Guidance for Members at Site Visits

Formal site visits may be requested by any Planning Committee. These can be requested either before a planning meeting or resolved at the meeting concerned. However, these consume resources and delay determination of an application. It is good practice to consider site visits only where there is a substantial benefit to the decision-making process, e.g. when the impact of the proposed development is difficult to visualise from prior inspection from a public place, or from the plans and the supporting material; or it is particularly contentious.

It is recognised that Councillors are subject to lobbying on specific applications. In such cases, it is essential that care is taken to maintain the Council's and its members' integrity so as to protect the credibility of the planning process.

Councillors are asked to bear in mind the following guidance when undertaking planning site visits so as to avoid the perception of pre-determination.

- Site visits should be undertaken at an agreed predetermined time and conducted in a single group with a planning officer present at all times.
- Members of the committee concerned are encouraged to attend site visits.
- The site visit is managed by the Chairman, Vice-Chairman or planning officer present. The Chairman or Vice Chairman will remind Councillors of the guidance at the beginning of each visit. Members of the committee or subcommittee should not enter into discussions with interested parties, such as the applicant, the agent or neighbours during the visit.
- Councillors/Planning Officers should not allow interested parties to use the site visit as an opportunity of lobbying members of the committee. It is made clear to other parties at the outset that the purpose is to gather information and to view the site only.
- Any questions from Councillors should be limited to questions of fact and directed, in the first instance, to the planning officer present and not directly to interested parties present.
- In the interests of fairness to all parties, members as a single group should consider the desirability of viewing an application site from more than one property when the site visit is arranged.
- Councillors must ensure that the application is not determined at the site visit
- Councillors should avoid acceptance of any hospitality at a site visit which could be misinterpreted by third parties.
