Impact on the social, economic and environmental well-being of the area:

Car parking is one of the most contentious issues and there are wide ranging implications in control. Much damage is caused to kerbs and verges due to narrowing of carriageways from constant parking of cars. Congestion is caused leading to increase in emissions from exhausts. Road journey time is increased and also collisions. Mostly people want cars to be very near their residence and are unhappy with commuter's cars outside their houses polluting the street scene.
