**CONDITIONS**

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 The works hereby approved to 84 and 86 Englands Lane shall be carried simultaneously. Should works to one house be commenced more than 14 days prior to works starting at the neighbouring attached house, those works shall cease and not recommence until works to the attached house have also been commenced. No work to form the dormer windows hereby approved shall be commenced until the ridge of both houses has been raised and roof slopes formed to the height and pitch shown on the approved plans.
- 3 The development hereby permitted will be completed strictly in accordance with the approved drawing numbers 1 -7 as numbered by the Local Planning Authority.
- 4 No construction works above ground level shall have taken place until documentary and photographic details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority, in writing, prior to the commencement of the development. The development shall be implemented in accordance with such approved details.

**Subject to the completion, within 3 months of a resolution to grant planning permission, an agreement under section 106 of the Town and Country Planning Act 1990 requiring the owners of 84 and 86 Englands Lane to carry out the approved works to both houses simultaneously.**

<b>DESCRIPTION OF PROPOSAL:</b>	Replacement of the existing palisade fencing and gates with 'Metal framed infill panels'. (Revised application)
<b>DECISION:</b>	Refused Permission

[http://planpub.eppingforestdc.gov.uk/AniTelM.websearch/ExternalEntryPoint.aspx?SEARCH\\_TYPE=1&DOC\\_CLASS\\_CODE=PL&FOLDER1\\_REF=542458](http://planpub.eppingforestdc.gov.uk/AniTelM.websearch/ExternalEntryPoint.aspx?SEARCH_TYPE=1&DOC_CLASS_CODE=PL&FOLDER1_REF=542458)

**REASONS**

- 1 Notwithstanding the alterations proposed to the structure, it would remain of utilitarian design, better suited to an industrial setting rather than the semi-rural character of the application site, contrary to policies CP2, GB2A and GB7A of the Adopted Local Plan and Alterations which are consistent with the policies contained in the National Planning Policy Framework,
- 2 The proposed alterations to the gate would be unlikely to resemble the finish of the purpose built gate pictured within the application submission, by reason of the existing structure being altered rather than replaced. As a consequence the altered structure may have an unattractive appearance, harmful to the visual amenities of the locality, contrary to policy DBE1 of the Adopted Local Plan and Alterations which is consistent with policies contained within the National Planning Policy Framework.

Members of the committee considered that a replacement gate of reduced height and a design more in keeping with the semi-rural character of the site may address the concerns raised in respect of the current proposal. The applicant is further advised to consider the use of alternate materials (including) wood and to undertake consultation with interested parties.

**CONDITIONS**

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 Materials to be used for the external finishes of the proposed development, shall match those of the existing building, unless otherwise agreed in writing by the Local Planning Authority.
- 3 The development hereby permitted will be completed strictly in accordance with the approved four drawings numbered PAS/GLA/01 to PAS/GLA/04.
- 4 Other than the openings shown on the plans hereby approved no more window or door openings shall be formed without the prior approval of the local planning authority.
- 5 Prior to occupation of the proposed development the Developer shall be responsible for the provision and implementation of a Residential Travel Information Pack for sustainable transport approved by Essex County Council.
- 6 The existing gates across the access road to the site shall be retained, or replacement gates provided in accordance with details to be approved by the local planning authority before any work commences on site. These gates shall thereafter be retained on a permanent basis.
- 7 Notwithstanding the provisions of the Town and Country Planning General Permitted Development Order 1995 as amended (or any other order revoking, further amending or re-enacting that order) no development generally permitted by virtue of Schedule 2, Part 1, Classes A, B and E shall be undertaken without the prior written permission of the Local Planning Authority.

- 8 No development shall take place until a Phase 1 Land Contamination investigation has been carried out. A protocol for the investigation shall be submitted to and approved in writing by the Local Planning Authority before commencement of the Phase 1 investigation. The completed Phase 1 report shall be submitted to and approved by the Local Planning Authority prior to the commencement of any necessary Phase 2 investigation. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the Phase 2 site investigation condition that follows]
- 9 Should the Phase 1 Land Contamination preliminary risk assessment carried out under the above condition identify the presence of potentially unacceptable risks, no development shall take place until a Phase 2 site investigation has been carried out. A protocol for the investigation shall be submitted to and approved in writing by the Local Planning Authority before commencement of the Phase 2 investigation. The completed Phase 2 investigation report, together with any necessary outline remediation options, shall be submitted to and approved by the Local Planning Authority prior to any redevelopment or remediation works being carried out. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the remediation scheme condition that follows]
- 10 Should Land Contamination Remediation Works be identified as necessary under the above condition, no development shall take place until a detailed remediation scheme to bring the site to a condition suitable for the intended use has been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved remediation scheme unless otherwise agreed in writing by the Local Planning Authority. The remediation scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures and any necessary long term maintenance and monitoring programme. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 or any subsequent version, in relation to the intended use of the land after remediation.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the verification report condition that follows]

- 11 Following completion of measures identified in the approved remediation scheme and prior to the first use or occupation of the development, a verification report that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval in writing. The approved monitoring and maintenance programme shall be implemented.
  
- 12 In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the approved Phase 2 report, it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken in accordance with a methodology previously approved by the Local Planning Authority. Following completion of measures identified in the approved remediation scheme, a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with the immediately above condition.
