

Telecommunications Mast – Waltham Abbey

Question by Mr and Mrs D Brooks to Councillor Mrs A Grigg, Planning and Economic Development Portfolio Holder

“We strongly object to the recent sighting of the O2 mast at the junction of Honey Lane and Stonyshotts which was erected by default due to incompetence by Epping Forest District Council.

Also, in our opinion not only is the mast unsightly but it is extremely hazardous to the health of the local residents. It has also devalued the properties in the close proximity.

Will the Portfolio Holder for Planning and Economic Development give the residents an assurance that the mast will be removed at the earliest opportunity?”
