http://planpub.eppingforestdc.gov.uk/AniteIM.websearch/ExternalEntryPoint.aspx?SEARCH_TYPE=1&DOC_CLASS_CODE=PL&FOLDER1_REF=549831

REASON FOR REFUSAL

- 1 By reason of its bulk and unsympathetic design, the proposal fails to complement the design of the existing house and, as a consequence, would be harmful to the appearance of the house and the character and appearance of the locality. Accordingly, the proposal is contrary to policies CP2(iv) and DBE10 of the Adopted Local Plan and Alterations, which are consistent with the policies of the National Planning Policy Framework.

POSITIVE AND PROACTIVE STATEMENT

Members found the design of the proposal so unsympathetic it would cause serious harm to the visual amenities of the locality. In view of the degree of harm that would be caused they found it appropriate to give little significant weight to a potential fall back position. As a way forward, Members recommended a major redesign that ensured the proposal retained the character of the house, particularly key elements of the roof form.
