SITE ADDRESS:

Barn at Hoggs Farm, Carters Green, Matching

DESCRIPTION OF PROPOSAL:

Change of use from barn to bungalow.

REFUSED:

1. The site is within the Metropolitan Green Belt. The proposal represents inappropriate development and is therefore at odds with Government advice and Policies C2 and RE2 of the adopted replacement structure plan and policies GB2 and GB8 of the adopted Local Plan. Since the Local Authority is not convinced that the buildings are not suitable for any alternative more appropriate use or that it is so desirable that they be brought back into beneficial use that residential should be considered.
2. The proposed development results in the further subdivision of the curtilage of the listed building known as Hoggs Farm leaving insufficient curtilage for the scale and historic nature of the dwelling. This is harmful to the setting of the Listed Building contrary to policy HC12 and HC13 of the adopted Local Plan.
3. The works proposed to the curtilage buildings are considered harmful to their character and integrity contrary to policy HC13 and HC10 of the adopted Local Plan.

4. The proposal would lead to a form of unsustainable development since the provision of a new dwelling in this rural location without access to community facilities and sustainable means of transport would be contrary to policies CS4 and H2 of the adopted Replacement Structure Plan.
