**REASON FOR REFUSAL**

- 1 The proposed replacement dwelling would be materially larger than the existing building and therefore constitutes inappropriate development harmful to the Green Belt. There are no very special circumstances that clearly outweigh the harm to the Green Belt and therefore the proposal fails to comply with the guidance contained within the National Planning Policy Framework and policies CP2 and GB2A of the adopted Local Plan and Alterations.

Way Forward

Members suggested way forward would be to propose a smaller, more appropriate dwelling

**REASONS FOR REFUSAL**

- 1 The proposed dwelling, by reason of its position to the rear of the neighbouring number 25 Piercing Hill, its depth and height, its proximity to the side boundary, and its raised ground level, would be an unneighbourly and obtrusive development that would detract from the outlook and amenity of the neighbouring house at number 25. The proposal would therefore be contrary to policy DBE9 of the adopted Local Plan and Alterations, and contrary to the National Planning Policy Framework (NPPF).
- 2 The proposed gates, railings and walls are of excessive height and will be over dominant within the street scene, out of character with, and harmful to the visual amenity of this lower part of Piercing Hill, contrary to policies CP7 and DBE1 of the adopted Local Plan and Alterations.

**CONDITIONS**

- 1 The development hereby permitted must be begun not later than the expiration of three years beginning with the date of this notice.
- 2 The development hereby permitted will be completed strictly in accordance with the approved drawings nos:001. 200.0.18, 201 0.6, 202 02, 203 0.3, 204 0.3, 205 0.2, 206 0.0, 207 0.3, 208 0.3, 209 0.2, 211 0.3,
- 3 No construction works above ground level shall take place until documentary and photographic details of the types and colours of the external finishes have been submitted to and approved by the Local Planning Authority, in writing. The development shall be implemented in accordance with such approved details.
- 4 No development shall take place until details of foul and surface water disposal have been submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with such agreed details.
- 5 No development shall take place until wheel washing or other cleaning facilities for vehicles leaving the site during construction works have been installed in accordance with details which shall be submitted to and agreed in writing by the Local Planning Authority. The approved installed cleaning facilities shall be used to clean vehicles immediately before leaving the site.

- 6 Notwithstanding the provisions of the Town & Country Planning (General Permitted Development) (England) Order 2015 (or of any equivalent provision in any Statutory Instrument revoking or re-enacting that Order), the garage(s) hereby approved shall be retained so that it is capable of allowing the parking of cars together with any ancillary storage in connection with the residential use of the site, and shall at no time be converted into a room or used for any other purpose.
- 7 All elements of the recommendations for reptile mitigation, compensation and enhancement set out within the submitted Reptile Survey by Ethos Environment Planning Dated October 2015 shall be carried out in full.
- 8 No development, including works of demolition or site clearance, shall take place until a Tree Protection Plan Arboricultural Method Statement and site monitoring schedule in accordance with BS:5837:2012 (Trees in relation to design, demolition and construction - recommendations) has been submitted to the Local Planning Authority and approved in writing. The development shall be carried out only in accordance with the approved documents unless the Local Planning Authority gives its written consent to any variation.
- 9 No development shall take place, including site clearance or other preparatory work, until full details of both hard and soft landscape works (including tree planting) and implementation programme (linked to the development schedule) have been submitted to and approved in writing by the Local Planning Authority. These works shall be carried out as approved. The hard landscaping details shall include, as appropriate, and in addition to details of existing features to be retained: proposed finished levels or contours; means of enclosure; car parking layouts; other minor artefacts and structures, including signs and lighting and functional services above and below ground. The details of soft landscape works shall include plans for planting or establishment by any means and full written specifications and schedules of plants, including species, plant sizes and proposed numbers /densities where appropriate. If within a period of five years from the date of the planting or establishment of any tree, or shrub or plant, that tree, shrub, or plant or any replacement is removed, uprooted or destroyed or dies or becomes seriously damaged or defective another tree or shrub, or plant of the same species and size as that originally planted shall be planted at the same place, unless the Local Planning Authority gives its written consent to any variation.
- 10 The parking area shown on the approved plan shall be provided prior to the first occupation of the development and shall be retained free of obstruction for the parking of residents (staff) and visitors vehicles.
- 11 The turning area shown on the approved plans shall be provided prior to the first occupation of the site and retained thereafter free of obstruction to enable a vehicle to turn and leave in a forward gear.
- 12 A flood risk assessment and management and maintenance plan shall be submitted to and approved by the Local Planning Authority prior to commencement of development. The assessment shall include calculations of increased run-off and associated volume of storm detention using WinDes or other similar best practice

tools. The approved measures shall be carried out prior to the substantial completion of the development and shall be adequately maintained in accordance with the management and maintenance plan.

