine our Value for Money work for the financial year ended 31 March 2022 and financial year ended 31 March 2023. Our VFM work for the year ended 31 March 2022 is complete while that relating to financial year ended 31 March 2023 is ongoing. We will issue a combined Auditor's Annual Report for both years.

Responsibilities of the Audit & Governance Committee

Helping you fulfil your responsibilities

Why do we interact with the Audit & Governance Committee?

As a result of regulatory change in recent years, the role of the Audit & Governance Committee has significantly expanded. We set out here a summary of the core areas of Audit & Governance Committee responsibility to provide a reference in respect of these broader responsibilities.

Your control environment

What we consider when we plan the audit

We expect officers and those charged with governance to recognise the importance of a strong control environment and take proactive steps to deal with deficiencies identified on a timely basis.

Responsibilities of officers

Auditing standards require us to only accept or continue with an audit engagement when the preconditions for an audit are present. These preconditions include obtaining the agreement of officers and those charged with governance that they acknowledge and understand their responsibilities for, amongst other things, internal control as is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

Responsibilities of the Audit & Governance Committee

As explained further in the Responsibilities of the Audit & Governance Committee slide on the previous page, the Audit & Governance Committee is responsible for:

- Reviewing the internal control and risk management systems (unless expressly addressed by a separate risk committee).
- Explaining what actions have been or are being taken to remedy any significant failings or weaknesses.

As stakeholders tell us that they wish to understand how external audit challenges and responds to the quality of an entity's control environment, we are seeking to enhance how we plan and report on the results of the audit in response. We will be placing increased focus on how the control environment impacts the audit, from our initial risk assessment, to our testing approach and how we report on misstatements and control deficiencies.

Reliance on controls

We test evaluate the design and test the implementation of key controls for the audit.
We have historically not adopted a control reliant approach, on the basis of efficiency.

