Dear Sir or Madam,

As a resident of Trampston Road I feel as do my family that we must oppose the extra opening hours the L.S.C.A. are hoping to extend.

We feel the C.A. is open quite long enough, at weekends the noise can be very bad from Private Parties, as example last summer at times we could hardly hear our television the playing field is left in a mess, just during my daughter as I cleaned the sewage of broken bottles and glasses and had a small child go down there early

I dread to think what might have happened. It was during we went down local with our dog.

It is also a question of noise when it closes after a private party not all I may add it can be bad with shouting and also my neigbors caught one young man urinating in her garden and I feel the noise be wrong. I hope the guide you a few examples of why we oppose the license

Please excuse invitation I have just returned from hospital after two weeks and I don't even seem to be able to write as well

Yours sincerely,  
Mr. Fred H. Strange and family