- 13 No development shall take place until a Phase 1 Land Contamination investigation has been carried out. A protocol for the investigation shall be submitted to and approved in writing by the Local Planning Authority before commencement of the Phase 1 investigation. The completed Phase 1 report shall be submitted to and approved in writing by the Local Planning Authority prior to the commencement of any necessary Phase 2 investigation. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the Phase 2 site investigation condition that follows]
- 14 Should the Phase 1 Land Contamination preliminary risk assessment carried out under the above condition identify the presence of potentially unacceptable risks, no development shall take place until a Phase 2 site investigation has been carried out. A protocol for the investigation shall be submitted to and approved by the Local Planning Authority before commencement of the Phase 2 investigation. The completed Phase 2 investigation report, together with any necessary outline remediation options, shall be submitted to and approved by the Local Planning Authority prior to any redevelopment or remediation works being carried out. The report shall assess potential risks to present and proposed humans, property including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, groundwaters and surface waters, ecological systems, archaeological sites and ancient monuments and the investigation must be conducted in accordance with DEFRA and the Environment Agency's "Model Procedures for the Management of Land Contamination, CLR 11", or any subsequent version or additional regulatory guidance.  
[Note: This condition must be formally discharged by the Local Planning Authority before the submission of details pursuant to the remediation scheme condition that follows]
- 15 Should Land Contamination Remediation Works be identified as necessary under the above condition, no development shall take place until a detailed remediation scheme to bring the site to a condition suitable for the intended use has been submitted to and approved by the Local Planning Authority. The development shall be carried out in accordance with the approved remediation scheme unless otherwise agreed in writing by the Local Planning Authority. The remediation scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures and any necessary long term maintenance and monitoring programme. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 or any subsequent version, in relation to the intended use of the land after remediation.  
[Note: This condition must be formally discharged by the Local Planning Authority

before the submission of details pursuant to the verification report condition that follows]

- 16 Following completion of measures identified in the approved remediation scheme and prior to the first use or occupation of the development, a verification report that demonstrates the effectiveness of the remediation carried out must be produced together with any necessary monitoring and maintenance programme and copies of any waste transfer notes relating to exported and imported soils shall be submitted to the Local Planning Authority for approval. The approved monitoring and maintenance programme shall be implemented.
- 17 In the event that any evidence of potential contamination is found at any time when carrying out the approved development that was not previously identified in the approved Phase 2 report, it must be reported in writing immediately to the Local Planning Authority. An investigation and risk assessment must be undertaken in accordance with a methodology previously approved by the Local Planning Authority. Following completion of measures identified in the approved remediation scheme, a verification report must be prepared, which is subject to the approval in writing of the Local Planning Authority in accordance with the immediately above condition.
- 18 All construction/demolition works and ancillary operations, including vehicle movement on site which are audible at the boundary of noise sensitive premises, shall only take place between the hours of 07.30 to 18.30 Monday to Friday and 08.00 to 13.00 hours on Saturday, and at no time during Sundays and Public/Bank Holidays unless otherwise agreed in writing by the Local Planning Authority.
- 19 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:
  1. The parking of vehicles of site operatives and visitors
  2. Loading and unloading of plant and materials
  3. Storage of plant and materials used in constructing the development
  4. The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate
  5. Measures to control the emission of dust and dirt during construction, including wheel washing.
  6. A scheme for recycling/disposing of waste resulting from demolition and construction works.
- 20 Prior to the first occupation of the development the access arrangements and visibility splays shown in principle on drawing number 410.201 rev 06, including the implementation of a Traffic regulation Order for parking restrictions in the vicinity of the site access on Institute road, shall be fully implemented and maintained as such in perpetuity.

21 All elements of the bat mitigation and enhancement recommendations set out within the submitted bat Survey by Ethos Environment Planning (October 2015) shall be carried out in full.

**And subject to the applicant first entering into a Legal Agreement under Section 106, to secure 6, two bed apartments as affordable rented accommodation and 3, three bed dwellings as shared ownership units. The agreement must be completed before the 12<sup>th</sup> of September 2016 unless an alternative date has been agreed in writing with the Local Planning Authority.**