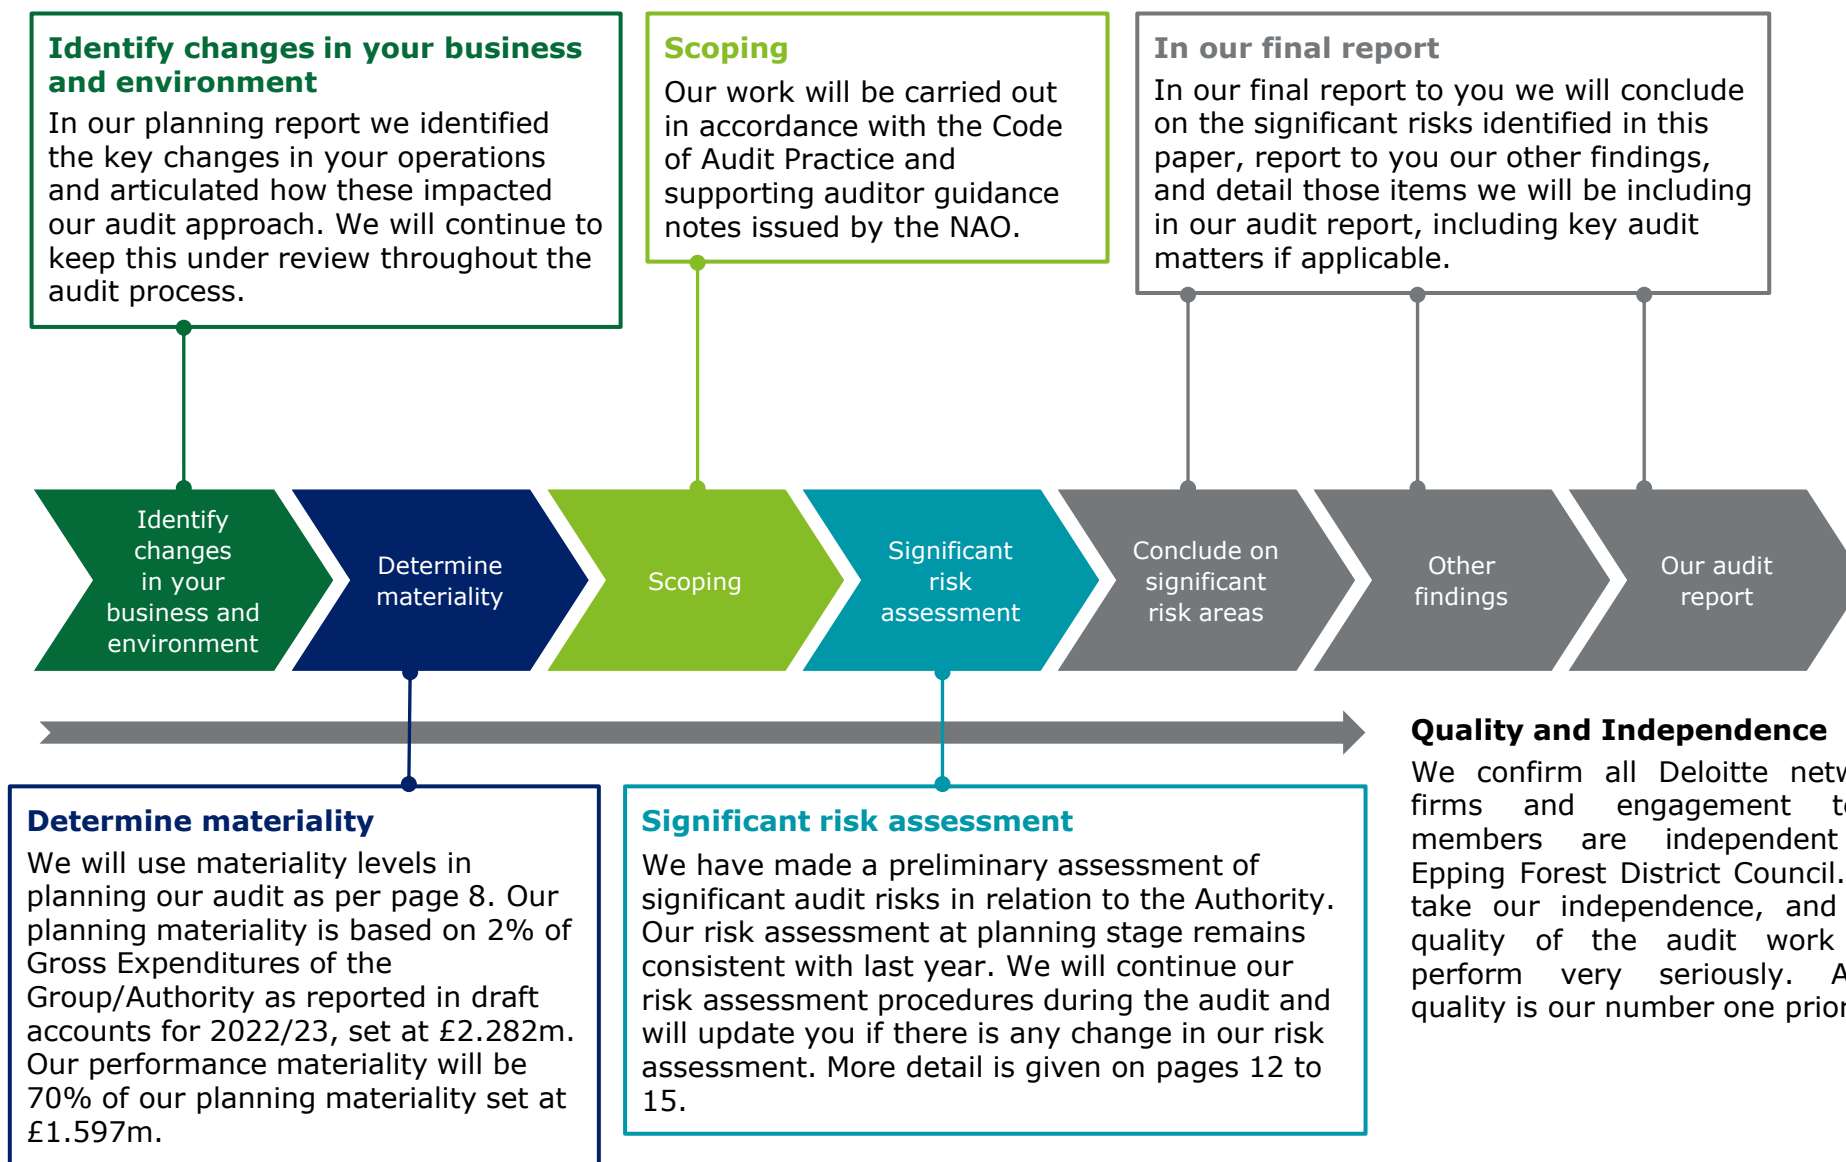

Performance materiality

We set performance materiality as a percentage of materiality to reduce the probability that, in aggregate, uncorrected and undetected misstatements exceed materiality. We determine performance materiality, with reference to factors such as the quality of the control environment and the historical error rate. Where we are unable to rely on controls, we may use a lower level of performance materiality.

