| K A Miller                      | Each respondent should be told that they will receive a response from EFDC. Will my comments be read by the responsible person they are intended for? How will you convince me my time and effort has been well spent and will be considered as seriously as I have intended?   |
| Mrs K G Freeman                 | EFDC Planning Dept should make it very clear in writing well before exactly what has been planned for the AGRICULTURAL (working) crop growing green field/ belt area in North Weald Bassett known as areas NWB A and NWB B so as residents can give their clear say well before anything is built/done/agreed with the builders etc!!!! clearly with no TRICKS!! before anything is set in "CONCRETE" give us proper DEMOCRACY not just insults etc by messrs Cameron, Osborne, Hague etc !!!                                   |

| Mr & Mrs Walker                 | show as a Plain English answer  |
| Chigwell Residents Action Group | But many/most residents do not. The overwhelming response we got was disbelief. Residents simply cannot believe how this sort of process can happen without more open processes, accessible processes.  |

| Lesley Wagland<br>Member of<br>Chigwell Parish<br>Council and of<br>Chigwell<br>Residents<br>Association | <u>But</u> my residents do not and are disbelieving of what councillors and residents associate have told them because they do not believe this can happen without letters to them or simple forms to fill in.   |
| Edie Bow<br>(Chairman)<br>Chigwell<br>Residents<br>Association   | The unhelpful and unfriendly documents actually hindered residents in becoming engages or involved in the process  |
| Mr Grainger<br>Davies  | Local Plan Documents like the present Issues and Options Paper are far too complicated to obtain a meaningful response from the general public who might be affected. There needs to be a separate simplified summary edition produced for circulation to such people with a well thought out questionnaire as a basis for response. Also, the response mechanism is defective as it relies on replying to a set of pro forma questions without any opportunity for clarification or for supplementary questions and answers in clarification by the respondent. the present website mode of response is awkward, cumbersome and the guidelines for its use seem absent or well hidden. There seems to be no process for verification or receipt equivalent to that of registering a postal or email response and return by the Council of an acknowledgement of safe receipt. The existing system does not appear to be geared to accept a textual response to a question, nor does it facilitate the taking of a printed copy by the respondent for record purposes. |
| Mrs Lisa Berry<br>& Mrs A<br>McCarthy  | NO - parish council not readily offering information - parish council website not fully working, offering information, never available.  |
