**CONDITIONS**

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 No construction works above ground level shall have taken place until documentary and photographic details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority, in writing, prior to the commencement of the development. The development shall be implemented in accordance with such approved details.
- 3 The development hereby permitted will be completed strictly in accordance with the approved drawings nos: 2898.03 rev.1; 2898.10 rev. D; 2898.11 rev. D; 2898.12 rev.A; 2898.06 rev. i
- 4 The development shall proceed in accordance with the Construction Method Statement received 17/2/2012, unless otherwise agreed in writing by the Local Planning Authority.
- 5 No development shall take place, including site clearance or other preparatory work, until full details of both hard and soft landscape works (including tree planting) and implementation programme (linked to the development schedule) have been submitted to and approved in writing by the Local Planning Authority. These works shall be carried out as approved. The hard landscaping details shall include, as appropriate, and in addition to details of existing features to be retained: proposed finished levels or contours; means of enclosure; car parking layouts; other minor artefacts and structures, including signs and lighting and functional services above and below ground. The details of soft landscape works shall include plans for planting or establishment by any means and full written specifications and schedules of plants, including species, plant sizes and proposed numbers /densities where appropriate. If within a period of five years from the date of the planting or establishment of any tree, or shrub or plant, that tree, shrub, or plant or any replacement is removed, uprooted or destroyed or dies or becomes seriously

damaged or defective another tree or shrub, or plant of the same species and size as that originally planted shall be planted at the same place, unless the Local Planning Authority gives its written consent to any variation.

- 6 No development shall take place until a Phase 1 Land Contamination investigation has been carried out. A protocol for the investigation shall be submitted to and approved in writing by the Local Planning Authority before commencement of the Phase 1 investigation. The completed Phase 1 report shall be submitted to and approved by the Local Planning Authority prior to the commencement of any necessary Phase 2 investigation. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the Phase 2 site investigation condition that follows]
- 7 Should the Phase 1 Land Contamination preliminary risk assessment carried out under the above condition identify the presence of potentially unacceptable risks, no development shall take place until a Phase 2 site investigation has been carried out. A protocol for the investigation shall be submitted to and approved by the Local Planning Authority before commencement of the Phase 2 investigation. The completed Phase 2 investigation report, together with any necessary outline remediation options, shall be submitted to and approved by the Local Planning Authority prior to any redevelopment or remediation works being carried out. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the remediation scheme condition that follows]
- 8 Should Land Contamination Remediation Works be identified as necessary under the above condition, no development shall take place until a detailed remediation scheme to bring the site to a condition suitable for the intended use has been submitted to and approved by the Local Planning Authority. The development shall be carried out in accordance with the approved remediation scheme unless otherwise agreed in writing by the Local Planning Authority. The remediation scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures and any necessary long term maintenance and monitoring programme. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 or any subsequent version, in relation to the intended use of the land after remediation.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the verification report condition that follows]

- 9 Following completion of measures identified in the approved remediation scheme and prior to the first use or occupation of the development, a verification report (referred to in PPS23 as a Validation Report) that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval. The approved monitoring and maintenance programme shall be implemented.
- 10 In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the approved Phase 2 report, it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken in accordance with a methodology previously approved by the Local Planning Authority. Following completion of measures identified in the approved remediation scheme, a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with the immediately above condition.
- 11 A flood risk assessment and management and maintenance plan shall be submitted to and approved by the Local Planning Authority prior to commencement of development. The assessment shall include calculations of increased run-off and associated volume of storm detention using WinDes or other similar best practice tools. The approved measures shall be carried out prior to the substantial completion of the development and shall be adequately maintained in accordance with the management and maintenance plan.
- 12 Prior to the commencement of the development hereby approved, details of the proposed method for the drainage of surface water within the site shall be submitted to the local planning authority for approval in writing. The drainage system shall be implemented in accordance with the agreed detail, prior to the first occupation of the development.
- 13 Prior to the commencement of the development hereby approved, details of the proposed method for the disposal of foul sewerage from the site shall be submitted to the local planning authority for approval in writing. The system shall be installed in accordance with the agreed detail, prior to the first occupation of the development.
- 14 Details of the proposed surface materials for the access road shall be submitted to the local authority for approval in writing. The access road shall be provided in accordance with the agreed detail and as shown on approved plan no. 2898.06 rev.i, prior to the first occupation of the development.
- 15 Prior to the first occupation of the dwellings hereby approved, the parking spaces shown on approved plan 2898.06 rev.i shall be provided.
- 16 No unbound materials shall be used in the construction of the access road within 6 metres of its junction with Millfield.
- 17 Prior to the first occupation of the development hereby approved, a binstore, details of which are to be approved in writing by the local authority, shall be provided in the location shown on drawing number 2898.06 rev i.

- 18 Notwithstanding the provisions of the Town and Country Planning General Permitted Development Order 1995 as amended (or any other order revoking, further amending or re-enacting that order) no development generally permitted by virtue of Schedule 2, Part 1, Classes A, B and E shall be undertaken without the prior written permission of the Local Planning Authority.
- 19 Prior to first occupation of the development hereby approved, the proposed window opening(s) at first floor level in the flank elevation(s) of the dwellings at plots 2 and 3 shall be entirely fitted with obscured glass and have fixed frames to a height of 1.7 metres above the floor of the room in which the window is installed and shall be permanently retained in that condition.
- 20 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.