Our audit explained

We tailor our audit to your business and your strategy

Materiality

Our approach to materiality

Basis of our materiality benchmark

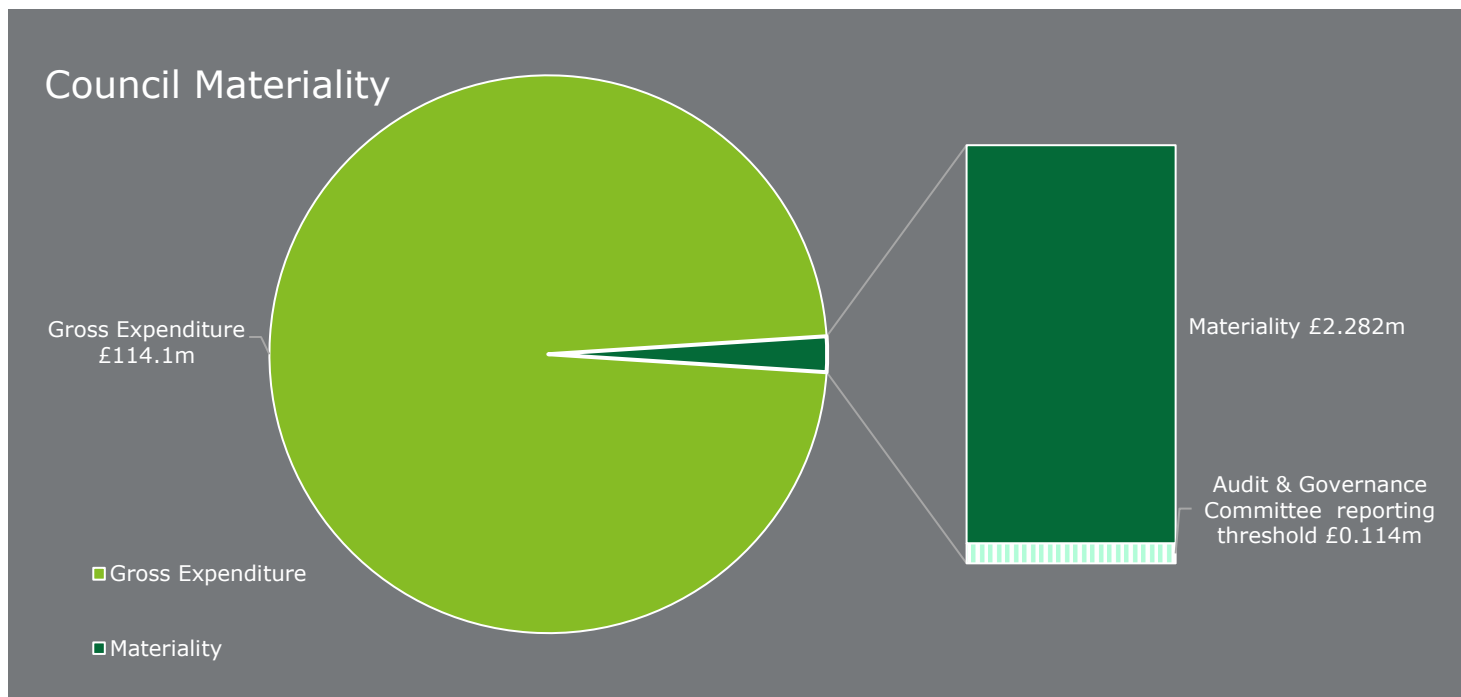

- We have determined materiality of £2.282m (2021/22 £2.236m) and performance materiality as £1.597m (2021/22: £1.565m), based on professional judgement, the requirements of auditing standards and the financial measures most relevant to users of the financial statements.

Reporting to those charged with governance

- We will report to you all misstatements found in excess of £0.114m (2021/22 £0.111m).
- We will report to you misstatements below this threshold if we consider them to be material by nature.

Group scoping

The Council has a wholly owned subsidiary - Qualis group which consists of Qualis Management, Qualis Living and Qualis Commercial. The results of these entities are consolidated in the group accounts. Our group scoping for 2022/23 is still in progress, we will report on the outcome of our group scoping exercise to the Council in our future communication.

Although materiality is the judgement of the audit partner, the Audit & Governance Committee must satisfy themselves that the level of materiality chosen is appropriate for the scope of the audit.

Scope of work and approach

We have the following areas of responsibility under the Audit Code

Statement of accounts

We will conduct our audit in accordance with the Code of Audit Practice and supporting guidance issued by the National Audit Office ("NAO") and International Standards on Auditing (UK) ("ISA (UK)") as adopted by the UK Auditing Practices Board ("APB").

We report on whether the financial statements:

- Give a true and fair view of the financial position and income and expenditure
- Are prepared properly in accordance with the Code of Practice on Local Authority Accounting ("the Code").

Whole Government Accounts

We are required to issue a separate assurance report to the NAO on the Authority's separate return required for the purposes of its audit of the Whole of Government Accounts.

HM Treasury (HMT) have not yet issued the guidance for local government for the year ended 31 March 2023. We will commence our work on the WGA after the issuance of the guidance.

Annual Governance Statement

We are required to consider whether there are any inconsistencies between the Annual Governance Statement and the financial statements and information that we are aware of from our work on the statement of accounts, VfM conclusion and other work.

We will also review any reports from relevant regulatory bodies and any related action plans developed by the Authority.

Value for Money conclusion

For our Value for Money procedures, we are required to consider the following:

- arrangements that the Authority has made securing financial resilience and economy, efficiency and effectiveness in its use of resources;
- If we identify any significant weaknesses to make recommendations; and
- to provide a narrative commentary on arrangements.

To perform this work, we are required to:

- Obtain an understanding of the Authority's arrangements sufficient to support our risk assessment and commentary;
- Assess whether there are risks of a significant weakness in the Authority's arrangements and perform additional procedures if a risk is identified. If a significant weakness is identified, we report this and an accompanying recommendation;
- Report in our audit opinion if we have reported any significant weaknesses.
- Issue a narrative commentary in our Annual Auditor's Report on the arrangements in place.

This will require a minimum level of work at every local public body, with additional risk-based work where relevant.

Our responsibilities as auditor, and the responsibilities of the Council, are set out in "PSAA Statement of responsibilities of auditors and audited bodies: Principal Local Authorities and Police Bodies", published by PSAA

Scope of work and approach (continued)

Our approach

Liaison with Internal Audit

The Auditing Standards Board's version of ISA (UK) 610 "Using the work of internal auditors" prohibits use of Internal Audit to provide "direct assistance" to the audit. Our approach to the use of the work of Internal Audit has been designed to be compatible with these requirements.

We will review Internal Audit reports and meet with the team to discuss their work. We will discuss the work plan for Internal Audit, and where they have identified specific material deficiencies in the control environment, we will consider adjusting our testing so that the audit risk is covered by our work.

Approach to controls testing

Our risk assessment procedures will include obtaining an understanding of controls considered to be 'relevant to the audit'. This involves evaluating the design of the controls and determining whether they have been implemented ("D & I").

The results of our work in obtaining an understanding of controls and any subsequent testing of the operational effectiveness of controls will be collated and the impact on the extent of substantive audit testing required will be considered.

We will consider any major changes to IT systems in year. This forms part of our ongoing risk assessment of IT systems and will involve Deloitte specialists as required.

Promoting high quality reporting to stakeholders

We view the audit role as going beyond reactively checking compliance with requirements: we seek to provide advice on evolving good practice to promote high quality reporting.

