9. No unbound material shall be used in the surface treatment of the vehicular access within 6 metres of the highway boundary.
10. No development shall take place until a Phase 1 Land Contamination investigation has been carried out. A protocol for the investigation shall be submitted to and approved in writing by the Local Planning Authority before commencement of the Phase 1 investigation. The completed Phase 1 report shall be submitted to and approved by the Local Planning Authority prior to the commencement of any necessary Phase 2 investigation. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the Phase 2 site investigation condition that follows]
11. Should the Phase 1 Land Contamination preliminary risk assessment carried out under the above condition identify the presence of potentially unacceptable risks, no development shall take place until a Phase 2 site investigation has been carried out. A protocol for the investigation shall be submitted to and approved by the Local Planning Authority before commencement of the Phase 2 investigation. The completed Phase 2 investigation report, together with any necessary outline remediation options, shall be submitted to and approved by the Local Planning Authority prior to any redevelopment or remediation works being carried out. The

report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.

[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the remediation scheme condition that follows]

12. Should Land Contamination Remediation Works be identified as necessary under the above condition, no development shall take place until a detailed remediation scheme to bring the site to a condition suitable for the intended use has been submitted to and approved by the Local Planning Authority. The development shall be carried out in accordance with the approved remediation scheme unless otherwise agreed in writing by the Local Planning Authority. The remediation scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures and any necessary long term maintenance and monitoring programme. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 or any subsequent version, in relation to the intended use of the land after remediation.

[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the verification report condition that follows]

13. Following completion of measures identified in the approved remediation scheme and prior to the first use or occupation of the development, a verification report (referred to in PPS23 as a Validation Report) that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval. The approved monitoring and maintenance programme shall be implemented.

14. In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the approved Phase 2 report, it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken in accordance with a methodology previously approved by the Local Planning Authority. Following completion of measures identified in the approved remediation scheme, a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with the immediately above condition.

15. Prior to commencement of development, the buildings shown to be demolished on plan 946/1 shall be demolished and all materials removed from the site.

Members agreed to grant consent subject to a condition further clarifying the days on which the events can take place and subject to details of waste management at the site to prevent harm to visual amenity and to aircraft safety on the airfield, from litter. It was left to the officer to consider the final method of achieving this.

Subsequent to the Committee, but prior to the production of the decision notice, a waste management strategy document was submitted and agreed with officers and the condition applied therefore refers to this document.

CONDITIONS

1. This permission shall endure for a temporary period from 6th May 2011 to the 16th October 2011 and for Friday, Saturday and Sunday evenings only between 6pm and midnight.
2. The proposed inflatable screen shall be fully deflated after each screening.
3. Visitor vehicular exit from the site shall be restricted to that in close proximity to the Golf Club (Gate E) in Rayleigh Lane as indicated on the application drawing OS sitemap only with no other exit being used by visitors at any time whatsoever.
4. The use hereby permitted shall be restricted to permit a single showing per evening only.
5. No loud speaker equipment shall be used onsite at any time for entertainment or cinematic purposes. Any such equipment shall be used for Emergency Public Announcements only.

6. Directional lighting only shall be used onsite for the illumination of public areas only and this shall be switched off after the exit of the last visitor.
7. There shall be no external storage on the site in connection with this use unless otherwise agreed in writing by the Local Planning Authority.
8. All litter generated by the use hereby approved shall be managed and removed in accordance with the submitted waste management strategy document received by email on 28/04/11, unless otherwise agreed in writing by the Local Planning Authority.

The officer explained that additional supporting information had been received at a late stage and copied to members. Members deferred the application to the next meeting of Plans Sub Committee East to enable officers to consider and report on the additional information, and to consider whether there is a need for a financial contribution under section 106 towards provision of community facilities elsewhere if permission were to be granted.
