The Committee found the agricultural business at Top View Farm was not viable because there were significantly less than 1000 chickens present at the farm when it was inspected by an expert agricultural consultant employed by the Council. Members did not find the applicant's explanation that she had disposed of unproductive chickens and needed to restock an adequate explanation for the shortfall.

Members found the numbers of chickens at the farm inconsistent with the evidence of financial viability submitted by the applicant. They indicated the way forward for the applicant is to provide further evidence of the size of the flock at Top View Farm. However, in view of the planning and planning enforcement history, Members made clear the Committee expects Officers to take action to secure compliance with an effective enforcement notice requiring removal of the mobile home.

**REASON FOR REFUSAL**

- 1 The mobile home is not demonstrably essential for the purposes of an agricultural enterprise since the information submitted in support of the proposal does not adequately demonstrate the viability of the enterprise carried out at Top View Farm. As a consequence the proposal is inappropriate development in the Green Belt that is contrary to Local Plan and Alterations Policies GB2A and GB17A, which are consistent with the policies of the National Planning Policies Framework.

Members found the proposal was not inappropriate in the Green Belt and that the harm that would be caused to openness would not be disproportionate to the need for the development. However they were concerned to ensure the proposal did not cause excessive harm to the living conditions of neighbours. To that end, Members found a way forward would be for the proposed building to be resited out of alignment with the front elevation of 'The Barn' and to address the impact of the vehicular access to the site, which is opposite 'The Barn'

**REASON FOR REFUSAL**

- 1 By reason of its siting opposite neighbouring dwellings the proposal would be harmful to the outlook from those dwellings, particularly 'The Barn'. The degree of harm caused to the living conditions of 'The Barn' would be excessive, therefore the proposal is contrary to Local Plan and Alteration policy DBE9, which is consistent with the National Planning Policy Framework.

**CONDITIONS**

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 The development hereby permitted will be completed strictly in accordance with the approved drawings nos: 839/01, 839/02c, 839/03d, 839/04c, 839/05b, 839/06c
- 3 No construction works above ground level shall take place until documentary and photographic details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority, in writing. The development shall be implemented in accordance with such approved details.
- 4 Prior to first occupation of the development hereby approved, the proposed window opening(s) in the] flank elevation(s) shall be entirely fitted with obscured glass and have fixed frames to a height of 1.7 metres above the floor of the room in which the window is installed and shall be permanently retained in that condition.
- 5 Notwithstanding the provisions of the Town & Country Planning General Permitted Development Order 1995 (or of any equivalent provision in any Statutory Instrument revoking or re-enacting that Order), the garage(s) hereby approved shall be retained so that it is capable of allowing the parking of cars together with any ancillary storage in connection with the residential use of the site, and shall at no time be converted into a room or used for any other purpose.
- 6 Should the Phase 1 Land Contamination preliminary risk assessment carried out under the above condition identify the presence of potentially unacceptable risks, no development shall take place until a Phase 2 site investigation has been carried out. A protocol for the investigation shall be submitted to and approved by the Local Planning Authority before commencement of the Phase 2 investigation. The

completed Phase 2 investigation report, together with any necessary outline remediation options, shall be submitted to and approved by the Local Planning Authority prior to any redevelopment or remediation works being carried out. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.

[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the remediation scheme condition that follows]

- 7 The proposed use of this site has been identified as being particularly vulnerable if land contamination is present, despite no specific former potentially contaminating uses having been identified for this site.

Should any discoloured or odorous soils be encountered during development works or should any hazardous materials or significant quantities of non-soil forming materials be found, then all development works should be stopped, the Local Planning Authority contacted and a scheme to investigate the risks and / or the adoption of any required remedial measures be submitted to, agreed and approved in writing by the Local Planning Authority prior to the recommencement of development works.

Following the completion of development works and prior to the first occupation of the site, sufficient information must be submitted to demonstrate that any required remedial measures were satisfactorily implemented or confirmation provided that no unexpected contamination was encountered.

- 8 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.
- 9 No development shall take place, including site clearance or other preparatory work, until full details of both hard and soft landscape works (including tree planting) and implementation programme (linked to the development schedule) have been submitted to and approved in writing by the Local Planning Authority. These works shall be carried out as approved. The hard landscaping details shall include, as appropriate, and in addition to details of existing features to be retained: proposed finished levels or contours; means of enclosure; car parking layouts; other minor artefacts and structures, including signs and lighting and functional services above and below ground. The details of soft landscape works shall include plans for planting or establishment by any means and full written specifications and schedules of plants, including species, plant sizes and proposed numbers /densities where appropriate. If within a period of five years from the date of the planting or establishment of any tree, or shrub or plant, that tree, shrub, or plant or any replacement is removed, uprooted or destroyed or dies or becomes seriously damaged or defective another tree or shrub, or plant of the same species and size as that originally planted shall be planted at the same place, unless the Local Planning Authority gives its written consent to any variation.

- 10 Prior to commencement of the development details showing the means to prevent the discharge of surface water from the development onto the highway shall be submitted to and approved in writing by the Local Planning Authority. The approved scheme shall be carried out in its entirety prior to the access becoming operational and shall be retained at all times.
- 11 Any gates provided at the vehicular access shall be inward opening only and shall be set back a minimum of 6 metres from the back edge of the carriageway.
- 12 No unbound material shall be used in the surface treatment of the vehicular access within 6 metres of the highway boundary of the site.
- 13 Prior to the commencement of works on site, the boundary between the two properties shall be erected. This is to ensure that the alder tree in the rear garden of 171 High Road is protected from damage during construction works.
- 14 A flood risk assessment and management and maintenance plan shall be submitted to and approved by the Local Planning Authority prior to the commencement of the development. The assessment shall demonstrate that adjacent properties shall not be subject to increased flood risk and, dependant upon the capacity of the receiving drainage, shall include calculations of any increased storm run-off and the necessary on-site detention. The approved measures shall be carried out prior to the substantial completion of the development hereby approved and shall be adequately maintained in accordance with the approved management and maintenance plan.

<b>SITE ADDRESS:</b>	The Maltings Matching Green Essex CM17 0QE
<b>PARISH:</b>	Matching
<b>WARD:</b>	Hastingwood, Matching and Sheering Village
<b>DESCRIPTION OF PROPOSAL:</b>	Proposed 3 no. detached dwellings.
<b>DECISION:</b>	Refuse Permission

**REASON FOR REFUSAL**

- 1 The proposed development would not constitute a limited infill within a village and as such would be inappropriate development harmful to the openness of the Green Belt. No very special circumstances exist that clearly outweigh this harm. Therefore the proposal is contrary to the guidance contained within the National Planning Policy Framework and policies CP2 and GB2A of the adopted Local Plan and Alterations.
- 2 The principle of the proposed development and the design of the dwellings would be detrimental to the character and appearance of the conservation area and would harm its significance as a heritage asset, contrary to the guidance contained within the National Planning Policy Framework and policies HC6 and HC7 of the adopted Local Plan and Alterations.
- 3 The proposed development would intensify the use of the existing substandard access, which cannot achieve the required vehicular visibility splays of 2.4 metres x 90 metres. Therefore the development would result in an unacceptable degree of hazard to all road users to the detriment of highway safety, contrary to the guidance contained within the National Planning Policy Framework and policy ST4 of the adopted Local Plan and Alterations.
- 4 The proposed development falls within the threshold for affordable housing provision. As the proposal fails to make provision for affordable housing, or justify the lack of affordable housing, the development is contrary to policies H5A, H6A and H7A of the adopted Local Plan and Alterations.