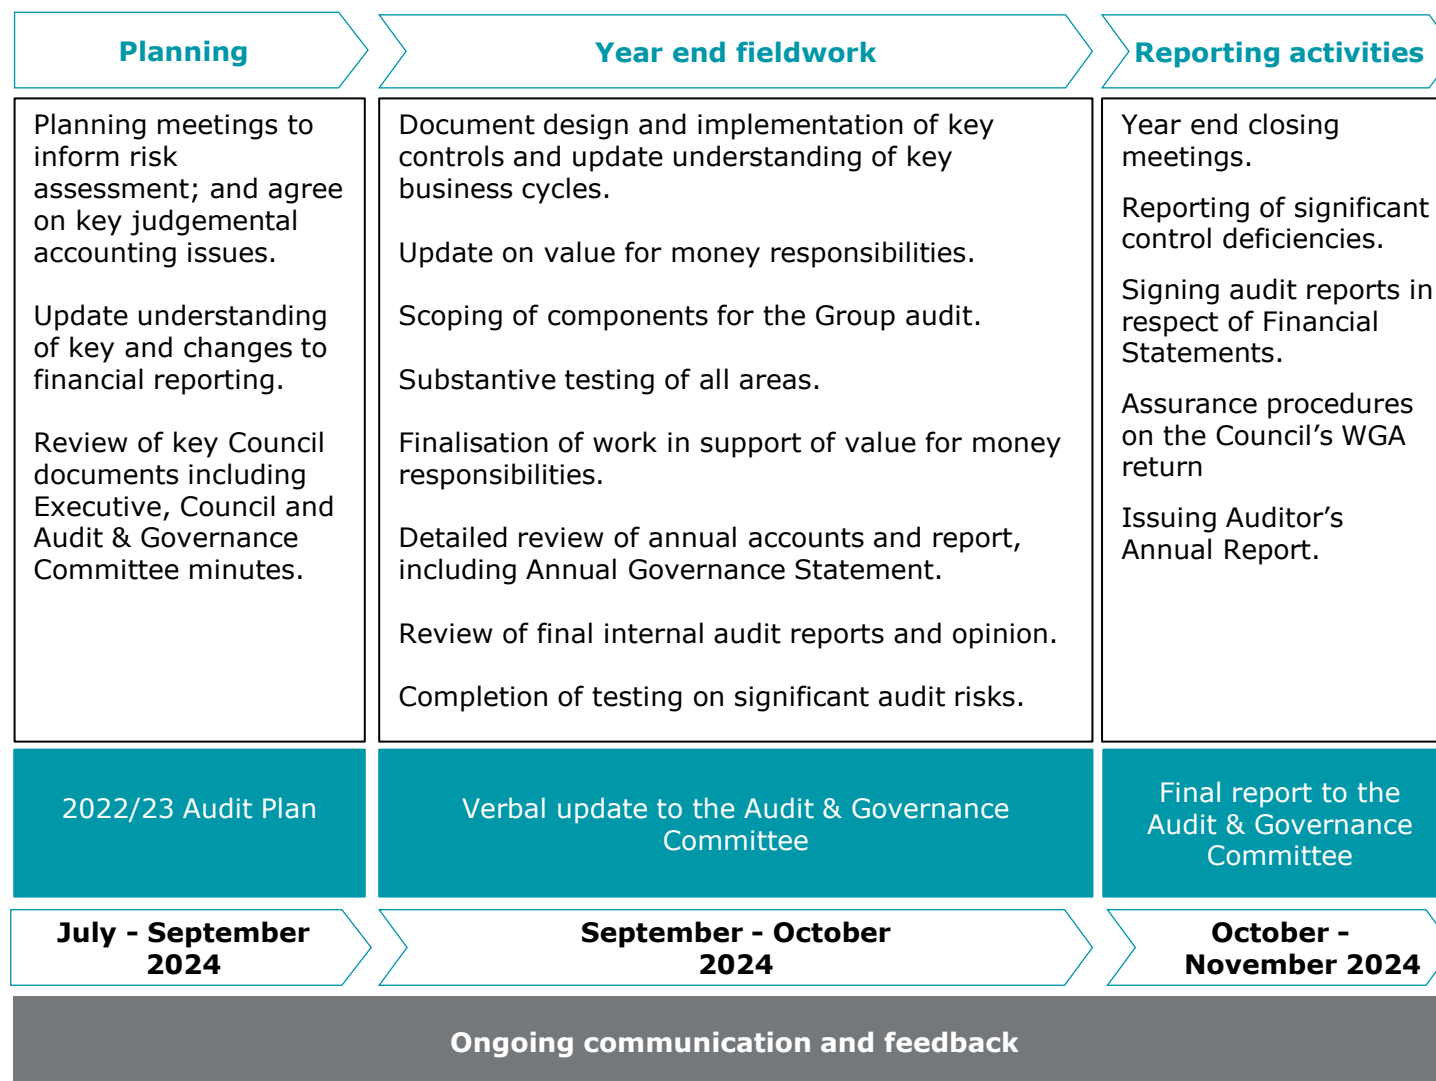

We recommend the Council complete the Code checklist during drafting of their financial statements.

We will perform an early review of the draft financial statements and will provide any insights to management on a timely basis.

Continuous communication and reporting

Planned timing of the audit

As the audit plan is executed throughout the year, the results will be analysed continuously, and conclusions (preliminary and otherwise) will be drawn. The following sets out the expected timing of our reporting to and communication with you.

Significant risks

Our risk assessment process

We consider a number of factors when deciding on the significant audit risks. These factors include:

- the significant risks and uncertainties previously reported in the Narrative Report and financial statements;
- the IAS 1 critical accounting estimates previously reported in the Narrative Report and financial statements;
- the disclosures made by the Audit & Governance Committee in their previous Audit & Governance Committee report;
- our assessment of materiality; and
- the changes that have occurred in the business and the environment it operates in since the last Narrative Report and financial statements.

