

“(1) That the Council notes:

(a) its public toilet provision currently consists of four Universal Superloos (USL) and one Automatic Public Convenience (APC) located in Buckhurst Hill, Epping, Loughton, Debden and Waltham Abbey;

(b) the rest of the District has no Council provision;

(c) Community Toilet Schemes (which involve some local businesses volunteering to provide public access to their toilet facilities in return for modest payments from the local council) work successfully and cost-effectively in other local authorities; and

(2) That the Council therefore resolves:

To investigate the provision of a Community Toilet Scheme across the Epping Forest District to enable better provision of toilet facilities for residents and visitors.”

Mover: Councillor Janet Whitehouse

Seconder: Councillor Jon Whitehouse
