CONDITIONS

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 No development shall have taken place until details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority in writing prior to the commencement of the development. The development shall be implemented in accordance with such approved details.
- 3 Prior to first occupation of the development hereby approved, the proposed window opening(s) in the side elevations shall be entirely fitted with obscured glass and have fixed frames to a height of 1.7 metres above the floor of the room in which the window is installed and shall be permanently retained in that condition.
- 4 Notwithstanding the provisions of the Town and Country Planning General Permitted Development Order 1995 as amended (or any other order revoking, further amending or re-enacting that order) no extensions generally permitted by virtue of Schedule 2, Part 1, Classes A and B shall be undertaken without the prior written permission of the Local Planning Authority.
- 5 No development shall take place until details of levels have been submitted to and approved by the Local Planning Authority showing cross-sections and elevations of the levels of the site prior to development and the proposed levels of all ground floor slabs of buildings, roadways and accessways and landscaped areas. The development shall be carried out in accordance with those approved details.
- 6 No development shall take place until details of the proposed surface materials for the hardstanding to the front of the dwelling (as indicated on approved plan no. 10/054/03) have been submitted to and approved in writing by the Local Planning Authority. The agreed surfacing shall be made of porous materials and retained thereafter or provision shall be made and retained thereafter to direct run-off water from the hard surface to a permeable or porous area or surface within the curtilage

of the property. The agreed surface treatment shall be completed prior to the first occupation of the development or within 1 year of the substantial completion of the development hereby approved, whichever occurs first.

- 7 The development, including site clearance, must not commence until a tree protection plan, to include all the relevant details of tree protection has been submitted to the Local Planning Authority and approved in writing.

The statement must include a plan showing the area to be protected and fencing in accordance with the relevant British Standard (Trees in Relation to Construction-Recommendations; BS.5837:2005). It must also specify any other means needed to ensure that all of the trees to be retained will not be harmed during the development, including by damage to their root system, directly or indirectly.

The statement must explain how the protection will be implemented, including responsibility for site supervision, control and liaison with the LPA.

The trees must be protected in accordance with the agreed statement throughout the period of development, unless the Local Planning Authority has given its prior written consent to any variation.

- 8 The development, including site clearance, must not commence until a scheme of landscaping and a statement of the methods of its implementation have been submitted to the Local Planning Authority and approved in writing. The approved scheme shall be implemented within the first planting season following the completion of the development hereby approved.

The scheme must include details of the proposed planting including a plan, details of species, stock sizes and numbers/densities where appropriate, and include a timetable for its implementation. If any plant dies, becomes diseased or fails to thrive within a period of 5 years from the date of planting, or is removed, uprooted or destroyed, it must be replaced by another plant of the same kind and size and at the same place, unless the Local Planning Authority agrees to a variation beforehand, and in writing.

The statement must include details of all the means by which successful establishment of the scheme will be ensured, including preparation of the planting area, planting methods, watering, weeding, mulching, use of stakes and ties, plant protection and aftercare. It must also include details of the supervision of the planting and liaison with the Local Planning Authority.

The landscaping must be carried out in accordance with the agreed scheme and statement, unless the Local Planning Authority has given its prior written consent to any variation.

During their consideration of the application, Members found that while the proposal was generally acceptable, the matter of refuse storage had not been dealt with. However, Members agreed that matter could be resolved by way of an appropriate condition on the grant of planning permission.

CONDITIONS

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 No development shall have taken place until details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority in writing prior to the commencement of the development. The development shall be implemented in accordance with such approved details.
- 3 Prior to the commencement of development, details of the proposed means of access for people with disabilities, the car parking layout, provision for cycle parking and storage of refuse shall be submitted to and approved in writing by the local planning authority. The development shall be carried out in accordance with approved details prior to first occupation of the vehicles of residents, visitors and employees.
- 4 Prior to the commencement of development, a full noise survey shall be carried out to establish which noise category the proposed flats fall into. A scheme for protecting the dwellings from noise shall be submitted to and agreed in writing by the local planning authority for any dwelling that falls into NEC B and C (as detailed in PPG 24), or bedrooms likely to be exposed to noise levels that do not meet the reasonable resting/sleeping conditions specified in British Standard BS8233: 1999 - Sound insulation and noise reduction for buildings - code of practice. The approved works shall be implemented before occupation of the building.
- 5 No development shall take place until appropriate arrangements to preclude the future residents from applying for a parking permit in the Clifton Road Residents Parking Zone have been secured.