Deloitte view

Management must carefully consider the principal risks, uncertainties and accounting estimates of the Council.

Page 12 to 15 summarises the significant risks that we will focus on during our audit.

Principal risk and uncertainties

- Resource management
- Information governance
- Ability to secure commercial opportunities
- Underachievement of savings
- Health & Safety

Changes in your business and environment

- Impacts of inflation
- Upcoming capital projects

IAS 1 Critical accounting estimates

- Future funding levels
- Property valuations
- Investment valuations
- Pension liabilities
- Provisions and contingencies

Significant risks (continued)

Risk 1 – Property Valuation

Risk identified

The Council held dwellings of £806.9m and other land and buildings of £50.8m at 31 March 2023 which are required to be recorded at current or fair value at the balance sheet date.

The fixed asset portfolio is divided into five key asset categories. The Council's practice is to obtain a specific valuation on one of the five asset categories on a cyclical basis. This approach leads to the full asset portfolio being evaluated within each five-year period. In addition to this specific exercise the Council also obtains advice as to whether there has been a material change in the period up to the balance sheet date based on indices. Any changes based on index factors are then applied to the total asset base.

The Council disposed of 52 acres of North Weald land for £88.2m in December 2023.

Key judgements include:

- Whether there has been a material change since the date of the last valuation.
- In the valuation of dwellings, defining appropriate beacon groups, such that the level of homogeneity of properties within each group is appropriate, and selecting appropriate comparators and, where relevant, making appropriate adjustments.
- The classification and disclosure at 31 March 2023 of non-current asset disposed post year-end.
- The fair value at 31 March 2023 of the non-current asset disposed post year-end.

Our response

Our work in this area will include the following:

- We will review the design and implementation of the key controls in place in relation to property valuations;
 - We will consider the work performed by the Council's valuer, including the adequacy of the scope of the work performed, their professional capabilities and the results of their work;
 - We will engage with our valuation specialists, Deloitte Real Assets Advisory, to review and challenge the appropriateness of the assumptions used in the valuation of the Council's property assets;
 - We will sample test key asset information used by the Council's valuers in performing their valuation, such as gross internal areas, back to supporting documentation;
 - We will review assets not subject to valuation in 2022/23 to confirm that the remaining asset base is not materially misstated;
 - We will review the presentation of revaluation movements, and the disclosures included in the Statement of Accounts.
 - We will review classification and disclosure of non-current assets disposed post year-end.
 - We will consider the fair value of assets disposed post year-end and engage with our valuation specialists if required.
-

Significant risks (continued)

Risk 2 – Revenue expenditure incorrectly capitalised

Risk identified

It has been noted that as part of the Medium-Term Financial Strategy for 2022/23 to 2026/27, the Council had a substantial capital programme of £293m over the next five years.

The Council's capital expenditure outturn for 2022/23 was £27.8m.

Determining whether or not expenditure should be capitalised can involve judgement as to whether costs should be capitalised under International Financial Reporting Standards.

The Council has greater flexibility of the use of revenue resource compared to capital resource. There is also, therefore a potential incentive for officers to misclassify revenue expenditure as capital as will impact the surplus/deficit recorded by the Council at year end.

Our response

Our work in this area will include the following:

- We will test the design and implementation of controls around the capitalisation of costs.
 - We will select a sample of additions in the year to test whether they have been appropriately capitalised in accordance with the accounting requirements.
-

Significant risks (continued)

Risk 3 – Management override of controls

Risk identified

In accordance with ISA 240 (UK) management override is a significant risk. This risk area includes the potential for management to use their judgement to influence the financial statements as well as the potential to override the Authority's controls for specific transactions.

The key judgments in the financial statements are those which we have selected to be the significant audit risks; capitalisation of expenditure and valuation of the Authority's property assets. These are inherently the areas in which management has the potential to use their judgment to influence the financial statements.

Our response

In considering the risk of management override, we plan to perform the following audit procedures that directly address this risk:

Test the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the annual accounts. In designing and performing audit procedures for such tests, we plan to:

- Test the design and implementation of controls over journal entry processing;
- Make inquiries of individuals involved in the financial reporting process about inappropriate or unusual activity relating to the processing of journal entries and other adjustments;
- Select journal entries and other adjustments made at the end of a reporting period; and
- Consider the need to test journal entries and other adjustments throughout the period.

Review accounting estimates for biases and evaluate whether the circumstances producing the bias, if any, represent a risk of material misstatement due to fraud. In performing this review, we plan to:

- Evaluate whether the judgments and decisions made by officers in making the accounting estimates included in the annual accounts, even if they are individually reasonable, indicate a possible bias on the part of the entity's management that may represent a risk of material misstatement due to fraud. If so, we will re-evaluate the accounting estimates taken as a whole; and
- Perform a retrospective review of management judgements and assumptions related to significant accounting estimates reflected in the annual accounts of the prior year.

For significant transactions that are outside the normal course of business for the entity, or that otherwise appear to be unusual given our understanding of the entity and its environment and other information obtained during the audit, we shall evaluate whether the business rationale (or the lack thereof) of the transactions suggests that they may have been entered into to engage in fraudulent financial reporting or to conceal misappropriation of assets.

Other areas of audit focus

Pension Liability

Risk identified and key judgements

The Council's pension fund deficit / gain is a material estimated balance and the Code requires that this liability / asset be disclosed on the Council's Balance Sheet. Per the draft financial statements at 31 March 2023, the Asset totalled £25.9m (Liability 2021/22: £44.1m). As a result of this being an estimated balance there is a risk that inappropriate inputs and assumptions are used, which could result in the pension liability valuation being materially misstated.

