TERMS OF REFERENCE - STANDING PANEL

the reuse of redundant and other buildings in the Metropolitan Green Belt; in particular, are further restrictions necessary (changes in policy required) to ensu that such developments are truly sustainable. 3. To consider the processes by which the existing Local Plan is being amended to seek to keep it up to date, in particular whether the resources required are being provided, and whether alternatives are realistic. To similarly consider the arrangements by which the new Local Development Scheme is being brought in operation. In particular, to consider how new requirements for community consultation and strategic environmental assessment work in practice. 4. To consider matters which arise through the process that the Government is driv to bring in an East Of England Plan; these may range from arrangements concerning the Examination in Public, how to respond to the initiatives or views of those who support or oppose us, and how we may support or oppose the views taken by others. In particular, this is to allow the Portfolio Holder for Planning an Economic Development to remain tuned in to local views, and supersedes previous advisory group arrangements. Work Programme 2005/6 Priority Report	Title:						
Terms of Reference: 1. To keep under review the activity and decisions of the West Essex Joint Waste Committee with respect to: (a) the procurement of the integrated waste collection and disposal contract the West Essex area (Epping Forest, Braintree, Harlow, Brentwood & Uttlesford); (b) following procurement the monitoring of contract performance; and (c) the annual review of the Joint Waste Committee business plan. 2. To consider what changes are practical and desirable to Council policies concern the reuse of redundant and other buildings in the Metropolitan Green Belt; in particular, are further restrictions necessary (changes in policy required) to ensu that such developments are truly sustainable. 3. To consider the processes by which the existing Local Plan is being amended to seek to keep it up to date, in particular whether the resources required are being provided, and whether alternatives are realistic. To similarly consider the arrangements by which the new Local Development Scheme is being brought in operation.
