**REASON FOR REFUSAL**

- 1 Although it is recognised that G2 sycamore is growing closely with other trees this is not sufficient to justify the loss of its visual and other amenity. The loss of the tree's existing and potential visual amenity is therefore contrary to policy LL9 of the Council's Adopted Local Plan and Alterations.

Members requested that enforcement action be taken to rectify the breach as soon as possible.

**REASON FOR REFUSAL**

- 1 The proposed development would have a greater impact on the openness of the Green Belt than the authorised use of the site and therefore constitute inappropriate development within the Green Belt. No very special circumstances exist that clearly outweigh the harm from the development and therefore the proposed change of use is contrary to the guidance contained within the National Planning Policy Framework and policies GB2A and CP2 of the adopted Local Plan and Alterations.
- 2 The proposed development, due to the intensification of the use of the site, would increase the existing nuisance suffered by neighbouring residents that results in a loss of amenity, contrary to policies DBE9 and RP5A of the adopted Local Plan and Alterations.
- 3 The proposed development, due to the nature of the use proposed, increases the visual harm that results from the site, detrimental to the appearance and character of the area and contrary to the guidance contained within the National Planning Policy and policies CP2 and GB7A of the adopted Local Plan and Alterations.