We have thus identified this as an other area of audit focus to report to the Audit & Governance Committee as a key area of management judgement.

Local Government Pension Scheme

The Council participates in the Local Government Pension Scheme (LGPS), administered by Essex County Council. For LGPS, it is possible to identify Epping Forest District Council portion of the assets and liabilities, and the Local Authority Accounting Code of Practice requires full disclosure of the Council's share of the LGPS within its financial statements. There are a large number of judgments inherent in the calculation of the scheme liability, including future inflation rates and appropriate discount rates. Small movements in these rates can have a material impact. Additionally, there are judgements implicit in allocating Epping Forest District Council's share of the assets of the scheme.

Deloitte response and challenge

We will carry out a separate, detailed risk assessment of each of the individual components of the calculation (for example market assumptions, membership data provided by the Council) using a developed methodology which takes into account factors such as an assessment of the actuary carried out centrally by our actuarial experts and whether there have been any significant changes expected in the membership. We scope our work, including the nature and extent of our actuarial specialists involvement, in a way which responds to this detailed risk assessment. In relation to pension assets, we will seek to obtain assurance from the auditor of the pension fund over the controls for providing accurate membership data to the actuary.

We will review the disclosure based on the IAS 19 report issued to the Council's by the actuary and we will assess the competence and objectivity of the work of the actuary.

We will review and challenge the assumptions made by Barnett Waddingham, including benchmarking.

We will assess the reasonableness of the Council's share of the total assets of the scheme with the Pension Fund financial statements

Value for Money

Areas of focus

We are required to consider the Council's arrangements for securing economy, efficiency and effectiveness in the use of resources. Under the revised requirements of the Code of Audit Practice 2020 and related Auditor Guidance Note 03, we are required to:

- Perform work to understand the Council's arrangements to secure economy, efficiency and effectiveness in the use of resources against each of the three reporting criteria:
 - **Financial sustainability:** How the body plans and manages its resources to ensure it can continue to deliver its services.
 - **Governance:** How the body ensures that it makes informed decisions and properly manages its risks.
 - **Improving economy, efficiency and effectiveness:** How the body uses information about its costs and performance to improve the way it manages and delivers its services.
- Undertake a risk assessment to identify whether there are any risks of significant weaknesses in arrangements;
- If any risks of significant weaknesses are identified, perform procedures to determine whether there is in fact a significant weakness in arrangements, and if so to make recommendations for improvement;
- Issue a narrative commentary in the Auditor's Annual Report, setting out the work undertaken in respect of the reporting criteria and our findings, including any explanation needed in respect of judgements or local context for findings. If significant weaknesses are identified, the weaknesses and recommendations will be included in the reporting, together with follow up of previous recommendations and whether they have been implemented. Where relevant, we may include reporting on any other matters arising we consider relevant to VfM arrangements, which might include emerging risks or issues.
- Where significant weaknesses are identified, report this by exception within our financial statement audit opinion.

AGN03 requires auditors to set out the results of their risk assessment as part of the audit planning report. Our work is currently in progress and discussion has been held with officers around the VfM reporting requirements. We will report to a later Audit & Governance Committee on any matters arising from this work. Specific areas that we expect to focus on in understanding the Authority's arrangements include: Financial sustainability and Governance.

Audit quality

Our commitment to audit quality

Our objective is to deliver a distinctive, quality audit to you. Every member of the engagement team will contribute, to achieve the highest standard of professional excellence.

In particular, for your audit, we consider that the following steps will contribute to the overall quality:

- We will apply professional scepticism on the valuation of land and building and other significant judgements
- We will obtain a deep understanding of your business, its environment and of your processes such as Revenue, Fixed Assets, Financial Reporting enabling us to develop a risk-focused approach tailored to the Authority.
- Our engagement team is selected to ensure that we have the right subject matter expertise and industry knowledge. We will involve IT specialists and also Deloitte Real Estate to support the audit team in our work on valuation and pensions specialists in our work on the pension fund liability.
- In order to deliver a quality audit to you, each member of the core audit team has received tailored learning to develop their expertise in audit skills.

Engagement Quality Control Review

We have developed a tailored Engagement Quality Control approach. Our dedicated Professional Standards Review (PSR) function will provide a 'hot' review before any audit or other opinion is signed. PSR is operationally independent of the audit team, and supports our high standards of professional scepticism and audit quality by providing a rigorous independent challenge.

Purpose of our report and responsibility statement

Our report is designed to help you meet your governance duties

What we report

Our respective responsibilities are set out in "PSAA Statement of responsibilities of auditors and audited bodies: Principal Local Authorities and Police Bodies." The responsibilities of auditors are derived from statute, principally the Local Audit and Accountability Act 2014 and from the NAO Code of Audit Practice. The responsibilities of audited bodies are derived principally the Local Audit and Accountability Act 2014 and from the Accounts and Audit Regulations 2015.

Our report is designed to communicate our preliminary audit plan and to take the opportunity to ask you questions at the planning stage of our audit. Our report includes our preliminary audit plan, including key audit judgements and the planned scope.

Use of this report

This report has been prepared for the Audit & Governance Committee, as a body, and we therefore accept responsibility to you alone for its contents. We accept no duty, responsibility or liability to any other parties, since this report has not been prepared, and is not intended, for any other purpose. Except where required by law or regulation, it should not be made available to any other parties without our prior written consent.

What we don't report

As you will be aware, our audit is not designed to identify all matters that may be relevant to the Council.

Also, there will be further information you need to discharge your governance responsibilities, such as matters reported on by management or by other specialist advisers.