- 6 No development shall take place until details of the means of storing domestic refuse have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

DESCRIPTION OF PROPOSAL:	Demolition of existing public house and construction of a fourteen unit residential development.

Based on advice given by an officer of the Highway Authority present at the meeting, Members found there was no in principle objection to an alternative access to the site from Hainault Road on grounds of highway safety or impact on traffic flow. Having regard to the concerns of residents, Members were not satisfied that the case for an access off Linkside in preference to one off Hainault Road had been made. Members were aware of the narrow width of the carriageway on Linkside and took the view that the vehicular access point proposed would cause activity that would be harmful to residents' amenities which would not be likely to arise if the vehicular access were off Hainault Road. Concern was also raised about potential difficulties servicing the development off Linkside and consequences the proposed vehicular access could have for the movement of service vehicles using Linkside and their impact on residents' amenities.

Members were also concerned the amount of private amenity space would not be adequate for future residents and took that to be an overdevelopment of the site. Furthermore, Members took the view that the provision of a refuse store/collection point on Linkside would be harmful to the amenities of local residents.

REASON FOR REFUSAL

- 1 By reason of siting the vehicular access to the site off Linkside, the proposed development would cause avoidable harm to the amenities of the occupants of dwellings on Linkside together with avoidable difficulty in servicing the development and movement of service vehicles using Linkside, contrary to policy DBE2 of the Local Plan and Alterations.
- 2 By reason of siting the refuse collection point for the proposed flats adjacent to Linkside, the proposed development would introduce a concentrated source of unpleasant odours in close proximity to adjacent houses that would cause avoidable harm to the amenities of the occupants of those dwellings in Linkside, contrary to policy DBE2 of the Local Plan and Alterations.

- 3 By reason of its small size and poor degree of privacy, the amount and form of private amenity space proposed for the development is inadequate, contrary to policy DBE8 of the Local Plan and Alterations. Such lack of adequate on-site amenity space provision is indicative of the proposal amounting to an overdevelopment of the site, contrary to policy CP7 of the Local Plan and Alterations

APPLICATION No:	EPF/2614/10
SITE ADDRESS:	Marchings Farm Gravel Lane Chigwell Essex IG7 6DQ
PARISH:	Chigwell
WARD:	Chigwell Village Lambourne
DESCRIPTION OF PROPOSAL:	Demolition of the existing house and associated buildings and the erection of a new house with associated garage. (Revised application)
DECISION:	Refused Permission

http://planpub.eppingforestdc.gov.uk/AniteIM.websearch/ExternalEntryPoint.aspx?SEARCH_TYPE=1&DOC_CLASS_CODE=PL&FOLDER1_REF=523943

REASON FOR REFUSAL

- 1 The proposed replacement house is materially greater in volume than that which it would replace and due to its size and scale it would have a greater impact on the openness of the Green Belt than the existing house. The proposed house is therefore inappropriate development which by definition is harmful to the Green Belt. Moreover, by reason of its size, siting and design, it would appear conspicuous in the Green Belt to the detriment of its rural character and visual amenities as well as its openness. No very special circumstances sufficient to outweigh the harm that would be caused by the development have been demonstrated by the applicant. Accordingly, the proposed house is contrary to policies GB2A, GB7A and GB15A of the Epping Forest District Local Plan and Alterations.
- 2 The proposed replacement dwelling, due to its grandiose neo Georgian/classical design is not a traditional building form found within the local rural landscape. Along with its excessive size, scale and bulk, the new dwelling would be visually intrusive, overbearing and it would not reflect the wider landscape setting of the site and would be harmful to the character of the surrounding area contrary to policies CP3, LL2, DBE1, DBE2 and DBE4 of the Adopted Local Plan and Alterations.
- 3 The design of the proposed dwelling being of a neo Georgian/classical design along with its excessive size, scale and bulk would appear unduly prominent in relation to the Marchings, a neighbouring listed building, to the detriment of its setting, contrary to policy HC12 of the Adopted Local Plan and Alterations.
