One of the key priorities of the Museum Redevelopment Project is to provide step-free access across the whole of the museum building, in order to make it fully DDA compliant, by way of installing a lift, which will access all floor levels. This will enable the collections and temporary exhibitions to be accessed by people of all ages and abilities, many of whom will not have previously had this opportunity.

Therefore, this report serves to proactively enable the engagement of people with physical disabilities and those with limited mobility.