Finally, the views on internal controls and business risk assessment in our final report should not be taken as comprehensive or as an opinion on effectiveness since they will be based solely on the audit procedures performed in the audit of the financial statements and the other procedures performed in fulfilling our audit plan.

Other relevant communications

We will update you if there are any significant changes to the audit plan.

In the prior year, we communicated audit findings and control recommendations to management, and these will be followed up as part of our audit visits to assess how these have been addressed in the current year.

Deloitte LLP

Birmingham | 10 September 2024

Appendices

Appendix 1: Fraud responsibilities and representations

Responsibilities explained

Your Responsibilities:

The primary responsibility for the prevention and detection of fraud rests with management and those charged with governance, including establishing and maintaining internal controls over the reliability of financial reporting, effectiveness and efficiency of operations and compliance with applicable laws and regulations.

Our Responsibilities:

- We are required to obtain representations from your management regarding internal controls, assessment of risk and any known or suspected fraud or misstatement.
- As auditors, we obtain reasonable, but not absolute, assurance that the financial statements as a whole are free from material misstatement, whether caused by fraud or error.
- As set out in the significant risks section of this document, we have identified the risk of fraud in capital expenditure and management override of controls as key audit risks for the Council.

Fraud Characteristics:

- Misstatements in the financial statements can arise from either fraud or error. The distinguishing factor between fraud and error is whether the underlying action that results in the misstatement of the financial statements is intentional or unintentional.
- Two types of intentional misstatements are relevant to us as auditors – misstatements resulting from fraudulent financial reporting and misstatements resulting from misappropriation of assets.

We will request the following to be stated in the representation letter signed on behalf of the Council:

- We acknowledge our responsibilities for the design, implementation and maintenance of internal control to prevent and detect fraud and error.
- We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
- We are not aware of any fraud or suspected fraud / We have disclosed to you all information in relation to fraud or suspected fraud that we are aware of and that affects the entity or group and involves:
 - (i) management;
 - (ii) employees who have significant roles in internal control; or
 - (iii) others where the fraud could have a material effect on the financial statements.
- We have disclosed to you all information in relation to allegations of fraud, or suspected fraud, affecting the entity's financial statements communicated by employees, former employees, analysts, regulators or others.

Appendix 1: Fraud responsibilities and representations (continued)

Inquiries

We will make the following inquiries regarding fraud:

Management and other personnel:

- Management's assessment of the risk that the financial statements may be materially misstated due to fraud, including the nature, extent and frequency of such assessments.
- Management's process for identifying and responding to the risks of fraud in the entity.
- Management's communication, if any, to those charged with governance regarding its processes for identifying and responding to the risks of fraud in the entity.
- Management's communication, if any, to employees regarding its views on business practices and ethical behaviour.
- Whether management has knowledge of any actual, suspected or alleged fraud affecting the entity.
- We plan to involve management from outside the finance function in our inquiries.

Internal audit

- Whether internal audit has knowledge of any actual, suspected or alleged fraud affecting the entity, and to obtain its views about the risks of fraud.

Those charged with governance

- How those charged with governance exercise oversight of management's processes for identifying and responding to the risks of fraud in the entity and the internal control that management has established to mitigate these risks.
- Whether those charged with governance have knowledge of any actual, suspected or alleged fraud affecting the entity.
- The views of those charged with governance on the most significant fraud risk factors affecting the entity.

Appendix 2: Independence and fees

As part of our obligations under International Standards on Auditing (UK), we are required to report to you on the matters listed below:

Independence confirmation	We confirm the audit engagement team, and others in the firm as appropriate, Deloitte LLP and, where applicable, all Deloitte network firms are independent of the Council and will reconfirm our independence and objectivity to the Audit & Governance Committee for the year ended 31 March 2023 in our final report to the Audit & Governance Committee.
Fees	There are no non-audit fees for 2022/23 outside of those noted in the table on the following page.
Non-audit services	We continue to review our independence and ensure that appropriate safeguards are in place including, but not limited to, the rotation of senior partners and professional staff and the involvement of additional partners and professional staff to carry out reviews of the work performed and to otherwise advise as necessary.
Relationships	We have no other relationships with the Council, its directors, senior managers and affiliates, and have not supplied any services to other known connected parties.

Appendix 2: Independence and fees (continued)

The professional fees expected to be charged by Deloitte in the period from 1 April 2022 to 31 March 2023 are as follows:

	2022-23 £	2021-22 £	2020-21 £
Financial statement audit [1]	49,797	49,797	49,797
Additional fees – previously proposed [2]	57,500	57,500	57,500
Additional fees following completion [3]	TBC	TBC	43,463
Total audit fees	TBC	TBC	150,760

[1] The fee reflected here is the scale fee.

[2] Additional fees proposed (letter dated 30 July 2021) to reflect increased costs for the Authority's audit, change in scope for Value for Money and transition to consolidated accounts. The majority of these are expected to be recurring in 22/23.

[3] For 2021/22, additional input will be confirmed following completion of the audit and we will subsequently provide an estimate of additional fees for the 2022/23 audit. For 2020/21, additional fees of £100,963 were approved by PSAA includes previously proposed fees per [2].

In line with recent PSAA correspondence that scale fees should be negotiated by individual s151 officers based on the individual circumstances of each body.

All additional fees are subject to agreement with PSAA.

Our approach to quality

FRC 2023/24 Audit Quality Inspection and Supervision report

Audit quality shapes our vision of the business we want to be, driving our priorities and defining our successes.

In July 2024, the Financial Reporting Council ("FRC") issued individual reports on each of the six largest firms, including Deloitte on Audit Quality Inspection and Supervision, providing a summary of the findings of its Audit Quality Review ("AQR") team for the 2023/24 cycle of reviews. We value the observations raised by both the FRC Supervision teams and the ICAEW Quality Assurance Department ("QAD"), both in identifying areas for improvement and also the ongoing focus on sharing good practice to drive further and continuous improvement.

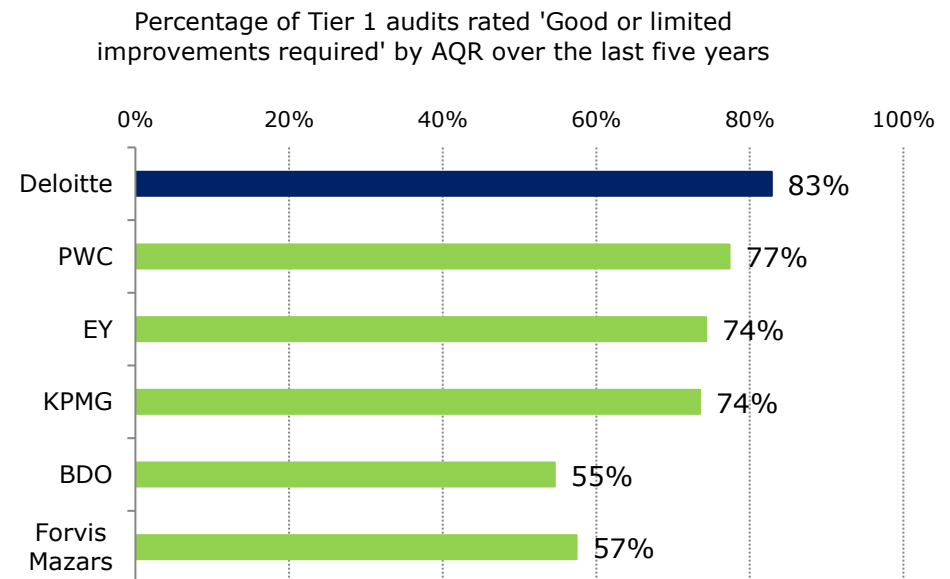

We are proud that the results of our FRC inspections show that 94% (2022/23: 82%) of our public interest audits were rated as 'good' or 'limited improvements' and that 100% (2023: 100%) of our audits reviewed by the ICAEW's QAD were assessed as good or generally acceptable.

These sets of results reflect the continuous investment we are making and our commitment to acting in the public interest to deliver confidence and trust in business through our high-quality audits. We recognise we still have more we want to do to ensure that we consistently meet the high standards we expect of ourselves. We take inspection, system of quality management ("SoQM") and supervision focus areas seriously and place a significant level of resource and effort into understanding how we continually improve going forward.

We are pleased to see the positive impact of actions taken over the last 12 months to address findings raised by the FRC. We have a reduction in the number of key findings and none of the AQR findings from the 22/23 inspection cycle have recurred as key findings in this year's cycle.

We welcome the breadth and depth of good practice points raised by the FRC and ICAEW, particularly in respect of effective group oversight, contract accounting and the challenge of management, where we have continued to take action to support the high-quality execution of audit work.

All the AQR public reports are available on the [FRC's website](#).

Our approach to quality

FRC 2023/24 Audit Quality Inspection and Supervision report - overall comments

The boxes below detail the FRC's overall comments and Deloitte responses as published in the overview page of the 23/24 public report.

The AQR's 2023/24 Audit Quality Inspection and Supervision Report on Deloitte LLP:

"Deloitte has continued to respond positively to and has made good progress on actions to address our previous findings. This has resulted in improvements which are reflected across the audit inspections."

"The percentage of audits inspected by the FRC requiring no more than limited improvements was 94%, which shows a continued improvement on the prior year. The equivalent results for FTSE 350 audits inspected was 100%. One of the audits we inspected was found to require significant improvements. The findings that contributed most to this year's inspection results related to the audit of impairment assessments. We have previously identified key findings and examples of good practice in this audit area. The firm should review the effectiveness of its actions to ensure greater consistency.

The overall results profile for inspections by the ICAEW was 100% classified as good or generally acceptable. The firm's internal quality monitoring results show a year-on-year improvement."

Deloitte response to Audit Quality Inspection key findings

"We are pleased to see the positive impact of actions taken over the last 12 months to address findings raised by the FRC. We have a reduction in the number of key findings and none of the AQR findings from the 22/23 inspection cycle have recurred as key findings in this year's cycle."

The following page sets out our response to key findings in relation to the 23/24 cycle.

Review of the firm's system of quality management (SoQM):

"Deloitte has implemented ISQM (UK) 1, including monitoring and remediation processes, and completed its first annual evaluation of its SoQM. Deloitte has invested considerable effort into implementing its new system. The firm has already begun the iterative process of improving and refining it, including in response to our feedback. The firm needs to strengthen aspects of its SoQM, including certain elements of monitoring processes, and enhance its evidencing of its SoQM, especially its monitoring and annual evaluation processes."

Deloitte response to review of SoQM

"Audit quality is always front and centre and we believe that an effective SoQM is crucial for its delivery. ISQM (UK) 1 implementation facilitated a critical assessment and enhancement of our existing SoQM. On 31 May 2023, we were pleased to be able to issue our first conclusion on the effectiveness of our SoQM, being satisfied that our SoQM provides the firm with reasonable assurance that the objectives of ISQM (UK) 1 are being achieved. We have valued the independent review performed by the FRC, and the further objective insights this has brought. We have already taken action to address the matters raised by the FRC, improving the evidencing of the rigour of our responses in areas of judgement and working to standardise the capture of risks and responses. The environment in which we operate continues to evolve, and we remain focussed on identifying and investing in the changes required to keep our SQM effective."
